Accounting Education Leslie A. Cordie,Anthony H. CatanachJr.,2008-06-27 Explains how faculty members can improve their teaching methods or how accounting units can improve their curricula programs **Accounting Education Research** Richard M.S. Wilson,2015-04-10 An annual prize is awarded for the best paper appearing in Accounting Education an international journal and this book contains the prize winning papers for every year from 1992 to 2012 The journal s primary mission since the first issue was published in March 1992 has been to enhance the educational base of accounting practice and all the papers in this book relate to that mission These papers reporting on research studies undertaken by accounting education scholars from around the world build on research findings from the broader domain of education scholarship and embrace a wide array of topics including curriculum development pedagogic innovation improving the quality of learning and assessing learning outcomes Of particular interest are three themes each of which runs through several of the papers students approaches to learning and learning style preferences ethics and moral intensity and innovation within the accounting curriculum Accounting educators will find many ideas in the book to help them in enriching their work and accounting education researchers will be able to identify many points of departure for extending the studies on which the papers report whether comparatively or longitudinally This book is a compilation of papers originally published in Accounting Education an international journal *The Routledge Handbook of Accounting Ethics* Eileen Z. Taylor,Paul F. Williams,2020-12-29 The perspective of this book is to present ethics as a conversation about how we decide what is good or bad right or wrong It is a collection of conversations employed by educators to assist accounting students in developing their understanding of accounting s ethical aspects and to help them develop into critical thinkers who consider the ethical complexities of the function of accounting in human society Because we are social beings ethics is a central human concern since it involves determining the ethicality of human actions and their effect on other individuals as well as determining the collective societal acceptance or rejection of an action Thus the book s primary goal is to call attention to the intersectionality of accounting and ethics and to encourage students and researchers to consider the ethical implications of accounting decisions The book contains a diversity of perspectives within which discussions of accountants and accounting s ethical responsibilities may occur The contributing authors were deliberately chosen for their diverse perspectives on whence moral guidance for accounting may come Each chapter stands on its own and represents the thinking of its authors The book is not a primer on correct behavior for accountants but a place where educators may spur the conversation along *The Oxford Handbook of Critical Management Studies* Mats Alvesson,Todd Bridgman,Hugh Willmott,2009-06-18 Critical Management Studies CMS has emerged as a movement that questions the authority and relevance of mainstream thinking and practice Critical of established social practices and institutional arrangements it challenges prevailing systems of domination and promotes the development of alternatives to them CMS draws upon diverse critical traditions Of particular importance for its initial articulation was the thinking of members of the Frankfurt School of Critical Theory From these foundations CMS has

grown into a pluralistic and inclusive movement incorporating a diverse range of perspectives ranging from labour process theory to radical feminism In recent times a set of ideas broadly labelled poststructuralist have been developed to complement and challenge the insights of Critical Theory giving new impetus for scholars seeking to challenge the status quo and articulate a more inclusive and humane future for management practice The Oxford Handbook of Critical Management Studies provides an overview of theoretical approaches key topics issues and subject specialisms in management studies as well as a set of reflections on the progress and prospects of CMS Contributors are all specialists in the respective fields and share a concern to interrogate and challenge received wisdom about management theory and practice Given the rapid growth of the CMS movement its ever increasing theoretical and geographical diversity and its outreach into the public sphere The Oxford Handbook of Critical Management Studies is a timely publication In addition to UK contributors where CMS has developed most rapidly there is strong representation from North American contributors as well as from areas where CMS has taken hold more recently such as Australasia

Sustainability Accounting and Accountability Jan Bebbington, Jeffrey Unerman, Brendan O'Dwyer, 2014-06-05 The management and balancing of social environmental and economic sustainability is one of the most complex and urgent challenges facing both private and public sector organizations today with these challenges of sustainability posing many risks to and many opportunities for advancing the aims and performance of organizations Accounting and accountability processes and practices provide key tools to help organizations to more effectively identify and manage the risks and opportunities of sustainability Popular features from the first edition are retained whilst recent developments in theory and practice are accounted for New substantive chapters on water resource accounting carbon accounting and decision making have been introduced and the book continues to benefit from a host of expert contributors from around the world including Jesse Dillard Rob Gray Craig Deegan This comprehensive and authoritative textbook will continue to be a key resource for students of accounting and sustainability as well as being a vital tool for researchers
