Unleashing Greatness - a strategy for school improvement David Hopkins,2024-06-21 There is a paradox at the heart of contemporary school improvement and system change in education Why is it that despite the phenomenal increase in our recent knowledge about what works in schooling standards still lag behind expectations and school level performance is far too variable Unleashing Greatness addresses this paradox and concludes that unless we focus unrelentingly on the quality of teaching in both our small and large scale reform efforts current practice will never meet society s expectations Unleashing Greatness is a compilation of David Hopkins writing into one concise manual to provide an eight step strategy for unleashing greatness Introducing a rational and conceptual framework for pedagogic improvement that has the potential for generating an increasingly specific language for teaching and learning this book significantly aids consistency and precision in the quest for both excellence and equity for all students Written for school improvement activists particularly those who work in laboratory schools or who wish to emulate that ethos and way of working the author himself has located his professional practice for over forty years as well as this book in the middle of that triangle bounded by the vertices of practice research and policy

Jones, Anna Dunlap Higgins-Harrell, Julie A. Little, 2024-06-06 In schools a Code Red alert indicates a potential or immediate threat within a building or on a campus and is the signal for a full scale lockdown of all classrooms This book *Code Red Conversations and Solutions for an Educational System in Crisis* presents a variety of voices from teachers administrators teacher preparation faculty college supervisors and pre service teacher candidates These voices are crying Code Red because they want a broken system repaired For them the system is bleeding cancerous and in turmoil with the expectation that they work under arduous and often dangerous conditions teachers are underpaid devalued exhausted voiceless and abused They face an environment in which politics has replaced learning students are failing and in extreme circumstances walking away from schools or even committing suicide The political discourse is wresting control from teachers in certain states Neurodivergent students are being pushed aside The altruistic profession of teaching is being reduced to factory work in which teachers especially those in their first five years of service are leaving the profession at staggering rates The profession itself is at risk of becoming obsolete The contributors to *Code Red* believe that the American educational system has entered a moment of crisis Their voices need to be heard and their stories and lived experiences should be recognized The adage is true the answer to any problem resides with those who own the problem We cannot create solutions without owning that these issues exist and all of America owns the education of our children Therefore this book provides a dialogic space where everyone involved in the American educational system can reimagine the possibilities of our system and through this process begin creating positive and sustainable changes to bring our system out of crisis In addition to providing a vivid picture of the current state of public schools the book offers real solutions that can be used to produce healthier more successful classrooms It is an invaluable tool for instructors pre service teachers and Colleges of Education administrators Perfect for courses such as Introductory Education Undergraduate Social and Cultural Foundations of Education Introductory Educational Leadership Introductory Undergraduate Teacher Preparation Graduate Foundations of Education and Introductory MAT Graduate
