Utopian Thought In The Western World Belknap Press:

Utopian Thought in the Western World Frank Edward Manuel, Fritzie Prigohzy Manuel, 1979 *Utopian Thought in the Western World* Frank Edward Manuel, Fritzie Prigohzy Manuel, 1979 Ranging over several centuries this history of utopian thought describes the thinkers and the dreamers and their visions of an ideal social order who have left their mark on the thought of later generations

Gender and Utopia in the Eighteenth Century Nicole Pohl, Brenda Tooley, 2007 Utopian exchanges negotiating difference in utopia Lee Cullen Khanna A fragile utopia of sensibility David Simple Joseph F Bartolomeo Gothic utopia heretical sanctuary in Ann Radcliffe's *The Italian* Brenda Tooley Rewriting Rousseau Isabelle de Charrière's domestic dystopia Caroline Weber Utopia in the seraglio feminist hermeneutics and Montesquieu's *Lettres persanes* Mary McAlpin Transparency and the enlightenment body utopian space in Sarah Scott's *Millenium Hall* and De Sade's *The 120 days of sodom* Ana M Acosta Emperess of the world gender and the voyage utopia Nicole Pohl A man might find every think in your country improvement patriarchy and gender in Robert Paltock's *The life and adventures of Peter Wilkins* Elizabeth Hagglund and Jonathan Laidlow Generating regenerated generations race kinship and sexuality in Henry Neville's *Isle of pines* Seth Denbo Thinking globally acting locally enlightenment utopianism for 21st century feminists Alessa Johns

Utopias and Utopians Richard C.S. Trahair, 2013-10-31 Utopian ventures are worth close attention to help us understand why some succeed and others fail for they offer hope for an improved life on earth *Utopias and Utopians* is a comprehensive guide to utopian communities and their founders Some works look at literary utopias or political utopias etc and others examine the utopias of only one country this work examines utopias from antiquity to the present and surveys utopian efforts around the world Of more than 600 alphabetically arranged entries roughly half are descriptions of utopian ventures the other half are biographies of those who were involved Entries are followed by a list of sources and a general bibliography concludes the volume

Utopia and Its Discontents Sebastian Mitchell, 2020-02-20 *Utopia and Its Discontents* traces literary representations of ideal communities from Plato to the 21st century Each chapter offers close readings of key utopian and anti utopian texts to demonstrate how they construct challenge and explore the ideas and forms of earlier utopian writings and the social and political ideals of their own periods In this original and insightful study Sebastian Mitchell demonstrates how literary utopias are often as much about the past as they are about the present and the future *Utopia and Its Discontents* concludes by arguing against the idea that the utopian has been eclipsed by the dystopian in contemporary culture Topics covered include Early political and philosophical authors such as Plato and Thomas More Literary works from Jonathan Swift's *Gulliver's Travels* to George Orwell's *Nineteen Eighty Four* Speculative fiction writers such as H G Wells Aldous Huxley and Margaret Atwood Ecological and feminist texts by Ernest Callenbach Ursula Le Guin and Marge Piercy Twenty first century utopianism This is an essential study for scholars and students of utopian literature

Cultures of Peace Elise Boulding, 2000-05-01 Renowned sociologist Elise Boulding offers an eminent collection of essays

that emphasizes her study of civil society over the past fifty years While most media and academic attention focuses on the extreme violence in today s society Elise Boulding notes an equally significant presence of cultures and societies of peace Here in a volume that represents a life s work she revisits her theme of the connection among family community and government and offers enriching perspectives and advice on how to fuel the process of peace Boulding examines structural violence in terms of the major institutional obstacles to a more peaceful future the tension between the states and the people trapped inside them the tension between the techno sphere and the biosphere and between global systems and local know how She describes social movements around the world that are developing alternative ways of handling the great diversity of human biospheric needs on the planet In addition Boulding brings together her experiences to empower the peace building activities if we are to do better in the twenty first century than we have done in the twentieth century Provided by publisher

Utopias Howard P. Segal,2012-05-21 This brief history connects the past and present of utopian thought from the first utopias in ancient Greece right up to present day visions of cyberspace communities and paradise Explores the purpose of utopias what they reveal about the societies who conceive them and how utopias have changed over the centuries Unique in including both non Western and Western visions of utopia Explores the many forms utopias have taken prophecies and oratory writings political movements world s fairs physical communities and also discusses high tech and cyberspace visions for the first time The first book to analyze the implicitly utopian dimensions of reform crusades like Technocracy of the 1930s and Modernization Theory of the 1950s and the laptop classroom initiatives of recent years **The Philosophy of Utopia**

Barbara Goodwin,2012-12-06 This collection addresses the important function of utopianism in social and political philosophy and includes debate on what its future role will be in a period dominated by dystopian nightmare scenarios *Alchemists of*

Human Nature Petteri Pietikainen,2015-10-06 A study of Modernist utopias of the mind This book examines the psychodynamic writings of Otto Gross C G Jung Wilhelm Reich and Erich Fromm It argues utopianism became increasingly important to the fundamental ambitions of all four thinkers and places the utopian impulse with the historical context of the early twentieth century **Post-Apocalyptic Cultures** Julia Urabayen,Jorge León Casero,2024-03-19 This book advocates

for the necessity of recovering the value of utopias as political projects that open new channels of action The criticism of modern political utopias is based on the supposed impossibility of creating for the future because there is no longer a future apocalyptic ideology However this edited collection seeks to show that the post apocalyptic world in which we live entails a renewed freedom of design for the radical reorganization of institutions Post apocalyptic cultures are not obligated to follow the capitalist anthropocentric correlationist and sovereign modes of the old political project of emancipation the Western enlightenment that has started to collapse With this in mind this book is divided into four sections dedicated to the main themes from which to rethink the projects of political emancipation that are possible nowadays technopolitics posthumanist biopolitics non western politicsl and the crossover between arts and politics *Green Utopianism* Karin Bradley,Johan

Hedrén,2014-03-21 Utopian thought and experimental approaches to societal organization have been rare in the last decades of planning and politics Instead there is a widespread belief in ecological modernization that sustainable societies can be created within the frame of the current global capitalist world order by taking small steps such as eco labeling urban densification and recycling However in the context of the current crisis in which resource depletion climate change uneven development and economic instability are seen as interlinked this belief is increasingly being questioned and alternative developmental paths sought This collection demonstrates how utopian thought can be used in a contemporary context as critique and in exploring desired futures The book includes theoretical perspectives on changing global socio environmental relationships and political struggles for alternative development paths and analyzes micro level practices in co housing alternative energy provision use of green space transportation co production of urban space peer to peer production and consumption and alternative economies It contributes research perspectives on contemporary green utopian practices and strategies combining theoretical and empirical analyses to spark discussions of possible futures **The Nowhere Bible**

Frauke Uhlenbruch,2015-03-10 The Bible contains passages that allow both scholars and believers to project their hopes and fears onto ever changing empirical realities By reading specific biblical passages as utopia and dystopia this volume raises questions about reconstructing the past the impact of wishful imagination on reality and the hermeneutic implications of dealing with utopia good place yet no place as a method and a concept in biblical studies A believer like William Bradford might approach a biblical passage as utopia by reading it as instructions for bringing about a significantly changed society in reality even at the cost of becoming an oppressor A contemporary biblical scholar might approach the same passage with the ambition of locating the historical reality behind it finding the places it describes on a map or arriving at a conclusion about the social reality experienced by a historical community of redactors These utopian goals are projected onto a utopian text This volume advocates an honest hermeneutical approach to the question of how reliably a past reality can be reconstructed from a biblical passage and it aims to provide an example of disclosing not obscuring pre suppositions brought to the text

Totality, Charisma, Authority Mihai Murariu,2016-10-24 This interdisciplinary endeavour portrays the central features of militant movements which hold totality as an important part of their doctrinal core Revisiting the importance of modernity utopianism eschatology charisma psychology and the history of ideas Mihai Murariu pursues a reconstruction of the historical requirements for the emergence of such movements Making a central use of the concept of totalism the work establishes a conceptual bridge from antiquity to the contemporary period whilst also arguing for the suitability of the term in comparison to totalitarianism or political religion The author also proposes a distinct taxonomy for structural elements variants and development phases which may be encountered in totalist movements **Heterotopia and Heritage**

Preservation Smaranda Spanu,2019-05-02 This book approaches the field of built heritage and its practices by employing the concept of heterotopia established by the French philosopher Michel Foucault The fundamental understandings of

heritage its evolution and practices all reveal intrinsic heterotopic features the mirror function its utopic drive and its enclave like nature The book draws on previous interpretations of heterotopia and argues for a reading of heritage as heterotopia considering various heritage mechanisms heritage selection conservation and protection practices and heritage as mnemonic device in this regard Reworking the six heterotopic principles an analysis grid is designed and applied to various built heritage spaces vernacular religious architecture urban 19th century ensembles Guided through this theoretical itinerary the reader will rediscover the heterotopic lens as a minor yet promising Foucauldian device that allows for a better understanding of heritage and its everyday practices

The Epistemology of Utopia Jorge Bastos da Silva, 2013-05-20 The emergence of Utopian Studies as a dynamic field of inquiry situated at the crossroads of several disciplines is a striking development of the past few decades It is symptomatic of a general trend towards the overcoming of epistemological and institutional boundaries and has borne fruit in a number of ways The traditions of utopianism have come to be valued as an important nurturing of possibilities devoted to the critique and the transformation of the world By undertaking the critical interrogation of the given utopia is a figure not only of inversion but of transcendence and fulfilment The present volume takes into account the international development of Utopian Studies in recent decades Its aim is to provide critical revisions revisitings of the assumptions and methods of the discipline through a set of theoretically informed essays that focus on a number of different manifestations of utopianism The topics covered range from Plato's Republic and More's Utopia to modern day cosmopolitics glocalization and the intersections of fiction with esotericism and science

Landscape and Utopia Jody Beck, 2022-12-22 This book examines three landmark utopian visions central to 20th century landscape architectural planning and architectural theory The period between the 1890s and the 1940s was a fertile time for utopian thinking Significant geographic shifts of large populations radically altered relations between capital and labor rapid technological developments large investments in transportation and energy infrastructure and repetitive economic disruptions motivated many individuals to wholly reimagine society including the connections between social relations and the built environment Landscape and Utopia examines the role of landscapes in the political imaginations of the Garden City the Radiant City and Broadacre City Each project uses landscapes to propose a reconstruction of the relationships between land labor and capital but while the projects are well known the role played by landscapes has been largely left unexamined Similarly the radical anti capitalism that underpinned each project has similarly been for the most part left out of contemporary discussions This book sets these projects within a historical and philosophical context and opens a discussion on the role of landscapes in society today This book will be a must read for instructors students and researchers of the history and theory of landscape architectural planning and architecture as well as utopian studies cultural and social history and environmental theory

Brave new words Jeff Prucher, *US American Expressions of Utopian and Dystopian Visions* Saskia Fürst, Yvonne Kaisinger, Ralph Poole, 2017 This collection takes stock of current discourses in American studies on the

political valence of American utopias be they as religious diasporas or as socialist experiments fantastic or realist successful or failed The included essays take into account the spatiality of utopias especially in their visionary scope analyze currents in literary utopias and look at dystopian visions in literature This volume strives to keep alive the long tradition of writers artists and scholars who warned against imminent disasters and envisioned ways to counter such ruinous bearings Series American Studies in Austria Vol 17 Subject Sociology Literary Studies **The English Malady** Glen Colburn,2009-10-02 The eleven essays collected in The English Malady Enabling and Disabling Fictions adopt perspectives from a variety of disciplines history sociology music theater and literary studies in order to examine manifestations of and writing about hysteria in Europe during the long eighteenth century The collection demonstrates not only that hysteria was an important cultural metaphor for the Enlightenment a fact sometimes obscured by scholarly emphasis on the study of hysteria as a nineteenth and early twentieth century phenomenon but also that the period s writers sometimes considered hysteria a blessing as well as a curse Implicit in the various arguments of this collection is the suggestion that hysteria might be considered an expression of early modern ambivalence about the emergence of modernity **The Re-enchantment of Political Science** Thomas W. Heilke,Ashley Woodiwiss,2001-01-01 Religion and politics appear together in newspaper headlines more today than ever before Questions about the relationship between religion and politics on theoretical historical and behavioral levels are likewise heavily debated behind the front pages by scholars in political science who demonstrate the new Christian thinking The Re Enchantment of Political Science engages these scholars in an interdisciplinary conversation concerning the identity and ends of Christian political science It considers whether and to what extent the community of Christian scholarship within its own narrative religious traditions can add a distinctive and significant dimension to the discipline of political science Contributors also explore how the new Christian thinking informs political theory and its subfields including liberalism communitarianism and critical theory Finally the book describes how policy studies are possible within a Christian framework using standard scholarly tools of analysis The Re Enchantment of Political Science in revealing the growing theoretical and methodological sophistication of faith informed political science charts the terrain of political science today
