Turning Points Turning Points

Turning Points Turning Points:

Turning Points Julia Ogilvy, 2011-11-21 When tragedy touched Julia Ogilvy's life she found herself reassessing the way she lived. Married into a life of privilege her wedding was attended by the Queen and Princess of Wales and recently acclaimed Business Woman of the Year she took the decision to leave her career to found a charity. Her story provides a powerful example of how a successful and glamorous life does not always bring peace and how her new role gives her the fulfilment she sought. Julia's turning point was the death of baby Cameron and after telling her story she charts the journeys of others whose lives have been similarly changed from Prime Minister Gordon Brown and Bob Geldof to a young carer in an impoverished inner city environment. This book will provide inspiration to anyone disillusioned by the empty materialism of society.

Turning Points Diego De Leo, 2010 In this remarkable book Professor Diego De Leo, distinguished Italian psychiatrist and world leading researcher into suicide prevention, takes us on a revealing journey into the suicidal mind. Told in the form of letters, twelve life stories disclose much about the human spirit as well as the deep complexities of suicidal behaviour and the struggle for science to understand in the words of the author the worst of all human tragedies. Diego adds his own honest interpretations and comments as a roadmap to guide the reader on the many messages these stories entail.

Turning Points Robert Beringer, 1995 In these nine sermons preachers will find brilliant use of story to illustrate the Lenten message. Beringer focuses on different journeys throughout the New Testament and examines the turning points recorded there. As is stated in the introduction, our Christian faith is a pilgrim faith. The author shows in modern parables how we are called by Christ to be a people on the move with him through time to eternity and the kingdom of God. He shows that we are travelers on the road of faith, never quite arriving at our destination but always growing and being transformed by each encounter with the living God. Following each sermon is a set of discussion questions based on the preceding sermon and the scripture on which the sermon is based. These questions can be copied into the bulletin to help the congregation follow the sermon, used as small group discussion starters distributed to worshipers as they leave church, or be printed in weekly newsletters to reinforce the message given the previous Sunday. Robert Beringer, along with serving as pastor of First Presbyterian Church in Metuchen, New Jersey, is a Visiting Lecturer in Ministry at Princeton Theological Seminary. He holds degrees from Cornell and Princeton Universities. Previous books by Beringer include *The Easter People*, *Something's Coming*, *Something Great*, and *Batteries Not Included*.

Turning Points Holger Janusch, Witold Mucha, Julia Schwanholz, Alexander Reichwein, Daniel Lorberg, 2023-12-18 *Turning Points: Challenges for Western Democracies in the 21st Century* centers around the strikingly under-researched concept of turning points and its application in political science, including various theories, fields, and sub-disciplines. The chapters provide theoretical discussion and conceptual clarity by distinguishing a set of turning points at different analytical levels. Based on a wide range of case studies, the authors illustrate where, when, and how different types of turning points occur or not against the backdrop of current challenges in and for Western democracies.

The conceptual and empirical variety of the volume allows scholars and practitioners in policymaking to develop and apply their own frameworks when dealing with turning point dynamics

Turning Points Herb Colling, 2003-05-22 The Detroit Riot of 1967 marked a turning point in the attitudes and behaviour of people in all walks of life in the Border Cities As the citizens of Windsor watched their nearest neighbour burn the way they felt about Detroit changed radically

Turning Points—Actual and Alternate Histories Rodney P. Carlisle, J. Geoffrey Golson, 2007-09-01 Offering a unique approach to studying one of the most eventful eras in American history this volume looks at a dozen key events of the 1960s and 1970s and considers the possible paths history might have taken if the outcomes had been different This volume in the Turning Points Actual and Alternative Histories series looks at a tumultuous recent era in American history a time when pivotal often tragic world changing events seemed to be happening at an alarming rate America in Revolt during the 1960s and 1970s looks at 12 significant events from the assassination of John F Kennedy to the passage of the Civil Rights Act from the student killings at Kent State to Richard Nixon's resignation Drawing on the concepts of alternative history the book portrays each event as it happened then considers some plausible alternative scenarios of how history would have been different if these events had not occurred It is a uniquely thought provoking way of exploring an explosive era whose aftershocks continue to shape the American experience today

Turning Points, 2002 *Turning Points in the Expansion of Christianity* Alice T. Ott, 2021-11-16 This readable survey on the history of missions tells the story of pivotal turning points in the expansion of Christianity enabling readers to grasp the big picture of missional trends and critical developments Alice Ott examines twelve key points in the growth of Christianity across the globe from the Jerusalem Council to Lausanne 74 an approach that draws on her many years of classroom teaching Each chapter begins with a close up view of a particularly compelling and paradigmatic episode in Christian history before panning out for a broader historical outlook The book draws deeply on primary sources and covers some topics not addressed in similar volumes such as the role of British abolitionism on mission to Africa and the relationship between imperialism and mission It demonstrates that the expansion of Christianity was not just a Western driven phenomenon rather the gospel spread worldwide through the efforts of both Western and non Western missionaries and through the crucial ministry of indigenous lay Christians evangelists and preachers This fascinating account of worldwide Christianity is suitable not only for the classroom but also for churches workshops and other seminars

The Turning Point in the Gospel of Mark Gregg S. Morrison, 2014-09-24 Based on linguistic and thematic links in the narrative The Turning Point in the Gospel of Mark argues that the twin pericopae of Peter's confession 8:27-38 and the Transfiguration 9:2-13 together function as the turning point of the Gospel and serve in a Janus like manner enabling the reader to see the author's main focus the identity of Jesus and the significance of that reality for his disciples Peter's confession of Jesus as Messiah faces backward toward the Prologue 1:1-13 and functions as a mid course conclusion The declaration by God on the mountain faces forward and foreshadows the end course conclusion 14:61-62 15:39 Son of God Jesus in response teaches that the Son of Man must suffer and die before being raised from the dead 8:31 Christologically the images of Messiah Son of Man and Son of God converge and present Jesus the crucified as king ushering in the kingdom of God in power 9:1 acting as the key swivel between the twin pericopae When one is confronted with this Jesus though there remains something elusive about him and the kingdom of God in the narrative the only wise decision after calculating the costs 8:34-38 is to follow
