Why We Do What We Do Understanding Self Motivation:

Why We Do What We Do Edward L. Deci, Richard Flaste, 1996-08-01 What motivates us as students employees and individuals If you reward your children for doing their homework they will usually respond by getting it done But is this the most effective method of motivation No says psychologist Edward L Deci who challenges traditional thinking and shows that this method actually works against performance The best way to motivate people at school at work or at home is to support their sense of autonomy Explaining the reasons why a task is important and then allowing as much personal freedom as possible in carrying out the task will stimulate interest and commitment and is a much more effective approach than the standard system of reward and punishment We are all inherently interested in the world argues Deci so why not nurture that interest in each other Instead of asking How can I motivate people we should be asking How can I create the conditions within which people will motivate themselves An insightful and provocative meditation on how people can become more genuinely engaged and successful in pursuing their goals Publisher s Weekly [Breathe Easy](#) Brynn Sauer, 2020-10-07 The New Testament portrays the Christian life as one of resilient joy overwhelming grace and abundant love Yet if we look around many Christians are riddled with constant fear heavy burdens and excessive self criticism What happened Breathe Easy intertwines personal stories scientific research and biblical evidence behind resting in who God is and what He has done Supported by Brynn Sauer s own journey this book will show you that God desires for you to let go of the worry stress and pressure and start breathing easy [The Reflection Guide to Better Conversations](#) Jim Knight, 2015-10-29 Every worthwhile book has a deeply held belief and for Jim Knight s Better Conversations and this worktext The Reflection Guide to Better Conversations here it is Effective communication is an essential skill for a fulfilled life and we can t teach it to students if we don t know how to do it ourselves Instructional coaches administrators teachers really everyone the royal we is you In this Reflection Guide Jim delivers a framework for improving professional dialogue that is so clearly signposted you might as well call it a day planner Here s how The Reflection Guide to Better Conversations works In Part One you and your peers engage in surveys take stock and record video in order to get real about your current beliefs and abilities How do you measure up when it comes to empathy asking better questions Finding common ground In Part Two learn about the 10 habits of being an effective communicator and put them into practice Are your conversations focused on others 50 percent of the time What things typically distract you from being fully present In Better Conversations Jim Knight reveals why true dialogue improves professional performance job satisfaction and classroom instruction Together with this Reflection Guide the two books provide a brilliant scaffolded professional learning experience on a topic central to learning central to life This is the district wide solution you need are you ready [Autonomy-Supportive Parenting](#) Emily Edlynn, 2023-09-05 As parents we want our children to take responsibility for their schoolwork their chores and their choices We want them to grow into independent adults but when we see them struggling we sometimes have a tendency to step in and problem solve telling

them exactly what to do or even doing things for them ourselves The problem is the more controlling we are with our children the more out of control they feel When our children feel out of control problems big and small follow from more tantrums in thwarted toddlers to a higher risk of drug and alcohol use in adolescence So how do we support our children's autonomy while maintaining boundaries and not losing our minds in the process From clinical psychologist Emily Edlynn PhD comes a flexible parenting framework that can apply to every family and every parental relationship With Autonomy Supportive Parenting you can build trust in your child and trust in yourself Applied Psychology E. to Learn Colleen Alexis Meigher, 2001 *Performance Improvement Quarterly* ,2009 *Mathematics Miseducation* Derek Stolp, 2005-04-07 Author and veteran teacher Derek Stolp has come to the conclusion that learning mathematics is of no real consequence for the vast majority of our children This stance flies in the face of the conventional wisdom held among political leaders business people teachers and parents that mathematics is an essential subject for all children to study well into their high school years In *Mathematics Miseducation* Stolp argues that mathematics as currently taught does not justify inclusion in the curriculum and he suggests practical changes that can be implemented within a traditional school environment to resuscitate mathematics education In this book the author demonstrates that our beliefs about what children need and what motivates them to learn promote practices that are counterproductive and that these practices ultimately corrupt students own healthy motivations Stolp contends that there is too much emphasis upon academics in our schools and that other important dimensions of education such as the social emotional and moral development of our children are ignored Includes Progressive and practical alternatives to the traditional methods of teaching Research and examples citing ways of bringing the discipline to life In seamlessly weaving theory and practice Derek Stolp provides a narrative that is accessible to any adult concerned about what our children are learning in mathematics **English Leadership Quarterly** ,2001 *The Child is Father of the Man* John Abbott, 1999 **The Relationships Between Teachers' Efficacy Beliefs and Reform-oriented Mathematics Teaching** Karl Frederick Wheatley, 1997 **Writing with Passion** Carin R.
