Women's Writing in Italy, 1400-1650 Virginia Cox, 2008-06-16 Winner 2009 Best Book Award Society for the Study of Early Modern Women Winner 2008 PROSE Award for Best Book in Language Literature and Linguistics Professional and Scholarly Publishing Division of the Association of American Publishers This is the first comprehensive study of the remarkably rich tradition of women's writing that flourished in Italy between the fifteenth and early seventeenth centuries Virginia Cox documents this tradition and both explains its character and scope and offers a new hypothesis on the reasons for its emergence and decline Cox combines fresh scholarship with a revisionist argument that overturns existing historical paradigms for the chronology of early modern Italian women's writing and questions the historiographical commonplace that the tradition was brought to an end by the Counter Reformation Using a comparative analysis of women's activities as artists musicians composers and actresses Cox locates women's writing in its broader contexts and considers how gender reflects and reinvents conventional narratives of literary change

The Prodigious Muse Virginia Cox, 2011-09-01 Winner 2012 Book Award Society for the Study of Early Modern Women Honorable Mention Literature 2012 PROSE Awards Professional and Scholarly Publishing Division of the Association of American Publishers In her award winning critically acclaimed *Women's Writing in Italy 1400 1650* Virginia Cox chronicles the history of women writers in early modern Italy who they were what they wrote where they fit in society and how their status changed during this period In this book Cox examines more closely one particular moment in this history in many ways the most remarkable for the richness and range of women's literary output A widespread critical notion sees Italian women's writing as a phenomenon specific to the peculiar literary environment of the mid sixteenth century and most scholars assume that a reactionary movement such as the Counter Reformation was unlikely to spur its development Cox argues otherwise showing that women's writing flourished in the period following 1560 reaching beyond the customary feminine genres of lyric poetry and letters to experiment with pastoral drama chivalric romance tragedy and epic There were few widely practiced genres in this eclectic phase of Italian literature to which women did not turn their hand Organized by genre and including translations of all excerpts from primary texts this comprehensive and engaging volume provides students and scholars with an invaluable resource as interest in these exceptional writers grows In addition to familiar secular works by authors such as Isabella Andreini Moderata Fonte and Lucrezia Marinella Cox also discusses important writings that have largely escaped critical interest including Fonte's and Marinella's vivid religious narratives an unfinished Amazonian epic by Maddalena Salvetti and the startlingly fresh autobiographical lyrics of Francesca Turina Bufalini Juxtaposing religious and secular writings by women and tracing their relationship to the male authored literature of the period often surprisingly affirmative in its attitudes toward women Cox reveals a new and provocative vision of the Italian Counter Reformation as a period far less uniformly repressive of women than is commonly assumed

noteworthy is an extensive selection of verse from the period following 1560 which has received little or no critical attention. This later strikingly experimental proto Baroque tradition of verse is reconstructed here for the first time. Virginia Cox creates both a scholarly teaching resource and a collection of poetry accessible to general readers with no previous knowledge of the Italian poetic tradition. Each poem is presented in its original language accompanied by a translation and commentary. An introduction traces the history of Italian lyric poetry from the fifteenth to the seventeenth century. Cox also provides a guide to meter, rhythm and rhyme as well as a glossary of rhetorical terms and a biographical dictionary of authors. Organized thematically, this book offers poems about love, religion and politics; verse addressed to patrons, friends, family and places; and polemical and correspondence verse. Four languages are represented: Greek, Latin, literary Tuscan of various levels of standardization and the stylized rustic dialect of pavan. The volume contains more than 200 poems, of which about a quarter have never before been published in a modern edition and more than a third have not previously been available in English translation. Exhaustive and insightful. This is an amazing book, a major achievement in the field of women's studies. Renaissance Quarterly reviewing Women's Writing in Italy 1400-1650. **Margherita Sarrocchi's Letters to Galileo** Meredith K. Ray, 2016-06-14. This book examines a pivotal moment in the history of science and women's place in it. Meredith Ray offers the first in-depth study and complete English translation of the fascinating correspondence between Margherita Sarrocchi (1560-1617), a natural philosopher and author of the epic poem *Scanderbeide* (1623), and famed astronomer Galileo Galilei. Their correspondence, undertaken soon after the publication of Galileo's *Sidereus Nuncius*, reveals how Sarrocchi approached Galileo for his help revising her epic poem, offering in return her endorsement of his recent telescopic discoveries. Situated against the vibrant and often contentious backdrop of early modern intellectual and academic culture, their letters illustrate in miniature that the Scientific Revolution was in fact the product of a long evolution with roots in the deep connections between literary and scientific exchanges. **The Italian Renaissance and the Origin of the Humanities** Christopher S. Celenza, 2021-09-09. Connecting to issues in the humanities today, this book shows how the Italian Renaissance influenced and changed Early Modern Europe. [Women Writing Back / Writing Women Back](#) Anke Gilleir, Alicia A. Montoya, Suzanna van Dijk, 2010. Privileging both a transnational and a sociological approach, this volume explores the position of women in the early modern literary field, emphasising the international scope of their literature and examining their historical position, influence, network and dialogues.
