Schwartz, 2017-03-30 In this companion volume to the bestselling The

Midwestern Native Garden Native Alternatives to Nonnative Flowers and Plants Charlotte Adelman and Bernard L Schwartz offer another indispensable guide to replacing nonnative plants with native alternatives This time their subject is the native woody species that are the backbone of our gardens and landscapes Among other ecological benefits native shrubs and trees provide birds and butterflies with vital food and reproductive sites that nonnative species cannot offer And they tend to be hardier and easier to maintain The authors provide a comprehensive selection of native woody alternatives that season by season provide effects similar to those of nonnative shrubs and trees used for ornamental purposes and shade These plants are suitable for all garden styles provide blooms and fall color and have the same cultivation requirements as their nonnative counterparts Nature notes alert readers to the native species unique ecological roles Unlike other gardening guides

Midwestern Native Shrubs and Trees goes beyond mere suggestion to provide gardeners with the tools they need to make informed thoughtful choices Knowing which native species to plant for desired effects empowers landscapers and gardeners to take on a greater role in protecting our midwestern environment

Scenic rural communities across the nation and around the world have been transformed as they have shifted away from extractive industries such as agriculture mining and forestry and toward recreation based development relying on tourism vacation homes and retirees These communities have built new economies and identities based on local natural resources and are highly dependent on the natural environment With these changes have come new questions Do retirees and seasonal residents fit into their new surroundings Do longtime and new residents share the same values and visions for the future Do diverse community members disagree about how to manage their forest and water resources *Condos in the Woods* explores how these issues are reshaping community structure employment and inhabitants attitudes toward their environment in the Northwoods Looking at trends from the 1970s to the present this work moves from the national scale to the Pine Barrens region in northwestern Wisconsin and examines the approaches of residents to the management of their natural resources At the heart of this story the authors find that despite the diverse makeup of such communities residents share many common goals and values and display more successful integration than previously expected Makes a major contribution linking and

expanding beyond an array of research on the question What does the growing dominance of seasonal home ownership and use mean for the communities of northern Wisconsin Susan I Stewart USDA Forest Service Northern Research Station

The Botanists' Library Carolyn Fry, 2024-11-05 The Botanists Library is a lavishly illustrated compendium of the most significant publications that have informed botanical knowledge throughout history *Rights of Nature in Europe* Jenny García Ruales, Katarina Hovden, Helen Kopnina, Colin D. Robertson, Hendrik Schoukens, 2024-04-09 This book addresses the recognition of the Rights of Nature RoN in Europe examining their conceptualisation and implementation RoN refers to a diverse set of legal developments that seek to redefine Nature's status within the law gradually emerging as a novel template for environmental protection Countries like Ecuador and New Zealand each with distinct histories and ways of dwelling in the world have pioneered a new era in environmental governance by legally acknowledging rights or personhood for nature ecosystems and more than human populations In recent years Europe has witnessed growing interest in RoN with academic legislative and political initiatives gaining momentum A significant development is the September 2022 passage of a law in the Spanish Parliament granting legal personhood and rights to the Mar Menor a saltwater lagoon severely affected by environmental degradation Given the diversity in interpretations and articulations of Rights of Nature this edited volume argues that their arrival in Europe fosters different kinds of interactions across distinct areas of law knowledge practices and societal domains The book employs a multidisciplinary approach exploring these interactions in law and policy anthropology Indigenous worldviews and jurisprudence philosophy spiritual traditions critical theory animal communication psychology and social work This book is tailored for scholars in law political science environmental studies anthropology and cultural studies as well as legal practitioners NGOs activists and policy makers interested in ecology and environmental protection
