Why Startups Fail Tom Eisenmann, 2021-03-30 If you want your startup to succeed, you need to understand why startups fail. Whether you're a first-time founder or looking to bring innovation into a corporate environment, Why Startups Fail is essential reading. Eric Ries, founder and CEO of LTSE and New York Times bestselling author of The Lean Startup and The Startup Way, Why do startups fail? That question caught Harvard Business School professor Tom Eisenmann by surprise when he realized he couldn't answer it. So he launched a multiyear research project to find out. In Why Startups Fail, Eisenmann reveals his findings: six distinct patterns that account for the vast majority of startup failures. **Bad Bedfellows** Startup success is thought to rest largely on the founder's talents and instincts. But the wrong team—investors or partners—can sink a venture just as quickly. **False Starts** In following the oft-cited advice to fail fast and to launch before you're ready, founders risk wasting time and capital on the wrong solutions. **False Promises** Success with early adopters can be misleading and give founders unwarranted confidence to expand. **Speed Traps** Despite the pressure to get big fast, hypergrowth can spell disaster for even the most promising ventures. **Help Wanted** Rapidly scaling startups need lots of capital and talent, but they can make mistakes that leave them suddenly in short supply of both. **Cascading Miracles** Silicon Valley exhorts entrepreneurs to dream big. But the bigger the vision, the more things that can go wrong. Drawing on fascinating stories of ventures that

failed to fulfill their early promise from a home furnishings retailer to a concierge dog walking service from a dating app to the inventor of a sophisticated social robot from a fashion brand to a startup deploying a vast network of charging stations for electric vehicles Eisenmann offers frameworks for detecting when a venture is vulnerable to these patterns along with a wealth of strategies and tactics for avoiding them A must read for founders at any stage of their entrepreneurial journey **Why Startups Fail** is not merely a guide to preventing failure but also a roadmap charting the path to startup success **Why Startups Fail** David Feinleib, 2011 For the want to be entrepreneur thinking about taking the leap the boot strapped entrepreneur trying to energize a business three or four years in and the venture backed entrepreneur trying to scale **Why Startups Fail** shows you the key mistakes new ventures make and how to avoid them Nearly everyone has an idea for a product they could build or a company they could start But eight out of 10 new businesses fail within the first three years Even only one in ten venture backed startups succeeds and venture capitalists turn down some 99% of the business plans they see The odds appear to be stacked against you But entrepreneurs often make the same avoidable mistakes over and over **Why Startups Fail** can help you beat the odds and avoid the pitfalls and traps that lead to early startup death It's easy to point to successes like Apple Google and Facebook But the biggest lessons can come from failure What decisions were made and why What would the founders have done differently How did one company become a billion dollar success while another with a better product and in the same market fail Drawing on personal experience as well as the wisdom of the Silicon Valley startup community serial entrepreneur venture capitalist and blogger Dave Feinleib analyzes companies that have come and gone In short powerful chapters he reveals the keys to successful entrepreneurship Excellent product market fit passion superb execution the ability to pivot stellar team good funding and wise spending In **Why Startups Fail** you'll learn from the mistakes Feinleib has seen made over and over and find out how to position your startup for success **Why Startups Fail** Shows venture backed startups and boot strappers alike how to succeed where others fail Is equally valuable for companies still on the drawing board as well as young firms taking their first steps Takes you through the key decisions and pitfalls that caused startups to fail and what you can learn from their failures Covers the critical elements of entrepreneurial success
