Why The World Does Not Exist:

Why the World Does Not Exist Markus Gabriel, 2015-07-06 Where do we come from Are we merely a cluster of elementary particles in a gigantic world receptacle And what does it all mean In this highly original new book the philosopher Markus Gabriel challenges our notion of what exists and what it means to exist He questions the idea that there is a world that encompasses everything like a container life the universe and everything else This all inclusive being does not exist and cannot exist For the world itself is not found in the world And even when we think about the world the world about which we think is obviously not identical with the world in which we think For as we are thinking about the world this is only a very small event in the world Besides this there are still innumerable other objects and events rain showers toothaches and the World Cup Drawing on the recent history of philosophy Gabriel asserts that the world cannot exist at all because it is not found in the world Yet with the exception of the world everything else exists even unicorns on the far side of the moon wearing police uniforms Revelling in witty thought experiments word play and the courage of provocation Markus Gabriel demonstrates the necessity of a questioning mind and the role that humour can play in coming to terms with the abyss of human existence

Everything and Nothing Graham Priest, Markus Gabriel, 2022-09-15 Is it possible for reality as a whole to be part of itself Can the world appear within itself without thereby undermining the consistency of our thought and knowledge claims concerning more local matters of fact This is a question on which Markus Gabriel and Graham Priest disagree Gabriel argues that the world cannot exist precisely because it is understood to be an absolutely totality Priest responds by developing a special form of mereology according to which reality is a single all encompassing whole everything which counts itself among its denizens Their disagreement results in a debate about everything and nothing Gabriel argues that we experience nothingness once we overcome our urge to contain reality in an all encompassing thought whereas Priest develops an account of nothing according to which it is the ground of absolutely everything A debate about everything and nothing but also a reflection on the very possibility of metaphysics *Why Believe* Tawa J. Anderson, 2021-07-09 Why Believe provides accessible explanations of several core concerns of apologetics from arguments for the existence of God and the validity of Christ's resurrection to common questions about the practice of faith *I Exist in All Planes at the Same Time* Deaconess
