Women In 19th Century Europe:

Women in Nineteenth-Century Europe Rachel Fuchs, Victoria E. Thompson, 2004-11-21 During the nineteenth century European women of all countries and social classes experienced dramatic and enduring changes in their familial working and political lives However the history of women at this time is not one of unmitigated progress theirs was an uphill struggle fraught with hindrances hard work and economic downturns and the increasing intrusion of the public into their innermost private and personal lives Breaking away from traditional categories Rachel G Fuchs and Victoria E Thompson provide a sense of the variety and complexity of women s lives across national and regional boundaries juxtaposing the experiences of women with the perceptions of their lives Three themes unite this study The tension between tradition and modernity The changing relationship between the community and individual The shifting boundaries between public and private Dealing with individual women s lives within a large social and cultural context Fuchs and Thompson demonstrate how strong and courageous women refused to live within the prescribed domestic roles and how many became the modern women of the twentieth century

Women's Emancipation Movements in the Nineteenth Century Sylvia Paletschek, Bianka Pietrow-Ennker, 2005-11-14 The nineteenth century a time of far reaching cultural political and socio economic transformation in Europe brought about fundamental changes in the role of women Women achieved this by fighting for their

rights in the legal economic and political spheres In the various parts of Europe this process went forward at a different pace and followed different patterns Most historical research up to now has ignored this diversity preferring to focus on women s emancipation movements in major western European countries such as Britain and France The present volume provides a broader context to the movement by including countries both large and small from all regions of Europe Fourteen historians all of them specialists in women s history examine the origins and development of women s emancipation movements in their respective areas of expertise By exploring the cultural and political diversity of nineteenth century Europe and at the same time pointing out connections to questions explored by conventional scholarship the essays shed new light on common developments and problems

Early Professional Women in Northern Europe, c. 1650-1850 Johanna Ilmakunnas, Marjatta Rahikainen, Kirsi Vainio-Korhonen, 2017-07-06 This book focuses on early examples of women who may be said to have anticipated in one way or another modern professional and or career oriented women The contributors to the book discuss women who may at least in some respect be seen as professionally ambitious unlike the great majority of working women in the past In order to improve their positions or to find better business opportunities the women discussed in this book invested in developing their qualifications and professional skills took economic or other kinds of risks or moved to other countries Socially they range from elite women to women of middle class and lower middle class origin In terms of theory the book brings fresh insights into issues that have been long discussed in the field of women s history and are also debated today However despite its focus on women the book is conceptually not so much focused on gender as it is on profession business career qualifications skills and work By applying such concepts to analyzing women s endeavours the book aims at challenging the conventional ideas about them
