Women Respond To The Mens Movement A Feminist Collection:

Women Respond to the Men's Movement Kay Leigh Hagan, 1992 Some of the most articulate astute and influential feminist thinkers of our time assess the movement's depth complexity and implications from a range of perspectives Back cover

Feminism and Men Steven Schacht, Doris Ewing, 1998-10 Too often feminism has been defined as a woman only arena or in competitive terms of male versus female privilege rather than a cooperative effort to improve the quality of life for everyone Contributors to FEMINISM AND MEN argue that the feminist movement should no longer view with suspicion those men who have proved themselves sympathetic to issues of gender equity

Feminist Alliances, 2006-01-01 This book is about feminism its critics and its possible directions for change The nine chapters raise questions about theories of sexual difference power justice and history A central theme concerns the prospects for combining feminist with other non feminist political perspectives

The Way of the Conscious Warrior P. T. Mistlberger, 2019-09-27 The early 21st century is a complex time presenting unique challenges for men This book examines many of those challenges from dysfunctional relationships and confusion about what it means to be male in the postmodern world to understanding the dark side of the masculine psyche as well as how to apply the best qualities of warrior consciousness to experience overall success and fulfilment in life

Numen, Old Men Joseph Gelfer, 2016-09-17 Since the early 1990s there have been various movements designed to encourage masculine spirituality All these movements share a concern that spirituality has become too feminine and that men's experiences of the spiritual are being marginalized The task of masculine spirituality is to promote authentic masculine characteristics within a spiritual context Numen Old Men examines these characteristics to argue that masculine spirituality is thinly veiled patriarchy The mythopoetic evangelical and Catholic men's movements are shown to promote a hetero patriarchal spirituality by appealing to either combative and oppressive neo Jungian archetypes or biblical models of man as the leader of the family Numen Old Men examines spiritualities that aim to honour and transcend both the masculine and feminine and offers gay spirituality as an example of masculine spirituality that resists patriarchy

Feminism with Men Steven P. Schacht, Doris W. Ewing, 2004-10-08 How can men participate in feminism as a full and equal partner respecting gender differences yet sharing a common vision with women for an oppression free future This book provides both male and female perspectives academic insights and practical suggestions for pro feminist men seeking new ways to increase mutual understanding and to create cooperative efforts with feminist women

Masculinity Studies & Feminist Theory Judith Kegan Gardiner, 2002 Looking at literature film and classroom practices the authors examine the ways male privilege and power are constituted and represented and the effect of such constructions on men and women The volume addresses questions as Why is there so much talk of a crisis in masculinity How have ideas of manhood been transformed by feminism

Him/Her/Self Peter G. Filene, 1999-01-14 When first published in 1975 Him Her Self was a pathbreaking book At a time when scholars were just beginning to explore women's history Peter Filene expanded his inquiry to include both both

genders He was the first to claim the men too had a history grounded in gendered experience Since then much has changed not only in the lives and attitudes of American men and women but in the ways that historians think about gender But *Him Her Self* remains the only book that analyzes the interactions between American men and women comprehensively during the past century In this third edition Filene brings his concise and forceful analysis of 20th century gender history up to the present He describes the new men's movements of the 1980s and 1990s ranging from pro feminist to anti feminist He expands his discussion of the gay and lesbian experience especially in the years since AIDS He assesses the women's movement weighing both its achievements and the antifeminist reactions of the past quarter century Finally he enlarges the conceptual scope of the book focusing not only on social roles of men and women but also on their dynamic sense of identity of self in historical time When *Him Her Self* first appeared women's history was in its infancy Gender as a category of analysis was barely a glow on the scholarly horizon and the idea that manhood was a topic of historical investigation was practically unimagined In that early dawn of feminist scholarship Peter Filene's pioneering work was a godsend It was essential reading for both undergraduate and graduate students eager to understand the workings of gender in history and desperate for models of scholarship that broke the mold of traditional historical writing Peter Filene's path breaking study did both Elaine Tyler May from the Foreword

God and Popular Culture Stephen Butler Murray, Aimée Upjohn Light, 2015-08-11 This contributed two volume work tackles a fascinating topic how and why God plays a central role in the modern world and profoundly influences politics art culture and our moral reflection even for nonbelievers God in the many ways that people around the globe conceptualize Him Her or It is one of the most powerful divisive unifying and creative elements of human culture The two volumes of *God and Popular Culture A Behind the Scenes Look at the Entertainment Industry's Most Influential Figure* provide readers with a balanced and accessible analysis of this fascinating topic that allows anyone who appreciates any art music television film and other forms of entertainment to have a new perspective on a favorite song or movie Written by a collective of both believers and nonbelievers the essays enable both nonreligious individuals and those who are spiritually guided to consider how culture approaches and has appropriated God to reveal truths about humanity and society The book discusses the intersections of God with film television sports politics commerce and popular culture thereby documenting how the ongoing messages and conversations about God that occur among the general population also occur within the context of the entertainment that we as members of society consume often without our recognition of the discussion

Men's Bodies, Men's Gods Bjorn Krondorfer, 1996-01-01 *Men's Bodies Men's Gods* explores the intersection of body religion and culture from the specific perspective of male identities How are male bodies constructed in different historical periods and contexts How do race ethnicity and sexual preference impact on the intersection of male bodies and religious identity Does Christianity provide models to cope with the aging and ailing male body Does it provide models for intimacy between men and women Between men and men And how do men reflect the carnal

dimensions of power abuse and justice
