Emergency Department Compliance Manual 2016 Edition provides everything you need to stay in compliance with complex emergency department regulations. The list of questions helps you quickly locate specific guidance on difficult legal areas such as: Complying with COBRA, Dealing with psychiatric patients, Negotiating consent requirements, Obtaining reimbursement for ED services, Avoiding employment law problems. Emergency Department Compliance Manual also features first-hand advice from staff members at hospitals that have recently navigated a Joint Commission survey and includes frank and detailed information. Emergency Department Compliance Manual includes a concise grid outlining the most recent Joint Commission standards, which will help you learn what responsibilities you have for demonstrating compliance. Plus, Emergency Department Compliance Manual includes sample documentation that hospitals across the country have used to show compliance with legal requirements and Joint Commission standards: Age-related competencies, Patient assessment policies and procedures, Consent forms, Advance directives, Policies and protocols, Roles and responsibilities of ED staff, Quality improvement tools, Conscious sedation policies and procedures, Triage referral and discharge policies and procedures, And much more.

ENDORSEMENTS This book is a must read for business leaders and threat assessment professionals. Felix Nater shares his years of experience and expertise on a very difficult and dynamic topic and delivers a comprehensive guide to identify, assess, and mitigate workplace violence hazards. Felix highlights why workplace violence prevention is a shared responsibility across the entire organization and that successful programs are championed from the top down. This book will help any organization create a culture of workplace violence awareness and instill employee confidence in leadership to provide a safe and secure work environment. Gary Thompson, County of Santa Barbara, California: This book should be required reading for all company executives. Felix's insights on workplace environment disciplines are integral in demonstrating employee commitment from the top down. Fortunately, I have had experience working with Felix in a yeoman capacity where we learned from each other. Felix articulates employee commitment through well-structured practices. I highly recommend his approach provided in this book. The authors are on target. I'm also proud to have his valued friendship. Thomas Rosati, U.S. Postal Service, Suffolk County, NY: This book explores the enterprise approach to preparing and responding to violence in the workplace in a way few have attempted to tackle. As a co-author, my familiarity with Felix Nater's depth of knowledge in the subject shines bright through each chapter. This book is a must read for Physical Security, Human Resources, General Council, all the way to the C-Suite. William Davis, The Carolinas: This book captures the realities facing the workforce in a Post-Covid 19 world. Today, unlike any previous time in history, the workforce has work options that increase workforce security considerations. It is precisely here that so many of us get stuck. Having a thought process drives the discussion in protecting an organization beyond the physical security gates, guns, and guards mentality that characterizes most safety and security programs. Felix Nater and his co-author capture and document what is needed in creating a sound workplace violence program. You will learn to empower your team with this no-nonsense guide to eliminating excuses and speaking the truth about workplace violence within the workforce workplace environments.
