Beyond Grief and Nothing Joseph Dewey, 2006 In the closing decade of the twentieth century Don DeLillo emerged from the privileged status of a writer's writer to become by any measure productivity influence scope gravitas the dominant novelist of fin de millennium America Beginning in 1982 with *The Names* and continuing with *White Noise* and *Underworld* DeLillo defined himself as a provocative articulate anatomist of American culture Dewey offers an astute assessment of this daunting yet important writer's four decade cultural critique Dewey finds DeLillo's concerns to be organized around three rubrics that mark the writer's own creative evolution the love of the street the embrace of the word and the celebration of the soul Dewey takes the reader through the novelist's hip avant garde satires of the mid 1960s his dense interrogations of the power of language and the spell of narrative in the 1980s and 1990s and his recent efforts to transcend the immediate Dewey explores DeLillo's fascination with Eastern philosophies interest in Native American traditions passion for jazz and deep roots in Catholicism [American Book Publishing Record](#), 2003 [Approaches to Teaching DeLillo's White Noise](#) Tim Engles, John N. Duvall, 2006 Don DeLillo's satiric novel *White Noise* prophetic in 1985 about American society's rampant consumerism information overload overreliance on the media and environmental problems may seem to today's students simply a description of their lived reality The challenge for teachers then is to help them appreciate both the postmodern qualities of the novel and its social critique This volume like others in the MLA's *Approaches to Teaching World Literature* series is divided into two parts The first part *Materials* suggests readings and resources for both instructor and students of *White Noise* The second part *Approaches* contains eighteen essays that establish cultural technological and theoretical contexts e.g. whiteness studies place the novel in different survey courses e.g. one that explores the theme of American materialism compare it with other novels by DeLillo e.g. *Mao II* and give examples of classroom techniques and strategies in teaching it e.g. the use of disaster films [The Cambridge Companion to Postmodernism](#) Steven Connor, 2004-07-15 The *Cambridge Companion to Postmodernism* offers a comprehensive introduction to postmodernism The *Companion* examines the different aspects of postmodernist thought and culture that have had a significant impact on contemporary cultural production and thinking Topics discussed by experts in the field include postmodernism's relation to modernity and its significance and relevance to literature film law philosophy architecture religion and modern cultural studies The volume also includes a useful guide to further reading and a chronology This is an essential aid for students and teachers from a range of disciplines interested in postmodernism in all its incarnations Accessible and comprehensive this *Companion* addresses the many issues surrounding this elusive enigmatic and often controversial topic *The Book Review Digest*, 2005 **Bulletin of Bibliography**, 1988 **Postmodern Belief** Amy Hungerford, 2010-07-01 How can intense religious beliefs coexist with pluralism in America today Examining the role of the religious imagination in contemporary religious practice and in some of the best known works of American literature from the past fifty years *Postmodern Belief*

shows how belief for its own sake a belief absent of doctrine has become an answer to pluralism in a secular age Amy Hungerford reveals how imaginative literature and religious practices together allow novelists poets and critics to express the formal elements of language in transcendent terms conferring upon words a religious value independent of meaning Hungerford explores the work of major American writers including Allen Ginsberg Don DeLillo Cormac McCarthy Toni Morrison and Marilynne Robinson and links their unique visions to the religious worlds they touch She illustrates how Ginsberg s chant infused 1960s poetry echoes the tongue speaking of Charismatic Christians how DeLillo reimagines the novel and the Latin Mass why McCarthy s prose imitates the Bible and why Morrison s fiction needs the supernatural Uncovering how literature and religion conceive of a world where religious belief can escape confrontations with other worldviews Hungerford corrects recent efforts to discard the importance of belief in understanding religious life and argues that belief in belief itself can transform secular reading and writing into a religious act Honoring the ways in which people talk about and practice religion Postmodern Belief highlights the claims of the religious imagination in twentieth century American culture
