Why It Doesn't Matter What You Believe If It's Not True:

Why It Doesn't Matter What You Believe If It's Not True Stephen McAndrew, 2012 We've all heard the statement and maybe even said it ourselves It's all relative But are moral truths relative If that is the case how then can there be universal human rights McAndrew's book argues that if there are universal human rights then moral truths also must be absolute Society has moved from a worldview that accepted the existence of absolute truth to a world of relative truth This paradigm shift was primarily motivated by a desire to render philosophy more scientific by eliminating metaphysical theories But the twentieth century witnessed another shift after the Second World War Out of that bloody conflict arose the recognition for the need to articulate human rights and hence the Universal Declaration of Human Rights However universal human rights make no sense in a morally relative world A relative theory of truth is inconsistent with morally condemning acts of others no matter how heinous **Why It Doesn't Matter What You Believe If It Isn't True** challenges those who embrace the human rights urge to honestly look at the contradiction between relative truth and universal human rights and examine without prejudice to see where this leads them This book is a concise and thoughtful call to value absolute moral truth
