Who's Stupid Now? Diagnosis: Bipolar A. Toni Le Boss, 2014-12-10 When I first became diagnosed with severe manic depression I knew my life would never be the same When you are on medication for this illness you must take it the rest of your life I would not be able to have my own child because of the risk it would be deformed This was devastating to me Of course there was always adoption but this was not an option for me Perhaps if I married someone with children then they would become mine too This was not something I had to consider at the present time I had to find a positive path to making my life worthwhile I was single and alone My friends and family did not understand what I was going through The confusion the suffering the day to day anxiety the endless sadness and the isolation were too painful for anyone to imagine Then when I was in my manic stage I was euphoric I would go on shopping sprees plan expensive vacations buy gifts for all my friends My credit card debt exceeded my yearly income After ten years of psychiatric help hospitalization psychotherapy shock treatments group therapy and a myriad of pills I was stable Then it was up to me to take advantage of every opportunity that came my way I worked hard to find a good job and purpose in my life I realized that material things did not matter as much as the friends and family I surrounded myself with Even with mental illness life is a gift to be cherished every day

Lacan and Addiction Yael Goldman Baldwin, 2018-05-08 With chapters from Rik Loose Fabian Naparstek Patricia Gherovici Bruce Fink Thomos Svolos and many others the anthology is for people interested in the topic of addictions or in Lacanian psychoanalysis and especially for those interested in how the two intersect Lacan and Addiction is based on papers presented at a 2006 conference where Lacanians from around the world gathered to speak about addictions Conference participants explored the complexity of the problem for the individual society clinicians and for treatment In the current climate where addiction is mostly treated by variations of twelve step approaches and psychopharmacological countermeasures it is all too easy to lose sight of the dimensions of addiction that render it not just a disease to be managed but rather a significant form of human suffering and a subjective responsibility both of which are critical components of addiction treatment More and more addiction treatment is turning away from psychological and

psychoanalytic theorization and towards psychopharmacological measures this anthology attempts to rectify that situation

A Bipolar's Journey Vijay Nallawala, 2015-07-16 It was only when the author was diagnosed as a bipolar in 2003 leading to his hospitalization that he first heard about this serious mental illness From being comfortably perched as a successful entrepreneur he was abruptly flung into terrifying unknown territory Extreme mood swings from manic highs to desperate lows made life miserable The awareness about this chronic debilitating condition was almost nonexistent in India back then and the stigma stifling Disturbingly the situation remains largely unchanged unlike developed countries where support groups thrive Where there is iron willed determination the biggest of challenges can be surmounted The unstinted support of his family close friends mentors and medical team helped him in his arduous climb Medical treatment needs to be supplemented by a healing regimen Resolutely he made yoga meditation and spiritual advancement an intrinsic part of his life This cathartic journey ended up freeing him An inspiring story of resilience his is a rare voice of hope from the East trying to reach out to millions of his community saying Yes A bipolar too can lead a normal and happy life A Bipolar s Journey may well help you walk away From Torment to Fulfillment So let s walk together
