Why I Became An Atheist A Former Preacher Rejects Christianity Revised Expanded:

Why I Became an Atheist John W. Loftus, 2012-10-10 For about two decades John W Loftus was a devout evangelical Christian an ordained minister of the Church of Christ and an ardent apologist for Christianity With three degrees in philosophy theology and philosophy of religion he was adept at using rational argumentation to defend the faith But over the years doubts about the credibility of key Christian tenets began to creep into his thinking By the late 1990s he experienced a full blown crisis of faith In this honest appraisal of his journey from believer to atheist the author carefully explains the experiences and the reasoning process that led him to reject religious belief The original edition of this book was published in 2006 and reissued in 2008 Since that time Loftus has received a good deal of critical feedback from Christians and skeptics alike In this revised and expanded edition the author addresses criticisms of the original adds new argumentation and references and refines his presentation For every issue he succinctly summarizes the various points of view and provides references for further reading In conclusion he describes the implications of life without belief in God some liberating some sobering This frank critique of Christian belief from a former insider will interest freethinkers as well as anyone with doubts about the claims of religion

Outsoaring the Shadow: Atheistic thoughts on life and death Martin Rushton, 2015-11-19 The day will come when the Sun rises but you do not your last breath will have been made This is a stark fact Do you think the day will never come Do you conduct your life on the presumption that it will not come But it will come it is part of the script of life It may even come today How does an atheist answer the perennial existential question What is the meaning of life In this sobering but ultimately compassionate and optimistic book the author offers a helping hand Combining elements of ancient Stoic philosophy academic argumentation contemplative practices practical advice and at times dark humour the author weaves a coherent and sympathetic guide to the art of living in the face of mortal angst

Bad Girls and Boys Go to Hell (or not) Gloria Neufeld

Redekop,2012-07-26 To question the idea of hell as a default destination is to question the entire fundamentalist evangelical worldview This book does just that Fundamentalist evangelicalism holds that the Bible is an infallible authority and that all are born in sin Sinners go to hell but Jesus taking their place died to save them from hell How did this belief come to be What were the effects on people brought up with a belief in the reality of hell What has been the process of people leaving the fundamentalist evangelical movement In *Bad Girls and Boys Go To Hell* or not Gloria Neufeld Redekop takes us on her own personal journey as she engages a movement in which she was raised conducting a careful study of the history of fundamentalist evangelicalism the attachment to a literal factual interpretation of the Bible and an analysis of the experience of those who have left the movement

Challenged: Living Our Faith in a Post Modern Age John King,2019-12-03 My wife and I love our sons unconditionally and equally Talking with one of them about his atheism has brought me to a new dimension in my relationship with him to a review of my own christian beliefs to a more critical examination of the church and to a different understanding of ministry in today s world As personal as I make this all sound my family represents a thousand families a hundred thousand and more who have sat in painful silence because religious differences have taken away their voice They tire of confrontation angry discussions verse hurling and jabbing one another with theories over every conceivable divisive issue It is a powerful idea that those who do not share our faith should know that we do not so much in our argument as in our love It is time to listen

God or Godless? John W. Loftus,Randal Rauser,2013-04-15 Perhaps the most persistent question in human history is whether or not there is a God Intelligent people on both sides of the issue have argued sometimes with deep rancor and bitterness for generations The issue can t be decided by another apologetics book but the conversation can continue and help each side understand the perspectives of the other In this unique book atheist John Loftus and theist Randal Rauser engage in twenty short debates that consider Christianity the existence of God and unbelief from a variety of angles Each concise debate centers on a proposition to be resolved with either John or Randal arguing in the affirmative and the opponent the negative and can be read in short bits or big bites This is the perfect book for Christians and their atheist or agnostic friends to read together and encourages honest open and candid debate on the most important issues of life and faith

The End of Christianity John W. Loftus,2011-07-12 In this successor to his critically acclaimed anthology *The Christian Delusion* Why Faith Fails a former minister and now leading atheist spokesperson has assembled a stellar group of respected scholars to continue the critique of Christianity begun in the first volume Contributors include Victor Stenger Robert Price Hector Avalos Richard Carrier Keith Parsons David Eller and Taner Edis Loftus is also the author of the best selling *Why I Became an Atheist* A Former Preacher Rejects Christianity Taken together the Loftus trilogy poses formidable challenges to claims for the rationality of the Christian faith Anyone with an interest in the philosophy of religion will find this compilation to be intellectually stimulating and deeply thought provoking

Christianity is Not Great Hector Avalos,2014 In this new anthology critiquing Christianity John Loftus a former

minister and now a leading atheist has brought together an outstanding group of respected scholars who focus on the harms caused by the world's leading religion. The contributors begin by dissecting the many problematic aspects of religious faith generally. They repeatedly demonstrate that with faith as a foundation almost anything can be believed or denied. And almost any horrific deed can be committed. The authors then take a good hard look at many of the most important political, institutional, scientific, social, and moral harms committed in the name of Christianity. These range from the historical persecutions of the Inquisition and witch hunts to the current health hazards of faith healing. Finally, the authors answer three common Christian retorts to criticisms from nonbelievers: 1. that atheists cannot judge a harmful action without an objective moral standard, 2. that atheists need faith to solve the world's problems, and 3. that atheists cannot live a good life without faith. Loftus and the contributors generally conclude that given both the well-documented historical record and ongoing problems raised by the faith, Christianity decisively fails empirical tests of its usefulness to humanity.

How to Defend the Christian Faith John W. Loftus, Peter Boghossian, 2015-11-01. The first book on Christian apologetics written by a leading atheist figure that teaches Christians the best and worst arguments for defending their faith against attack. The Christian faith has been vigorously defended with a variety of philosophical, historical, and theological arguments, but many of the arguments that worked in an earlier age no longer resonate in today's educated West. Where has apologetics gone wrong? What is the best response to the growing challenge presented by scientific discovery and naturalistic thought? Unlike every work on Christian apologetics that has come before, *How to Defend the Christian Faith* is the first one written by an atheist for Christians. As a former Christian defender who is now a leading atheist thinker, John Loftus answers these questions and more. He shows readers why Christian apologists have failed to reach the intelligent nonbeliever and offers practical advice for Christians whether they want to better defend their faith against atheist arguments or actively convert more individuals to Christianity.

The Truth Seeker, 1928 **Truth Seeker**, 1945 **Who's Who in Hell** Warren Allen Smith, 2000. This listing of several thousand nonbelievers includes ancients such as Euripides, French revolutionaries, and statements by or about countless individuals including Sir Arthur C. Clarke, Hugh Hefner, Jack Nicholson, Sally Jesse Raphael, Christopher Reeve, Salman Rushdie, Carl Sagan, Ted Turner, and Jesse Ventura. This book makes a case not only for the respectability of nonbelievers but also for their positive outlooks and creativity.

The New York Times Index, 2007 *Unapologetic* John W. Loftus, 2016-11-01. Just as intelligent design is not a legitimate branch of biology in public educational institutions, nor should the philosophy of religion be a legitimate branch of philosophy. So argues acclaimed author John W. Loftus in this forceful takedown of the very discipline in which he was trained. In his call for ending the philosophy of religion, he argues that as it is presently being practiced, the main reason the discipline exists is to serve the faith claims of Christianity. Most of philosophy of religion has become little more than an effort to defend and rationalize preexisting Christian beliefs. If subjects such as biology, chemistry, physics, and geology are all taught without reference to faith-based supernatural forces as explanations,

faith based teachings should not be acceptable in this discipline either While the book offers a fascinating study of the fallacies and flaws on which one whole field of study rests it speaks to something much larger in the ongoing culture wars By highlighting the stark differences between faith based reasoning and evidence based reasoning Loftus presents vital arguments and lessons about the importance of critical thinking not only in all aspects of study but also in life His conclusions and recommendations thus resonate far beyond the ivory towers and ivy covered walls of academic institutions

Chicago Tribune Index ,1993 **The Christian Delusion** John W. Loftus,2010-04-20 In this anthology of recent criticisms aimed at the reasonableness of Christian belief a former evangelical minister and apologist author of the critically acclaimed *Why I Became an Atheist* has assembled fifteen outstanding articles by leading skeptics expanding on themes introduced in his first book Central is a defense of his outsider test of faith arguing that believers should test their faith with the same skeptical standards they use to evaluate the other faiths they reject as if they were outsiders Experts in medicine psychology and anthropology join Loftus to show why when this test is applied to Christianity it becomes very difficult to rationally defend Collectively these articles reveal that popular Christian beliefs tend to rely on ignorance of the facts Drawing together experts in diverse fields including Hector Avalos Richard Carrier David Eller and Robert Price this book deals a powerful blow against Christian faith Godless Dan Barker,2008-09 Uncover the truth about atheism in the book Oliver Sacks calls a revelation I don t think anyone can match the devastating clarity intensity and honesty which Dan Barker brings to the journey faith to reason childhood to growing up fantasy to reality intoxication to sobriety ADVANCE PRAISE FOR GODLESS Valuable in the human story are the reflections of intelligent and ethical people who listen to the voice of reason and who allow it to vanquish bigotry and superstition This book is a classic example CHRISTOPHER HITCHENS author of *God is Not Great* The most eloquent witness of internal delusion that I know a triumphantly smiling refugee from the zany surreal world of American fundamentalist Protestantism is Dan Barker RICHARD DAWKINS author of *The God Delusion* Godless was a revelation to me I don t think anyone can match the devastating clarity intensity and honesty which Dan Barker brings to the journey faith to reason childhood to growing up fantasy to reality intoxication to sobriety OLIVER SACKS authors of *Musicophilia* In *Godless* Barker recounts his journey from evangelical preacher to atheist activist and along the way explains precisely why it is not only okay to be an atheist it is something in which to be proud MICHAEL SHERMER publisher of *Skeptic Magazine* Godless is a fascinating memoir and a handbook for debunking theism But most of all it is a moving testimonial to one man s emotional and intellectual rigor in acclaiming critical thinking ROBERT SAPOLSKY author of *Why Zebras Don t Get Ulcers* *The End of Reason* Ravi Zacharias,2008 When Sam Harris wrote his book *Letter to a Christian Nation* stating that Christians display murderous intolerance Dr Ravi Zacharias felt called to answer *The End of Reason* is a clear and powerful response to the utter bankruptcy of Harris s New Atheism as it explains the true nature of God the foundation for evil in the world and the basis of true morality
