Why We Need A New Welfare State:

Why We Need a New Welfare State Gøsta Esping-Andersen, Duncan Gallie, Anton Hemerijck, John Myles, 2002-08-22

Leading scholars in the field examine the highly topical issue of the future of the welfare state in Europe. They argue that welfare states need to adjust and examine which kind of welfare architecture will further Europe's stated goal of maximum social inclusion and justice. The volume concentrates on four principal social policy domains: the aged and transition to retirement, the welfare issues related to profound changes in working life, the new risks and needs that arise in households and especially in child families, and the challenges of creating gender equality. The volume aims to promote a better understanding of the key welfare issues that will have to be faced in the coming decades. It also warns against the all too frequent recourse to patent policy solutions that have all too often characterized contemporary debate. It intends to move the policy debate from its often frustrating vague and generic level towards greater specificity and nuance. **Why We Need a**
