Why America Needs School Choice Encounter Broadside:

Why America Needs School Choice Jay P Greene, 2011-07-19 Expanding school choice and competition is the single most important action we can take to improve America's schools. Although school choice faces strong opposition from powerful teacher unions and their entrenched political allies, expanding choice via vouchers, charters, and tax credits has repeatedly been shown to improve student achievement, reduce segregation, promote civic values, and facilitate other productive reforms. This eloquent Broadside outlines the case for school choice and shows how it is the most appealing strategy for anyone serious about educational reform.

Indivisible James Robison, Jay W. Richards, 2012-02-20 Many books have been written on conservative politics. Many more have been written calling Christians to holiness and spiritual revival. Few, however, have managed to combine a clear explanation of the conservative political perspective with its corresponding personal and spiritual virtue. In *INDIVISIBLE*, James Robison, the founder and president of LIFE Outreach International, partners with Jay Richards, Ph.D., a writer who has appeared in both the *New York Times* and *The Washington Post*. Together they tackle tough, controversial political issues facing conservative Christians today, including abortion, stem cell research, education, economics, health care, the environment, judicial activism, marriage, and others. Written to appeal to a broad spectrum of believers, *INDIVISIBLE* not only argues political questions from a Scriptural standpoint; it also provides simple arguments that Christians can use to support their beliefs in public settings. Most significantly, Robison and Richards recognize that the point of origin for spiritual and moral transformation is the individual. We are convinced by historical precedent that long-term cultural change requires not merely sound thinking and public good works, but rather God's spiritual and moral transformation of us as individuals, which will then transform our churches, our communities, our culture, and ultimately our politics. James Robison is the founder and president of LIFE Outreach International, a worldwide Christian relief organization. He is also the host of *LIFE Today*, a daily syndicated television program that reaches 300 million homes in the U.S., Canada, Europe, and Australia. He is the author of many books, including *The Absolutes*, *True Prosperity*, and *Living in Love*, and has spoken to millions of people through evangelistic crusades since entering public ministry in 1962. Jay W. Richards, Ph.D., is a Senior Fellow at the Discovery Institute and the author of many books, including the award-winning *Money, Greed, and God* and *The Privileged Planet*. He is the executive director of the documentaries *The Call of the Entrepreneur* and *The Birth of Freedom*. He has been featured in the *New York Times* and the *Washington Post* and has appeared on *Larry King Live*. He has also lectured on economic myths to members of the U.S. Congress.

Getting America Back to Work Andrew F. Puzder, 2020-04-21 Over the last two months, the COVID-19 pandemic has thrown a robust American economy into disarray, completely shutting down major business sectors and putting millions of people out of work overnight. With so much at stake and with all options seemingly on the table, it is crucial that we commit ourselves to the long-term goal of restoring the sorts of free market policies that led to the Trump Economic Boom prior to the China Virus crisis. Although massive government

interventions that Barack Obama pursued following the Great Recession might presently appear beneficial or even essential a return to Obama's new normal of stagnant growth would lead to disastrous and persisting economic damage We must instead return as soon as is safely possible to the Trump model of economic prosperity that produced the strongest labor market in modern history **How China's Communist Party Made the World Sick** Bill Gertz,2020-04-28 The outbreak of a deadly new form of pneumonia that began in Wuhan China in December 2019 has shown the world that the regime in Beijing poses the most serious threat to world peace and freedom since the Soviet Union Early missteps by China's ruling Communist Party repressing doctors who sought to alert China and the world to the dangers of the novel coronavirus and permitting millions to travel out of Wuhan for a holiday caused the global pandemic now devastating populations and economies around the world In this important essay Bill Gertz shows how China's lies and obfuscations imperiled the world

The Growth Deficit James Piereson,2022-11-01 During the 1980s and 1990s European economies went through a period of slowing economic growth and high unemployment what some economists described as secular decline On the other side of the Atlantic the United States enjoyed a robust recovery during those years by reducing taxes eliminating regulations on business and tightening monetary policy Now after two decades of subpar growth the question is whether or not the American economy has entered into its own era of secular decline This Broadside examines this troubling development recognizing that there are no easy solutions to the problem Lacking workable solutions Americans will have to adjust to a future of slow economic growth with all that implies for inter generational progress American strength abroad and political conflict at home **It's Time to Let America Work Again** Andrew F. Puzder,2020-08-04 As we begin the process of reopening our economy it is critical that we get back to work The economic shutdown was intended to slow the spread of a lethal virus not to permanently sacrifice our freedoms and certainly not to expand government power and fundamentally transform America During the shutdown we've learned what that transformed America would look like and it is ugly With millions of people out of work and dependent on government lacking the dignity of a job the security of a paycheck or the opportunity for a better future depression and despair are creating an epidemic within the pandemic of suicides and drug and alcohol addiction While there are risks if we follow safety protocols and protect the vulnerable we can safely reignite our economy as we undo the lockdown eliminate policies that discourage work and enact policies that encourage hiring and growth It's time to reject the transformation to permanent government dependence and return instead to individual freedom and prosperity

The Next Pandemic Betsy McCaughey,2020-05-19 America is suffering from two public health crises One is caused by a virus The other a brutal economic shutdown is something we have brought on ourselves Both the virus and the shutdown are deadly But many more Americans will likely die from getting laid off than from the virus The shutdown wasn't caused by the virus It was a frantic response to America's unpreparedness For more than two decades a dozen official reports sounded the alarm The career pols and federal bureaucrats did nothing Message to Washington DC No more

commissions and televised hearings It s time to act In this incendiary Encounter Broadside Betsy McCaughey shows how to battle the next pandemic without an economic shutdown including technologies to make workplaces healthier protections for hospital workers and severing dependence on China for medical supplies Despite the suffering there s reason for optimism America will be ready for the next pandemic

Countdown to Socialism Devin Nunes,2020-09-15 The Democratic Party has changed beyond recognition Once the party of anti communism and tax cutting under President Kennedy it is now dominated by a surging socialist movement and led by a presidential candidate who vows to transform America On a near daily basis the Democrats are issuing radical proposals to socialize medicine industry and higher education So how can the Democrats win elections when their agenda is so far to the left of the American people That s easy it s because the means of public debate are being manipulated In Countdown to Socialism Congressman Devin Nunes exposes the nexus between the Democratic Party the mainstream media and the social media corporations These three entities cooperate to blast out the Democrats message and downplay their extremism while suppressing and censoring conservative points of view Tens of millions of Americans are only seeing one side of the debate The information they get from newspapers and social media is not news it s contrived content designed to help one political party and punish its opponents In the run up to the most consequential election of our lifetime read this book to learn how your information is being skewed and regulated to force America onto the path to socialism

Communist China's War Inside America Brian T. Kennedy,2020-06-16 The People s Republic of China and the United States are today at war It is being fought with the use of information politics and finance The Chinese believe that as in all war it would be better to win without engaging the enemy on the battlefield or having to resort to the likes of nuclear weapons if it can be avoided To achieve this China has engaged in a decades long campaign to manipulate and corrupt America s ruling elite This Broadside describes the degree to which Chinese influence has penetrated American society and what will be required to prevent Communist China from winning the struggle in which we find ourselves today
