Why Love Matters Values Governance:

Happiness, Flourishing and the Good Life Garrett Thomson, Scherto Gill, Ivor Goodson, 2020-09-24 Well being studies is an exciting and relatively new multi disciplinary field with data being gathered from different domains in order to improve social policies In its reliance on a truncated account of well being based implicitly on neoclassical economic assumptions however the field is deeply flawed Departing from reductive accounts of well being that exclude the normative or evaluative aspect of the concept and so impoverish the attendant conception of human life this book offers a new perspective on what counts normatively as being well In reconceptualising well being holistically it presents a fresh vista on how we can consider the meanings of human life in a manner that also serves as a source of constructive social critique The book thus undertakes to invert the usual approach to the social sciences in which the research is required to be objective in terms of methodology and subjective with regard to evaluative claims Instead the authors are deliberately objective about values in order to be more open to the subjectivities of human life Happiness Flourishing and the Good Life thus seeks to move away from economic considerations domination of all social spaces in order to understand the possibilities of well being beyond instrumentalisation or commodification A radical new approach to the human well being this book will appeal to philosophers social theorists and political scientists and all who are interested in human happiness

Beyond Inhumanity Scherto Gill, 2025-04-21 Collective efforts to address the legacies of slavery and colonialism tend to orient solely towards dealing with material compensation such as reducing economic disparity and levelling access to public services However communities directly impacted by the dehumanizing legacies have insisted on a broader reckoning one that recognizes all dimensions of the harms including the spiritual injury and the relevant psychosocial trauma inflicted across the generations They remind us that harms of structural injustice extend beyond the material the physical and the psychological also entangling the moral relational and spiritual fabric of human life Understanding harms of inhumanity brings to light the layers of damage and is key to identifying interdisciplinary approaches to collective healing social transformation and the well being of all This book emerges from the ongoing intellectual dialogue as part of the UNESCO Collective Healing Initiative The Initiative focuses on healing the wounds of inhumanity co creating just societies and enhancing the flourishing of current and future generations

Practitioner's Guide to Ethics and Mindfulness-Based Interventions Lynette M. Monteiro, Jane F. Compson, Frank Musten, 2017-10-26 This book focuses on the role of ethics in the application of mindfulness based interventions MBIs and mindfulness based programs MBPs in clinical practice The book offers an overview of the role of ethics in the cultivation of mindfulness and explores the way in which ethics have been embedded in the curriculum of MBIs and MBPs Chapters review current training processes and examines the issues around incorporating ethics into MBIs and MBPs detailed for non secular audiences including training clinicians developing program curriculum and dealing with specific client populations Chapters also examine new second generation MBIs and MBPs the result of the call for more advanced mindfulness based practices

The book addresses the increasing popularity of mindfulness in therapeutic interventions but stresses that it remains a new treatment methodology and in order to achieve best practice status mindfulness interventions must offer a clear understanding of their potential and limits Topics featured in this book include Transparency in mindfulness programs Teaching ethics and mindfulness to physicians and healthcare professionals The Mindfulness Based Symptom Management MBSM program and its use in treating mental health issues The efficacy and ethical considerations of teaching mindfulness in businesses The Mindful Self Compassion MSC Program The application of mindfulness in the military context Practitioner's Guide to Mindfulness and Ethics is a must have resource for clinical psychologists and affiliated medical and mental health professionals including specialists in complementary and alternative medicine and psychiatry Social workers considering or already using mindfulness in practice will also find it highly useful

A Finer Future L. Hunter Lovins, Stewart Wallis, Anders Wijkman, John Fullerton, 2018-10-09 The blueprint for an inspiring regenerative economy that avoids collapse and works for people and the planet Humanity is in a race with catastrophe Is the future one of global warming 65 million migrants fleeing failed states soaring inequality and grid locked politics Or one of empowered entrepreneurs and innovators working towards social change leveling the playing field and building a world that works for everyone While the specter of collapse looms large A Finer Future demonstrates that humanity has a chance just to thread the needle of sustainability and build a regenerative economy through a powerful combination of enlightened entrepreneurialism regenerative economy technology and innovative policy The authors world leaders in business economics and sustainability gather the environmental economics evidence outline the principles of a regenerative economy and detail a policy roadmap to achieving it including Transforming finance and corporations Reimagining energy agriculture ecosystems and the nature of how we work Enhancing human well being Delivering a world that respects ecosystems and human community Charting the course to a regenerative economy is the most important work facing humanity and A Finer Future provides the essential blueprint for business leaders entrepreneurs environmentalists politicians policymakers and others working to create a world that works for people and the planet AWARDS SILVER 2020 Eric Zencey Prize SILVER 2018 Nautilus Book Awards Ecology Environment BRONZE 2018 Foreword INDIES Business Economics

Routledge Handbook of Social Futures Carlos López Galviz, Emily Spiers, 2021-11-22 Featuring chapters from an international range of leading and emerging scholars this Handbook provides a collection of cutting edge interdisciplinary research that sheds new light on contemporary futures studies Engaging with key defining questions of the early twenty first century such as climate change big data AI the future of economics education mental health cities and more the Handbook provides a review and synthesis of futures scholarship highlighting the role that societies can and should play in their making While the various chapters demonstrate how futures emerge and take shape in particular places at particular times the distinctive insight provided by the volume overall is that futures thinking today must be social and contextual By presenting a range of futures work from contexts around the globe

the Handbook contextualizes techniques forecasting backcasting scenario planning collaboration and co production to ask how different dimensions of the social are created and circulated in the process Through its thirty chapters the volume explores and interrogates narratives anticipations enactments ecologies collaborations prospectations and so on to highlight which versions of the social are legitimized and which are encouraged and foreclosed This Handbook opens an important conversation about the centrality of the social in futures thinking By bringing arts humanities and social sciences scholars and practitioners into conversation with biologists environmental climate and computer scientists this volume seeks to encourage new pathways across between and within multiple disciplines to interrogate the futures we need and want The social must be our starting point if we are to steer our planet in a direction that supports good lives for the many everywhere

Why Love Matters Scherto Gill, David Cadman, 2016 As our current systems of decision making are increasingly unable to meet the global challenges of climate change resource depletion poverty healthcare economic instability and global violence the contributors in this book make a radical proposal for an innovative form of governance that is based on core human values such as love compassion care justice and dignity Arising from a concern that the old paradigm of alienation consumerism selfishness and exploitation is damaging for humankind and the family of Earth the book postulates that a new way of being must be in place so that intrinsic values of caring for others should underpin the intent of our decisions at personal regional national international and global levels With illustrative references and examples in fields of politics economy health and peace the content of this book argues forcefully that Love with a capital L matters in governance where values can serve as the basis to transform human consciousness about international institutions community relationships and individual actions Why Love Matters provides an important introductory text to students of global governance management studies political economics international relations and peace studies and equally offers illuminating and instructive ideas to leaders managers and practitioners who are interested in what values based governance means and looks like and how to go about it in practice

Global Health in the Global North Steven P. Black, 2025-06-17 This book investigates how health interventions are imagined into being in high income countries drawing on over seven years of fieldwork in the self described global health capital Atlanta to consider the role of storytelling in the construction of global health futures The volume highlights the ways in which scientific storytelling is critical to our understanding of how global health futures are constructed The book examines three value types epistemic ethical and economic central to contemporary global health and three linguistic and communicative phenomena multimodal poetics emplotment and discursive circulation significant to the constitution of these values through storytelling In spotlighting the Atlanta metropolitan region home to a number of prominent organizations and figures in the development of global health the book showcases deeper insights into the future oriented and techno optimistic stories global health professionals tell each other funders and the public Black builds on these discussions to suggest ways forward for these stories to be improved to foster greater equity and decolonization and re
