Why Nations Fail Daron Acemoglu, James A. Robinson, 2012-03-08 Shortlisted for the Financial Times and Goldman Sachs Business Book of the Year Award 2012 Why are some nations more prosperous than others Why Nations Fail sets out to answer this question with a compelling and elegantly argued new theory that it is not down to climate geography or culture but because of institutions Drawing on an extraordinary range of contemporary and historical examples from ancient Rome through the Tudors to modern day China leading academics Daron Acemoglu and James A Robinson show that to invest and prosper people need to know that if they work hard they can make money and actually keep it and this means sound institutions that allow virtuous circles of innovation expansion and peace Based on fifteen years of research and answering the competing arguments of authors ranging from Max Weber to Jeffrey Sachs and Jared Diamond Acemoglu and Robinson step boldly into the territory of Francis Fukuyama and Ian Morris They blend economics politics history and current affairs to provide a new powerful and persuasive way of understanding wealth and poverty [SUMMARY - Why Nations Fail: The Origins Of Power, Prosperity, And Poverty By Daron Acemoglu And James A. Robinson](#) Shortcut Edition, 2021-06-05 Our summary is short simple and pragmatic It allows you to have the essential ideas of a big book in less than 30 minutes As you read this summary you will learn why the presence or absence of certain political and economic institutions encourage or retard progress toward prosperity You will also discover that Poor countries are not poor because their leaders do not know how to enrich their people China's current growth will not last In many countries the ruling elites oppose economic development for fear of losing their omnipotence Some countries have managed to overcome many natural and cultural handicaps Colonization far from promoting development has on the contrary impoverished the countries that were victims of it Institutions evolve with history and sometimes take the wrong path Two localities that form one and have the same name Nogales One is in the United States in the state of Arizona and the other in Mexico in the state of Sonora The political boundary between the two cities is largely artificial both have more or less the same population the same culture Why then is Nogales Arizona a rich city while Nogales Sonora is a poor city It's because they don't have the same institutions The political and social institutions of Nogales Arizona promote growth and economic development while those of Nogales Sonora discourage them Buy now the summary of this book for the modest price of a cup of coffee **Why Nations Fail** Daron Acemoglu, James A. Robinson, 2012 Now shortlisted for the Financial Times and Goldman Sachs Business Book of the Year Award 2012 Why are some nations more prosperous than others Why Nations Fail sets out to answer this question with a compelling and elegantly argued new theory that it is not down to climate geography or culture but because of institutions Drawing on an extraordinary range of contemporary and historical examples from ancient Rome through the Tudors to modern day China leading academics Daron Acemoglu and James A Robinson show that to invest and prosper people need to know that if they work hard they can make money and actually keep it and this means sound institutions that allow virtuous

circles of innovation expansion and peace Based on fifteen years of research and answering the competing arguments of authors ranging from Max Weber to Jeffrey Sachs and Jared Diamond Acemoglu and Robinson step boldly into the territory of Francis Fukuyama and Ian Morris They blend economics politics history and current affairs to provide a new powerful and persuasive way of understanding wealth and poverty They offer a pragmatic basis for the hope that at critical junctures in history those mired in poverty can be placed on the path to prosperity with important consequences for our views on everything from the role of aid to the future of China

Wrecking Ball Stu Woolman, 2021-04-29 *Wrecking Ball* explores in an unprecedented manner a decalogue of wicked problems that confronts humanity Nuclear proliferation climate change pandemics permanent technological unemployment Orwellian public and private surveillance social media that distorts reality cyberwarfare the fragmentation of democracies the inability of nations to cabin private power the failure of multinational institutions to promote collaboration and the deepening of autocratic rule in countries that have never known anything but extractive institutions Collectively or even severally these wicked problems constitute crises that could end civilisation Does this list frighten you or do you blithely assume that tomorrow will be just like yesterday *Wrecking Ball* shows that without an inclusive system of global governance the collective action required to solve those wicked problems falls beyond the remit of the world s 20 inclusive democracies 50 flawed democracies and 130 extractive elitist autocracies Flawed democracies and autocracies that already struggle to produce goods necessary for their own citizens to flourish are

simply incapable of committing to international arrangements that address the existential threats posed by the decalogue of wicked problems This then is our children s inheritance Dystopias far far worse than the polities that we ourselves have known What if anything can mitigate the harms that are our legacy Wrecking Ball offers as an answer a ground breaking analysis of South Africa s political economy It demonstrates that this country s elitist and extractive political and economic institutions not only make resolution of ongoing domestic crises unattainable likewise they make meaningful responses to wicked problems impossible Smart people think they have all the answers Without laboring under any such illusions Martin Luther King Jr eloquently opined The arc of the moral universe is long but it bends towards justice But what will happen King would acidly ask if we continue to dawdle and simply run out of time Wrecking Ball similalry operates under no such smart pretenses and undeterred and unmatched ventures into terrrains traversed by truly great political economists Smith Ricardo Marx and Keynes By knitting together what we all know to be the facts with cutting edge theory in economics sociology history and political science the book paints an unflinching portrait of where we are and where we are headed Are we ready to be honest with ourselves about the likely future of this overheated overpopulated planet

Jon Moynihan, 2024-09-10 The UK has in recent years been suffering from what is nothing short of an economic crisis Growth has now completely stalled in those western democracies the UK included where high government spending and high taxes have steadily burgeoned decade after decade Free market economies now threaten to leave us behind in terms of wealth opportunity and standards of living At the end of Rishi Sunak s 2024 government expenditure was at 45 per cent of GDP and taxes were 36 per cent and rising yet still nowhere near sufficient to cover public expenditure The government s net annual borrowing is now a completely unsustainable 4.4 per cent of GDP with our overall national debt growing rapidly and alarmingly In this arresting and powerful manifesto for economic change Jon Moynihan analyses the UK s decades long stagnant economy and looks at what can be done to resuscitate it Combining rigorous research with unparalleled business experience he explores the key dynamics affecting economic growth ranging from government borrowing expenditure tax and regulation to the way national resources are deployed on non productive and futile growth stifling endeavours Ultimately Moynihan shows that unless we act now to reverse the decline by radically restructuring our economy to stimulate economic growth the UK risks stagnation financial collapse and a long term disintegration in our standard of living Ignore his warning at your peril *The brazilian CFIA model as a mechanism for enhancing protection and respect for socio-economic rights*

Marina Martins Martes, 2023-09-28 This research evaluates whether the new model of investment agreement developed by Brazil CFIA is a mechanism for enhancing protection and respect for social and economic rights The research starts by exploring the origins of investment treaties their development and main characteristics It examines why investment treaties and socio economic rights are related by mapping cases in which investment treaties have already impaired the protection of such rights The research then analyzes how these two issues shall be jointly handled It considers international organizations

initiatives to regulate business and human rights and investment treaties frameworks that foster sustainable development as well as new investment agreements models developed by different countries and then suggests criteria for evaluating whether an investment treaty is adequate from the socio economic rights standpoint Finally this research investigates the CFIA model brings a brief historical overview evaluates CFIA's wording and examines how some CFIA's institutional mechanisms consider corporate social responsibility issues In conclusion this research asserts that the CFIA model can be a mechanism for enhancing protection and respect for socio economic rights but some concerns particularly related to safeguarding States regulatory space and providing for stronger obligations to investors and States to protect human rights need to be addressed
