The Story Of Britains Best Buildings:

The Story of Britain's Best Buildings Dan Cruickshank, 2002 Britain is covered with an extraordinary array of fantastic and brilliant buildings There are more historic buildings of more styles in Britain than even in Italy And our favourites occupy a similar place in the national psyche as Robin Hood and Nell Gwynne Britain s Best Buildings celebrates the bricks and mortar icons of our history that are well known and loved beyond all the others Dan Cruickshank re visits the stuff of legend but also reveals the stories behind the buildings Like the life of any human being there are highs and lows to the story of every building and as even the best known celebrity has dark corners and secret closets to explore so do Britain s best loved buildings To know a great building is to make it more our own to know it even more will make us feel we have a stake in its past present and future Each of the buildings is outstanding architecturally yet each has strong personal stories behind their construction and as a whole they offer a journey through the nation s architecture and psyche from the 12th century to the present day

At Home Bill Bryson, 2011-10-04 In these pages the beloved Bill Bryson gives us a fascinating history of the modern home taking us on a room by room tour through his own house and using each room to explore the vast history of the domestic artifacts we take for granted As he takes us through the history of our modern comforts Bryson demonstrates that whatever happens in the world eventually ends up in our home in the paint the pipes the pillows and every item of furniture Bryson has one of the liveliest most inquisitive minds on the planet and his sheer prose fluency makes At Home one of the most entertaining books ever written about private life

Building World ,1919 Sacred Architecture in a Secular Age Marie Clausén, 2016-02-26 Having won more than one recent poll as Britain s best loved building the appeal of Durham Cathedral appears abiding which begs the question whether an iconic sacred building can retain meaning and affective pertinence for contemporary secular visitors Using the example of Durham Cathedral this book sets out to explore wherein the appeal of historic churches lies today and considers questions of how and why their preservation into a post Christian era should be secured By including feedback from visitors to the cathedral and the author s own very personal account of the cathedral in the form of an ekphrasis this work seeks to privilege an interpretation of architecture that is based on the individual experience rather than on more conventional narratives of architecture history and cultural heritage policy Recognising the implication of our choice of narrative on the perceived value of historic churches is crucial when deliberating their future role This book puts forth a compelling case for historical sacred architecture suggesting that its loss through imperceptive conservation practices as much as through neglect or demolition would diminish us all secularists atheists and agnostics included

Cultural Heritage in Transition Bart Zweegers, 2022-02-26 This book introduces the multilevel perspective to analyze how local national and international actors and institutions in the heritage field interact More specifically a comparative study is made of controversies regarding six UNESCO World Heritage sites in Germany and the United Kingdom The six cases involve traditional monuments the cathedral of Aachen and the castle and cathedral of

Durham industrial heritage the Zollverein Coal Mine in Essen and the former tin and copper mines in Cornwall and cities
 Dresden and Liverpool Studying how long term landscape developments interact with local actors and nationally organized
 regimes reveals important differences between the decentralized German and the centralized British approach to heritage
 preservation These differences not only have consequences for the governance of heritage preservation in the two countries
 but also for their relations with international organizations such as UNESCO The Publishers Weekly ,2003 **The Costs
