The Routledge International Handbook of the Sociology of Education Michael W. Apple, Stephen J. Ball, Luis Armando Gandin, 2009-12-16 This collection brings together many of the world's leading sociologists of education to explore and address key issues and concerns within the discipline. The thirty-seven newly commissioned chapters draw upon theory and research to provide new accounts of contemporary educational processes, global trends and changing and enduring forms of social conflict and social inequality. The research conducted by leading international scholars in the field indicates that two complexly interrelated agendas are discernible in the heat and noise of educational change over the past twenty-five years. The first rests on a clear articulation by the state of its requirements of education. The second promotes at least the appearance of greater autonomy on the part of educational institutions in the delivery of those requirements. The Routledge International Handbook of the Sociology of Education examines the ways in which the sociology of education has responded to these two political agendas, addressing a range of issues which cover three key areas: perspectives and theories, social processes and practices, inequalities and resistances. The book strongly communicates the vibrancy and diversity of the sociology of education and the nature of sociological work in this field. It will be a primary resource for teachers as well as a title of major interest to practising sociologists of education.

Gentrification and Schools J. Stillman, 2012-08-05 Through fifty-two interviews with New York City parents in gentrifying neighborhoods, this book examines the school choice process to determine how, through the compounding effect of these parents' many individual choices, a segregated urban school in a gentrifying neighborhood is able to transform into an integrated school.

Chinese-Heritage Students in North American Schools Wen Ma, Guofang Li, 2016-03-02 This comprehensive look at Chinese heritage students' academic, sociocultural and emotional development in the public schools examines pertinent educational theories, complex even inconvenient realities, learning practices in and outside of schools and social, cultural and linguistic complications in their academic lives across diverse settings: homes and communities. Chinese heritage students are by far the largest ethnic group among Asian American and Asian Canadian communities, but it is difficult to sort out their academic performance because NAEP and most state/province databases lump all Asian students' results together. To better understand why Chinese heritage learners range from academic role models to problematic students in need of help, it is important to understand their hearts and minds beyond test scores. This book is distinctive in building this understanding by addressing the range of issues related to Chinese heritage K-12 students: languages, cultures, identities, academic achievements and challenges across North American schools.

Citizenship Education and Migrant Youth in China Miao Li, 2015-04-24 In East Asian economies such as China, recent mass rural-urban migration has created a new urban underclass, as have their children. However, their inclusion in urban public schools is a surprisingly slow process and youth identities in newly industrialized countries remain largely neglected. Faced with monetary and institutional

barriers the majority of migrant youth attend low quality or underperforming migrant schools without access to the free compulsory education enjoyed by their urban counterparts As a result China's citizen building scheme and the sustainability of its labor intensive economy have greatly impacted global economic restructuring Using thorough ethnographic research this volume examines the consequences of urban schooling and citizenship education through which school and social processes contribute to the production of unequal class relations It explores the nexus of citizenship education and identity forming practices of poor migrant youth in an attempt to foresee the new class formation in Chinese society This volume opens up the black box of citizenship education in China and examines the effect of school and societal forces on social mobility and life trajectories

Suddenly Diverse Erica O. Turner, 2020-02-12 For the past five years American public schools have enrolled more students identified as Black Latinx American Indian and Asian than white At the same time more than half of US school children now qualify for federally subsidized meals a marker of poverty The makeup of schools is rapidly changing and many districts and school boards are at a loss as to how they can effectively and equitably handle these shifts Suddenly Diverse is an ethnographic account of two school districts in the Midwest responding to rapidly changing demographics at their schools It is based on observations and in depth interviews with school board members and superintendents as well as staff community members and other stakeholders in each district one serving Lakeside a predominately working class conservative community and the other serving Fairview a more affluent liberal community Erica O Turner looks at district leaders adoption of business inspired policy tools and the ultimate successes and failures of such responses Turner s findings demonstrate that despite their intentions to promote diversity or eliminate achievement gaps district leaders adopted policies and practices that ultimately perpetuated existing inequalities and advanced new forms of racism While suggesting some ways forward Suddenly Diverse shows that without changes to these managerial policies and practices and larger transformations to the whole system even district leaders best efforts will continue to undermine the promise of educational equity and the realization of more robust public schools

Contested Issues in Troubled Times Peter M. Magolda, Marcia B. Baxter Magolda, Rozana Carducci, 2023-07-03 Contested Issues in Troubled Times provides student affairs educators with frameworks to constructively think about and navigate the contentious climate they are increasingly encountering on campus The 54 contributors address the book s overarching question How do we create an equitable climate conducive to learning in a dynamic environment fraught with complexity and a socio political context characterized by

escalating intolerance incivility and overt discrimination Rather than attempting to offer readers definitive solutions this book illustrates the possibilities and promise of acknowledging multiple approaches to addressing contentious issues articulating a persuasive argument anchored in professional judgment listening attentively to others for points of connection as well as divergence and drawing upon new ways of thinking to foster safe and inclusive campuses Among the issues this volume addresses are such topics as sexual violence historically underrepresented racial and ethnic groups transgender and undocumented students the professional skills knowledge and or dispositions needed to thrive and facilitate systemic change in contemporary higher education organizations the implications of maintaining personal and professional identities via social media and self care In this companion volume to *Contested Issues in Student Affairs* whose issues remain as relevant today as they were upon publication in 2011 a new set of contributors explore new questions which foreground issues of equity safety and civility themes which dominate today's higher education headlines and campus conversations The book concludes with calls to action encouraging student affairs educators to exhibit the moral courage needed to critically examine routine practices that unknowingly perpetuate inequity and enact the foundational values and principles upon which the student affairs profession was founded

A Precarious Life Roxana Willis, 2023 *A Precarious Life* offers an internal view of conflict among one of the most socioeconomically disadvantaged communities in Britain The long term ethnography at home is narrated through the life and death of the author's father Paul who worked in the coke ovens of the Corby steelworks until its closure in 1980 After closure Paul ran a mobile grocery shop on his council estate and surrounding areas which suffered an assortment of injuries in the post industrial decades that followed By engaging closely with the social practices of Paul and members of his relational community this book provides a rare emic account of the classed and racialized tensions that occur within a precariously situated subsection of society Through this process layers of meaning are noticed articulated and deployed to make intelligible communal tensions As the chapters progress a complex ethical terrain is brought into view where moral conflicts and dilemmas are rife From this new perspective a disjuncture becomes apparent between top down theories that guide the criminal law on the one hand and norms that make better sense of the social world navigated by residents on an over criminalized estate on the other *A Precarious Life* calls on legal scholars to understand better and engage with this alternative normative order which embraces an ethics of honesty relationality solidarity and care captured by the central notion of mutuality

Gender, Race, and the Politics of Role Modelling Wayne Martino, Goli Rezai-Rashti, 2012-03-12 This book provides an illuminating account of teachers own reflections on their experiences of teaching in urban schools It was conceived as a direct response to policy related and media generated concerns about male teacher shortage and offers a critique of the call for more male role models in elementary schools to address important issues regarding gender race and the politics of representation By including the perspectives of minority teachers and students and by drawing on feminist queer and anti racist frameworks this book rejects the familiar tendency to resort to role modelling as

a basis for explaining or addressing boys disaffection with schooling Indeed the authors argue on the basis of their research in urban schools in Canada and Australia that educational policy concerned with male teacher shortage and the plight of disadvantaged minority boys would benefit from engaging with analytic perspectives and empirical literature that takes readers beyond hegemonic discourses of role modelling A compelling case is presented for the need to disarticulate discourses about role modelling from a politics of representation that is committed to addressing the reality of the impact of racial and structural inequalities on both minority teachers and students participation in the education system The book also provides insight into the persistence of gender inequality as it relates to the status of elementary school teaching as women s work

Young Children's Emotional Experiences Jane Murray,Ioanna Palaologou,2020-06-29 Based on a rich seam of research evidence this book leverages value in engaging with scientific enquiry to further understanding of young children s emotional experiences Early childhood development has featured increasingly prominently on international policymakers agenda in recent years Yet whilst policy foregrounds economic imperatives including academic attainment school readiness and time bound outcomes similar attention has not been afforded to the potential value of nourishing affective engagements that may secure emotional capital for infants and young children This collection from the field of early childhood is therefore timely Its chapters are based on empirical evidence derived from contemporary scientific studies and address challenges and opportunities inherent in young children s emotional experiences in diverse twenty first century early childhood education and care contexts The authors provoke debate discussion and critique and they ask significant questions of the policymakers practitioners and carers who may influence young children s lives and their emotional experiences The findings that are presented in the chapters indicate overall that a test based approach may detract from young children s emotional development as well as the positive affective experiences in early childhood which have potential to provide an important foundation for a fulfilling life This book was originally published as a special issue of Early Child Development and Care

The Critical Pedagogy Reader Antonia Darder,Kortney Hernandez,Kevin D. Lam,Marta Baltodano,2023-11-01 Since its publication The Critical Pedagogy Reader has firmly established itself as the leading collection of classic and contemporary essays by the major thinkers in the field of critical pedagogy While retaining its comprehensive introduction this thoroughly revised fourth edition includes updated section introductions expanded bibliographies and up to date classroom questions The book is arranged topically around such issues as class racism gender sexuality language and literacy and classroom issues for ease of usage and navigation New reading selections cover topics such as youth activism agency and affect and practical implementations of critical pedagogy Carefully attentive to both theory and practice this new edition remains the definitive source for teaching and learning about critical pedagogy

New Directions in Social Theory, Education and Embodiment John Evans,Brian Davies,2014-10-29 This book exemplifies the nurturing spirit of inter discursive debate with a view to opening up new theoretical and empirical insights understanding and engagement with debates on issues relating to

pedagogy policy equity and embodiment From a variety of social science perspectives an international force of contributors apply a multitude of concepts to research agendas which illustrate the multiple ways in which the body both impacts culture and is simultaneously and seamlessly positioned and shaped by it maintaining social reproduction of class and cultural hierarchies and social regulation and control They attest that once we begin to trace the flow of knowledge and discourses across continents countries regions and communities by registering their re contextualisation both within various popular pedagogies e g newspapers film TV web pages IT and the formal and informal practices of schools families and peers we are compelled to appreciate the bewildering complexity of subjectivity and the ways in which it is embodied Indeed the chapters suggest that no matter how hegemonic or ubiquitous discursive practices may be they inevitably tend to generate both intended and unexpected affects and effects people and populations cannot easily be determined suppressed or controlled This book was originally published as a special issue of Sport Education and Society
