The Wedge Of Truth Splitting The Foundations Of Naturalism:

The Wedge of Truth Phillip E. Johnson, 2002-08-02 Phillip E Johnson highlights the deficiencies in science and the philosophy naturalism that undergirds and outlines a cognitive revolution [The Evolution-Creation Struggle](#) Michael RUSE, Michael Ruse, 2009-06-30 In his latest book Ruse uncovers surprising similarities between evolutionist and creationist thinking Exploring the underlying philosophical commitments of evolutionists he reveals that those most hostile to religion are just as evangelical as their fundamentalist opponents But more crucially and reaching beyond the biblical issues at stake he demonstrates that these two diametrically opposed ideologies have since the Enlightenment engaged in a struggle for the privilege of defining human origins moral values and the nature of reality [The Debaters of This Age](#) Steven H Propp, 2019-02-05 It is June 2018 as an unusual group of scholars professors lecturers and students gather in a California hotel They are all attendees of an Apologetics conference intended to join qualified representatives of Christian Deist and Atheist thought for a two week no holds barred debate and discussion of their respective positions that will ultimately be included in a book published after the conference Evangelical Christianity is represented by advocates of Evidentialist and Presuppositionalist approaches to Apologetics Catholicism liberal Christianity and Deism are also well supported The Atheist perspective is advocated by a polemical author and a college professor notorious for attacking the views of his Christian students As the participants argue over controversial issues such as cosmology evolution The Bible historical evidence for Jesus the resurrection biblical prophecies and the problem of evil intellectual fireworks result But what will result when such a volatile and eclectic group is placed face to face for more than two weeks The Debaters of this Age is the tale of what happens inside a California hotel in 2018 when a group of intellectuals gather to vigorously discuss the religious issues of our time [Redeeming Science](#) Vern S. Poythress, 2006-10-13 Many people think science is antagonistic to Christian belief Science it is said shows that the universe is billions of years old while the Bible says it is only thousands of years old And some claim that science shows supernatural miracles are impossible These and other points of contention cause some Christians to view science as a threat to their beliefs Redeeming Science attempts to kindle our appreciation for science as it ought to be science that could serve as a path for praising God and serving fellow human beings Through examining the wonderfully complex and immutable laws of nature author Vern Poythress explains we ought to recognize the wisdom care and beauty of God A Christian worldview restores a true response to science where we praise the God who created nature and cares for it *Systematic Theology* Francis Schussler Fiorenza, John P. Galvin, 2011-05-01 Unique among contemporary resources the landmark *Systematic Theology* and its distinguished contributors present the major areas or loci of Roman Catholic theology in light of contemporary developments especially the seachange since Vatican II thought the best new historical studies of traditional doctrines and Scripture and the diverse creative impulses that come from recent philosophy and hermeneutics culture and praxis and ecumenical contacts This new volume combines and updates both previous volumes

incorporates into the framework nearly twenty years of fresh thought and bibliography in each area and adds revisions to key articles to take account of a diverse fluid and postmodern situation *Apologetics for the Twenty-First Century* Louis Markos, 2010-10-06 The vibrant and persuasive arguments of C S Lewis brought about a shift in the discipline of apologetics moving the conversation from the ivory tower to the public square The resulting strain of popular apologetics which weaves through Lewis into twentieth century writers like Francis Schaeffer and modern apologists like William Lane Craig Josh McDowell and Lee Strobel has equipped countless believers to defend their faith against its detractors *Apologetics for the Twenty first Century* uses Lewis s work as the starting point for an absorbing survey of the key apologists and major arguments that inform apologetics today Like apologists before him Markos writes to engage Christians of all denominations as well as seekers and skeptics His narrative man of letters style and short chapters make *Apologetics for the Twenty first Century* easily accessible for the general reader But an extensive and heavily annotated bibliography detailed timeline list of prominent apologists and glossary of common terms will satisfy the curiosity of the seasoned academic as the book prepares all readers to meet the particular challenges of defending the faith today **God: The Failed Hypothesis** Victor J.

Stenger, 2010-08-05 Throughout history arguments for and against the existence of God have been largely confined to philosophy and theology while science has sat on the sidelines Despite the fact that science has revolutionized every aspect of human life and greatly clarified our understanding of the world somehow the notion has arisen that it has nothing to say about the possibility of a supreme being which much of humanity worships as the source of all reality This book contends that if God exists some evidence for this existence should be detectable by scientific means especially considering the central role that God is alleged to play in the operation of the universe and the lives of humans Treating the traditional God concept as conventionally presented in the Judeo Christian and Islamic traditions like any other scientific hypothesis physicist Stenger examines all of the claims made for God s existence He considers the latest Intelligent Design arguments as evidence of God s influence in biology He looks at human behavior for evidence of immaterial souls and the possible effects of prayer He discusses the findings of physics and astronomy in weighing the suggestions that the universe is the work of a creator and that humans are God s special creation After evaluating all the scientific evidence Stenger concludes that beyond a reasonable doubt the universe and life appear exactly as we might expect if there were no God This paperback edition of the New York Times bestselling hardcover edition contains a new foreword by Christopher Hitchens and a postscript by the author in which he responds to reviewers criticisms of the original edition **Uncommon Dissent** William

Dembski, 2014-05-13 Recent years have seen the rise to prominence of ever more sophisticated philosophical and scientific critiques of the ideas marketed under the name of Darwinism In *Uncommon Dissent* mathematician and philosopher William A Dembski brings together essays by leading intellectuals who find one or more aspects of Darwinism unpersuasive As Dembski explains Darwinism has gathered around itself an aura of invincibility that is inhospitable to rational discussion to

say the least Darwinism its proponents assure us has been overwhelmingly vindicated Any resistance to it is futile and indicates bad faith or worse Indeed those who question the Darwinian synthesis are supposed in the famous formulation of Richard Dawkins to be ignorant stupid insane or wicked The hostility of dogmatic Darwinians like Dawkins has not however prevented the advent of a growing cadre of scholarly critics of metaphysical Darwinism The measured thought provoking essays in *Uncommon Dissent* make it increasingly obvious that these critics are not the brainwashed fundamentalist buffoons that Darwinism s defenders suggest they are but rather serious skeptical open minded inquirers whose challenges pose serious questions about the viability of Darwinist ideology The intellectual power of their contributions to *Uncommon Dissent* is bracing

An Informed Cosmos Peter S. Williams,2023-07-14 After a substantial author s preface recounting the author s life journey with the question of science and design in nature *An Informed Cosmos* pulls together essays that jointly cover the core arguments for a scientific theory of intelligent design Along with a foreword by philosopher of science and leading design theorist Stephen C Meyer and a wide range of recommended resources *An Informed Cosmos* offers an informed overview of the contemporary case for intelligent design

American Genesis Jeffrey P. Moran,2012-03-07 In *American Genesis* Jeffrey P Moran offers a novel cultural and social history of the ways in which antievolution struggles have reverberated beyond the confines of legislatures and courthouses to touch upon race region religion gender and identity from the early twentieth century to the present

Unintelligent Design Mark Perakh,2009-12-02 Physicist Perakh critically reviews recent trends towards harmonizing religion and science and shows that all such approaches are little more than tailoring evidence to fit the desired theory

Imperfect Oracle Theodore L. Brown,2015-08-26 Science and its offshoot technology enter into the very fabric of our society in so many ways that we cannot imagine life without them We are surrounded by crises and debates over climate change stem cell research AIDS evolutionary theory and intelligent design the use of DNA in solving crimes and many other issues Society is virtually forced to follow our natural tendency which is to give great weight to the opinions of scientific experts How is it that these experts have come to acquire such authority and just how far does their authority reach Does specialized knowledge entitle scientists to moral authority as well How does scientific authority actually function in our society and what are the countervailing social forces including those deriving from law politics and religion with which it has to contend Theodore Brown seeks to answer such questions in this magisterial work of synthesis about the role of science in society In Part I he elucidates the concept of authority and its relation to autonomy and then traces the historical growth of scientific authority and its place in contemporary American society In Part II he analyzes how scientific authority plays out in relation to other social domains such as law religion government and the public sphere

Where Faith Meets Culture Sharon Gallagher,2010-01-01 *Where Faith Meets Culture* is a *Radix* magazine anthology What does *Radix* usually contain Interviews and features Reviews of significant books films and CDs Informed opinions in *The Last Word* Eye catching graphics Mind stretching prose Image rich poetry *Radix*

assumes that Christians live in the real world and takes lay Christians seriously As one subscriber wrote Radix is a more worldly magazine than one would expect from its deep commitment to Christ Radix monitors the cultural landscape questions assumptions and introduces new voices remaining deeply rooted in Christ Sociologist Robert Bellah wrote in a Radix article Though social scientists say a lot about the self they have nothing to say about the soul and as a result the modern view finds the world intrinsically meaningless Radix continues to talk about meaning and hope in a culture that has lost its way The articles in this volume reflect the magazine s wide ranging interests literature art music theology psychology technology discipleship and spiritual formation They re written by some of the outstanding authors whose work has graced our pages over the years Peggy Alter Kurt Armstrong Robert Bellah Bob Buford Krista Faries David Fetcho Susan Fetcho Sharon Gallagher David W Gill Joel B Green Os Guinness Virginia Hearn Walter Hearn Donald Heinz Margaret Horwitz Mark Labberton Henri Nouwen Earl Palmer Susan Phillips Dan Ouellette Steve Scott and Luci Shaw

The Vulgarization of Christ's Church Ronnie W. Rogers, 2017-04-14 This book seeks to clarify and demonstrate the incalculable and injurious influence that progressive education has had and is having upon preaching thinking Christianly and the local church Progressive education began at the turn of the twentieth century replacing classical education with what is purportedly a science based education which necessarily results in scientism This seismic shift in public education has not only affected what we learn but how we think In order to enable the church to detect progressivism s deleterious sway and protect herself by being equipped with the progressive revelation of God and thereby counter the influence of progressive education of man I seek to highlight some of the underlying intolerable essentials of progressive education In the companion book to this one The Equipping Church Somewhere Between Fundamentalism and Fluff I explain the biblical model for the local church and how to build such a church

The Now Nexus Don Peek, 2012-06-28 The new age revolution the spirit of truth is leading a new revolution against absurdity and it is really new Around the world powerful and influential new age believers are being called to wake up to the truth of Jesus Christ Many who have traditionally abstained from professing their faith are now being made fully conscious of Gods presence in their lives New age believers are uniquely prepared to connect the world through faith business and culture The very soul of the new age movement is now being leveraged in favor of Christ No longer confined by synthetic ideology new age believers can now break down barriers and stereotypes in our society that others simply cannot We are all called to serve it is our purpose for being here now The Now Nexus reveals the way for all to connect and serve in spirit and in truth Discover the true Power of Now Become a Now Watcher Begin Meditation Avoid Drooling Clowns Resist the Joker Embrace Disillusionment Have Mercy Bid Farewell to Manikin Breathe to Jesus Find the Theorem of Means I Z J Meet Emeth Kiss Sophia The Now Nexus is a spirit filled case for Christ but it is also a prophetic warning for our nation to fear the Lord turn and run toward Him and the Christian values that He personifies Like God words transcend time Let these words have their way with you

Scientists Confront Intelligent Design and Creationism

Andrew J. Petto, Laurie R. Godfrey, 2007 With the pseudoscience of creationism rising again under the guise of intelligent design this powerful collection eviscerates the new assault on evolution and reveals the pervasive and insidious threat posed to genuine science by ID proponents like Phillip Johnson Michael Behe and William Dembski The sixteen original essays address two key issues the overwhelming scientific evidence for evolution gathered over 150 years and the dubious underpinnings of creationism and how society can mount better educational and legal policies to prevent a theological takeover of our public and scientific institutions The book includes powerful voices in the modern culture war against ID including Kevin Padian paleontologist and expert witness in the landmark lawsuit of Kitzmiller v Dover With creationist arguments forever morphing and reappearing under new aliases this new confrontation is a must read for teachers students and general readers and a ringing and lasting refutation of creationism's fraudulent claims **Creationism's Trojan Horse**

Barbara Forrest, Paul R. Gross, 2007 The Wedge has intruded itself successfully into educational politics at the local state and now national levels **BOOK JACKET** Monkey Business Marvin N. Olasky, John Perry, 2005 Media coverage at the time of the Scopes trial was far from accurate This book sets the record straight revealing how inaccuracies distorted the view of the Christian faith **Finding Faith** Richard Flory, Donald Miller, 2008-02-04 Despite the masses still lining up to enter mega churches with warehouse like architecture casually dressed clergy and pop Christian music the Post Boomer generation those ranging in age from twenty to forty is having second thoughts In this perceptive look at the evolving face of Christianity in contemporary culture sociologists Richard Flory and Donald E Miller argue that we are on the verge of another potential revolution in how Christians worship and associate with one another Just as the formative experiences of Baby Boomers were colored by such things as the war in Vietnam the 1960s and a dramatic increase in their opportunities for individual expression so Post Boomers have grown up in less structured households with working often divorced parents These childhood experiences leave them craving authentic spiritual experience rather than entertainment and also cause them to question institutions Flory and Miller develop a typology that captures four current approaches to the Christian faith and argue that this generation represents a new religious orientation of expressive communalism in which they seek spiritual experience and fulfillment in community and through various expressive forms of spirituality both private and public

Debating Design William A. Dembski, Michael Ruse, 2004-07-12 In this book first published in 2004 William Dembski Michael Ruse and other prominent philosophers provide a comprehensive balanced overview of the debate concerning biological origins a controversial dialectic since Darwin published The Origin of Species in 1859 Invariably the source of controversy has been design Is the appearance of design in organisms as exhibited in their functional complexity the result of purely natural forces acting without prevision or teleology Or does the appearance of design signify genuine prevision and teleology and if so is that design empirically detectable and thus open to scientific inquiry Four main positions have emerged in response to these questions Darwinism self organisation theistic evolution and intelligent design The contributors to this

volume define their respective positions in an accessible style inviting readers to draw their own conclusions Two introductory essays furnish a historical overview of the debate
