Criminal Law and Legality Laura Higson-Bliss, 2024-10-29 Utilising Lon Fuller s conception of legality this book argues that current legal provisions often used to control online abuse aided by social media do not conform to the basic principles of legality in the criminal law in turn threatening freedom of expression How we regulate inappropriate behaviour online often referred to as online abuse particularly online abuse aided by social media is a contemporary concern for governments across the globe Tragedies such as the death of a celebrity following a campaign of online abuse often hit the headlines followed by the same echo there should be a law against this Yet in England and Wales numerous laws exist to control prosecute and convict individuals who use the likes of social media to harass intimidate and abuse others online So why is the law failing to keep pace with modern technology This monograph critically examines this fundamental question from the perspective of legality Applying criminal law to three growing areas of concern it covers 1 racist speech 2 cyberharassment cyberstalking and 3 the sending of abusive messages online It then turns to examine the latest attempts by UK officials to tackle these issues through the implementation of the Online Safety Act 2023 and France s Germany s and India s attempts to regulate social media The book will be of interest to researchers in the field of criminal law and cyber law as well as online abuse harassment and discrimination **Technology-Enhanced Learning** Nicolas Balacheff, Sten Ludvigsen, Ton de Jong, Ard

Lazonder, Sally Barnes, 2009-03-24 Technology enhanced learning is a timely topic the importance of which is recognized by educational researchers practitioners software designers and policy makers This volume presents and discusses current

trends and issues in technology enhanced learning from a European research and development perspective This multifaceted and multidisciplinary topic is considered from four different viewpoints each of which constitutes a separate section in the book The sections include general as well as domain specific principles of learning that have been found to play a significant role in technology enhanced environments ways to shape the environment to optimize learners interactions and learning and specific technologies used by the environment to empower learners An additional section discusses the work presented in the preceding sections from a computer science perspective and an implementation perspective This book comes out of the work in Kaleidoscope a European Network of Excellence in which over 1 000 people from more than 90 institutes across Europe participate Kaleidoscope brings together researchers from diverse disciplines and cultures through their collaboration and sharing of scientific outcomes they are helping move the field of technology enhanced learning forward Handbook of Blockchain, Digital Finance, and Inclusion, Volume 3 David Lee Kuo Chuen, Robert H. Deng, 2025-04-25 Handbook of Blockchain Digital Finance and Inclusion Volume Three Web3 AI Privacy and Greentech presents the latest technological developments and innovations occurring in cryptocurrency The book explores the hottest topics in this fast moving area emphasizing the financial opportunities made possible by cryptocurrencies such as DePIN and decentralized finance while also presenting the theories and advances that have the potential to create additional opportunities in the convergence of blockchain with AI and privacy technology Users will find this to be an important resource that bridges the gap between practical usability and academic perspective This new volume continues the tradition of the first two focusing on the latest trends including Web3 Zero Knowledge Proof Machine learning Quantum Technologies the Internet of Things in ESG decentralized networks digitalization and more It will serve as a valuable reference to an international audience that wants to learn not only about their own fields of specialization but also related fields Explains the practical consequences of these technologies and their economics to a broad spectrum of readers Encompasses Web3 Zero Knowledge Proof Machine learning Quantum Technologies the Internet of Things in ESG decentralized networks and digitalization Provides sophisticated in depth summaries Explains how blockchain technology provides greater efficiency and reduced cost for financial services **Digital Libraries for Cultural Heritage** Tatjana Aparac-Jelušić, 2022-05-31 European digital libraries have existed in diverse forms and with quite different functions priorities and aims However there are some common features of European based initiatives that are relevant to non European communities There are now many more challenges and changes than ever before and the development rate of new digital libraries is ever accelerating Delivering educational cultural and research resources especially from major scientific and cultural organizations has become a core mission of these organizations Using these resources they will be able to investigate educate and elucidate in order to promote and disseminate and to preserve civilization Extremely important in conceptualizing the digital environment priorities in Europe was its cultural heritage and the feeling that these rich resources should be open to Europe and the global community In this

book we focus on European digitized heritage and digital culture and its potential in the digital age We specifically look at the EU and its approaches to digitization and digital culture problems detected and achievements reached all with an emphasis on digital cultural heritage We seek to report on important documents that were prepared on digitization copyright and related documents research and education in the digital libraries field under the auspices of the EU some other European and national initiatives and funded projects The aim of this book is to discuss the development of digital libraries in the European context by presenting primarily to non European communities interested in digital libraries the phenomena initiatives and developments that dominated in Europe We describe the main projects and their outcomes and shine a light on the number of challenges that have been inspiring new approaches cooperative efforts and the use of research methodology at different stages of the digital libraries development The specific goals are reflected in the structure of the book which can be conceived as a guide to several main topics and sub topics However the author s scope is far from being comprehensive since the field of digital libraries is very complex and digital libraries for cultural heritage is even moreso
