Weevils in the Wheat Charles L. Perdue, Thomas E. Barden, Robert K. Phillips, 1992 For Henry Adams at the turn of the twentieth century as for his successors in the twenty first the relation of mind to a world remade by technology and geopolitical conflict largely determined the destiny of civil life Henry Adams and the Need to Know presents fourteen essays that articulate Adams ongoing preoccupation with knowledge stressing his eclecticism and his need to clarify the role of critical intelligence in public life Adams work appeals to a wide spectrum of historical and literary inquiry and claims a place in multiple scholarly contexts The topics covered in this volume range from international politics of Adams age and ours to portraiture from orientalism and travel literature to the disintegration of the human mind Here leading scholars explore often overlooked details of Adams relationships with people and ideas They reopen settled topics and reframe truisms Each essay affirms in one way or another that to study Adams is to discover his continuing and astonishing relevance **Weevils in the Wheat** Charles L.
