America's thorniest social problems from housing to retirement to drug addiction based on original reporting from around the world. A new generation of Americans has declared that another world is possible. And yet the stubborn problems of inequality, climate change, and declining health seem as intractable as ever. Where might different answers lie? Intrepid journalist Natasha Hakimi Zapata has traveled around the world from Costa Rica to Uganda and Estonia to Singapore uncovering how different countries solve the problems that plague the United States. Through in-depth reporting including interviews with senior government officials, activists, industry professionals, and the ordinary people affected by their policies, *Another World Is Possible* examines innovative programs that address public health, social services, climate change, housing, education, addiction, and more. In each instance, Hakimi Zapata provides a clear-eyed assessment of the history, challenges, cost-effectiveness, and real-world impact of these programs. The result is a compelling, frame-shifting account of how we might live differently and create a safer, healthier, more sustainable future. A work of keen analysis as well as enormous heart and optimism, *Another World Is Possible* is destined to crack the mold of current debates and to refresh our sense of what might be possible tomorrow.

Scott Foresman-Addison Wesley Middle School Math, 2002 **The Missing Piece** Hermon R. Card, Dolores R. Card, 2013-08-08. We are in an education crisis. We need to restore the teaching profession to one of respect and support and provide effective education to enable current students, the new kids, to rise to their full potential. What a fabulous book Herm and Dolores have written, a truly inspirational resource for teachers. This should be required reading for anyone preparing to enter the classroom and for anyone who needs to step back and rethink, think through, or reconsider their practice. They speak to the reader's heart as well as the head, and Hermon's poetry is the best medicine I know for preventing teacher burnout. Carol Jago, president of the National Council of Teachers of English and long-time middle and high school teacher in Santa Monica, California. *The Missing Piece* by Dolores and Hermon Card is the book we've all been waiting for about how to educate the new kids, this evolutionary bunch of uniquely different individuals known variously by labels as quirky as they are. You name it, and this book covers it, and in a style as usable as it is advanced. Dolores and Hermon encourage students to make connections to themselves and then work beyond themselves to extend their reach to work with us, not for us. The raw truth about our current education system and how to fix it is covered with poetry, with solutions, and with expansive teaching styles that include meditation, Reiki, chakras, the higher self, and the importance of spirituality. No, this isn't New Age; it is new thought in its most courageous, most balanced, and most realistic way to educate the whole child. I was blown away by *The Missing Piece*. No one else has looked at our educational system today and the various proposals to fix what's wrong with eyes and hearts broad enough to recognize what was and is still missing: what the new kids must have, a holistic approach. Thank you, Dolores and Hermon Card, for giving us a miracle. P. M. H. Atwater, L. H. D., author of *Children of the Fifth World*, *Future Memory*, and *Near Death Experiences: The Rest of the Story*.
