Oehl,2025-04-06 The most futuristic production motorcycle of all time appeared in 1978 and it not only ended old specifications for design and comfort At the same time Kawasaki also introduced a number of groundbreaking technical innovations Lower emissions quieter better aerodynamics lower weight improved electrics You can also find out how a turbocharger was built into the engine of the first production motorcycle and often destroyed it as a result And that's not all Kawasaki also ended the power limitation agreement with the Z1 R TC just as they planned to do with the Z1300 Ross and Ralph Hannan immediately recognized the
