We Are Not Alone Why We Have Already Found Extraterrestrial Life:

We are Not Alone Dirk Schulze-Makuch, David J. Darling, 2010 We Are Not Alone boldly argues that extraterrestrial life is an astrobiological fact Far from existing light years away in the outer reaches of space it is on our very doorstep For persuasive evidence of microbial life we need look no further than our celestial neighbour Mars Expertly probing the latest scientific research including from the Phoenix probe in 2008 this groundbreaking book provides compelling reasons to believe that extraterrestrial life is rife in the Solar System and beyond

We Are Not Alone Dirk Schulze-Makuch, David Darling, 2011-03-01 Life on Mars exists but we are too timid to accept the facts Life on Mars exists but are we brave enough to accept the facts Extraterrestrial life exists and there is evidence to prove it The question are we alone has haunted the human race for centuries In this compelling and controversial work Dirk Schulze Makuch and David Darling argue that we already know the answer no Abundant extraterrestrial life is an astrobiological fact and there is evidence to prove it Far from existing light years away in the outer reaches of space it is on our very doorstep From methane oceans on Titan to advanced organic molecules on Mars Schulze Makuch and Darling contend that microbial life is a near certainty both in the Solar System and beyond Using the latest scientific data including from the Phoenix probe which landed on Mars in 2008 We Are Not Alone stands to truly revolutionize our perception of our place in the universe
