The Exercises of St Ignatius of Loyola and the Traditions of the East Javier Melloni, 2013-07-01 The Spiritual Exercises of Ignatius written between 1522 and 1548 are a very representative example of Catholic Christianity Although they were elaborated by one individual they echo the practice of the preceding thousand years The reality of the Exercises is rooted in the principle of personalisation and in the discernment of how the act of following Jesus makes itself concrete in history Javier Melloni follows up his popular exploration of the Spiritual Exercises in their Christian setting The Exercises of St Ignatius in the Western Tradition with a new book examining three spiritual pathways which underlie three different religious traditions the Spiritual Exercise of St Ignatius linked with Christianity Yoga which proceeds from Hinduism and Zen originating from the womb of Buddhism With an understanding of these three ways we place ourselves at the heart of their respective traditions as suggested by the Latin saying *Lex orandi lex credendi* that is to say prayer and by extension every spiritual practice is the reflection of a mode of belief just as every belief is configured to the extent to which it is prayed He presents these three ways with a double purpose to show the specific elements of each one as well as their common or convergent points Only if we do not confuse them can we recognise both the difficulty and the richness to be found in placing them in relation with one another To integrate is not the same as to mix up Above all what certainly unites the three ways is that they are not speculative but initiatory or mystagogical Their objective is the transformation of the person who undertakes them to admit that person into the experience of the Absolute This book explores the Spiritual Exercises through the Yoga Sutras the Yoga Karma or the Yoga of Action the Bhakti Yoga or the Yoga

of Devotion the Jnana Yoga or the Yoga of Knowledge through Zen Buddhism and by looking at the role of images and of discursive thought emptying and decentring effort and grace and the presence and absence of a divine Thou Javier Melloni was born in Barcelona He has studied in Kerala and in Paris and is now working in his home country in the retreat house known as the Cave of St Ignatius in Manresa

Living Zen Robert Linssen,1994 Living Zen is that rare achievement both a survey of the rich history of Zen Buddhism and a guide to the practice of this most demanding and effortless art of being The distinguished Belgian Scholar Robert Linssen offers a sage corrective to the idea that the Zen way is available only to those prepared to sit life out under the Bodhi Tree Gently but insistently he undermines this typically Western View inviting and enabling us as Christmas Humphreys puts it in his preface to take the leap from thought to No thought from the ultimate duality of Illusion Reality to a burst of laughter and a cup of tea

A Companion to Ignatius of Loyola ,2014-08-28 The Companion to Ignatius of Loyola aims at placing Loyola s life his writings and spirituality in a broader context of important late medieval and early modern movements and processes that have been appreciated too little by historians who explored Ignatius more as the colossal icon of the so called Counterreformation than as a man influenced by the dramatic and revolutionary period in which he lived One book will be never able to cover all aspects of such rich and controversial a figure as Ignatius of Loyola but the fifteen chapters of this volume indicate important directions of current scholarship that reassesses the previous scholarship and suggests new angles of studies on this pivotal figure of early modern period An interview with editor Robert A Maryks about this Companion is available on YouTube
