Tools For Strengths Based Assessment And Evaluation:

Tools for Strengths-Based Assessment and Evaluation Catherine A. Simmons, Peter Lehmann, 2012-11-08 Print CourseSmart [Tools for Strengths-Based Assessment and Evaluation](#) Catherine Simmons, 2012-11-08 Traditionally assessment and evaluation have focused on the negative aspects or deficits of a client's presentation. Yet strengths, health, and those things that are going right in a person's life are key protective factors in the prevention and treatment of many mental health problems. Thus measuring strengths is an important component of a balanced assessment and evaluation process. This is the first compendium of more than 140 valid and reliable strengths-based assessment tools that clinicians, researchers, educators, and program evaluators can use to assess a wide array of positive attributes including well-being, mindfulness, optimism, resilience, humor, aspirations, values, sources of support, emotional intelligence, and much more. These tools provide a clear picture of an individual's strengths while being easy to complete, score, and interpret. The scales and instruments included are consistently formatted, are organized according to construct measures, and include tools for working with adults, couples, families, children, and special populations. They represent a wide range of theoretical approaches and were written by a diverse array of professionals including social workers, psychologists, nurses, physicians, and sociologists.

Partial List of Instruments: Adult Dispositional Hope Scale, Assessing Emotions Scale, Flourishing Scale, Five Facet Mindfulness Questionnaire, Positive States of Mind Scale, A Measure of Expectations for Partner, Multidimensional Sense of Humor Scale, Parenting Sense of Competence Scale, Personal Wellbeing Index, Proactive Coping Inventory, Psychological Empowerment Scale, Stress-Related Growth Scale, Social Wellbeing Scales, Wellness Beliefs Scale.

Theoretical Perspectives for Direct Social Work Practice Nick Coady, Peter Lehmann, 2016-05-15 This expanded third edition of a popular textbook provides a completely revised and updated overview of the theories, models, and therapies that inform direct social work practice. The text is grounded in generalist social work principles and values and promotes a problem-solving model of social work practice as a framework for the eclectic use of theory as well as for integrating the artistic, reflective elements of practice. It provides in-depth coverage of select psychodynamic, cognitive-behavioral, humanistic, critical, and postmodern theories. The third edition features a new section on Critical Theories where a new chapter on Empowerment Theory is included with a completely revised chapter on Feminist Theory. A new chapter on Strengths-based Social Work has been added to the section on meta-theories for social work practice. Other new chapters include Emotion-focused Therapy and Collaborative Therapy. These revisions are based on suggestions from an extensive survey of professors.

New to the Third Edition: A new section on Critical Theories, New chapters on Strengths-based Social Work, Emotion-focused Therapy, Empowerment Theory, and Collaborative Therapy, Updated research on the debate about the importance of theory/technique versus common (e.g., relationship) factors and on the critique of the empirically supported treatment movement.

Key Features: Grounds direct practice firmly in the principles and values of generalist social work. Promotes a problem-solving model of social work as a flexible structure for

integrating the eclectic use of theory with the artistic reflective elements of practice Organizes direct practice theories into like groupings and provides an overview of the main characteristics of each grouping Provides in depth coverage of topics in a clear logical and consistent format Includes editors and contributors from the U S and Canada

Building Better Schools with Evidence-based Policy Kelly-Ann Allen, Andrea Reupert, Lindsay Oades, 2021-04-29 Building Better Schools with Evidence based Policy Adaptable Policy for Teachers and School Leaders provides an extensive set of free to use policies for building better schools The policies included in this book cover a broad range of popular topics for schools that are not readily accessible and each policy is built on theory driven by research and created by experts Each policy is based on substantial evidence and this is ensured through the inclusion of contributors who are active and highly reputable in their respective field Most schools are obliged to write and maintain policy and not all school leaders have the required skills time or expertise to do this effectively Building Better Schools with Evidence based Policy Adaptable Policy for Teachers and School Leaders is a time saving resource for schools It aims to address the reported research to practice gap in education by delivering accessible evidence based practice in a ready to use adaptable format All policies within this book are designed to be adapted and tailored to the unique diversity and needs of each school as reflected by the context and the people that make up the school community This book is relevant to every person who works in a school worldwide Users of this book can rest assured that each policy has been carefully formulated from the current understandings of best practice This is a practical innovation and an example of how schools can use research evidence in their day to day practices The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Clinical Assessment for Social Workers Cathleen Jordan, Cynthia Franklin, 2020-09-15 The fifth edition of Clinical Assessment like earlier editions of this text continues to show how to combine practice wisdom and evidence based methods when formulating assessments and intervention plans This new edition also emphasizes the biopsychosocial spiritual framework and the importance of the strengths perspective in assessment including updates on neuroscience Additionally every chapter in this fifth edition includes new updated information that covers approaches to assessment and how to assess various client populations including clients who experience adverse childhood experiences trauma and clients from under represented minority backgrounds Like the 4th Edition of this text measurement instruments are added in each chapter including measures from the public domain that can be used for pedagogy and clinical practice
