The Theology Of John Fisher The Theology Of John Fisher:

The Theology of John Fisher Richard Rex, 2003-09-18 This book examines the intellectual career of Bishop John Fisher 1468 1535 the early sixteenth century bishop of Rochester and victim of Henry VIII s Reformation whose numerous writings included one of the most influential refutations of Martin Luther of the century It places Fisher s writings in the context of contemporary movements of Renaissance and Reformation *The English Works of John Fisher, Bishop of Rochester* Fisher, 1876 Fisher of Men: a Life of John Fisher, 1469-1535 M. Dowling, 1999-06-30 John Fisher 1469 1535 was a figure of European stature during the Tudor age His many roles included those of bishop humanist theologian cardinal and ultimately martyr This study places him in the context of sixteenth century Christendom focusing not just on his resistance to Henry VIII but also on his active engagement with the renaissance and reformation **Christianae Fidei Corroboratio** Richard Andrew William Rex, 1988 The Roots of William Tyndale's Theology Ralph S Werrell, 2013-08-29 William Tyndale is one of the most important of the early reformers and particularly through his translation of the New Testament has had a formative influence on the development of the English language and religious thought The sources of his theology are however not immediately clear and historians have often seen him as being influenced chiefly by continental and in particular Lutheran ideas In his important new book Ralph Werrell shows that the most important influences were to be found closer to home and that the home grown Wycliffite tradition was of far greater importance In doing so Werrell shows that the apparent differences between Tyndale s writings from the period before 1530 and his later writings in the period leading up to his arrest and martyrdom in 1526 are spurious and that a simpler explanation is that his ideas were formed as a result of an upbringing in a household in which Wycliffite ideas were accepted Werrell explores the impact of humanist writers and above all Erasmus on the development of Tyndale s thought He also shows how far Tyndale s theology fully developed by 1525 was from that of the continental reformers He then examines in detail some of the main strands of Tyndale s thought and in particular doctrines such as the Fall Salvation the Sacraments and the Blood of Christ showing how different they are from Luther and most other contemporary reformers While Tyndale in his early writings used some of Luther s writings he made theological changes and additions to Luther s text The influences of John Trevisa Wyclif and the later Wycliffite writers were far more important Werrell shows that without accepting the huge influence of the Wycliffite ideas Tyndale s significance as a theologian and the development of the English Reformation cannot be fully understood *The Works and Days of John Fisher* Edward Surtz, 1967 No detailed description available for The Works and Days of John Fisher English Works of John Fisher, Bishop of Rochester John Fisher, 2002-02-21 Bishop John Fisher was a scholar and theologian of European reputation famous as a preacher and author of the first sermon sequence to be printed in English He was beheaded for his opposition to Henry VIII s divorce from Catherine of Aragon and pursued after his death by the enmity of the king who suppressed his books and sought to blacken his name The figure of John Fisher links the age of late medieval piety with the growth of

Christian humanism and the new learning which as a friend of Erasmus he introduced as chancellor of Cambridge University His English writings are distinctive for their structured elegance and clarity This new edition contains sermons written during the last fifteen years of Fisher s life including a previously unpublished eyewitness account of the Field of Cloth of Gold celebrations and devotional works composed while he was a prisoner in the Tower of London

Preachers and People in the Reformations and Early Modern Period Larissa Taylor, 2021-10-01 Sermons are an invaluable source for our knowledge of religious history and sociology anthropology and the mental landscape of men and women in pre modern Europe of what they were taught and what they practiced But how did an individual process the preached message from the pulpit How exactly do written sermons duplicate the preached Word Do they at all The 11 leading scholars who have contributed to this book do not offer uniform answers or an all encompassing study of preaching in the Reformations and early modern period in Europe They do however provide new insights on Catholic Lutheran and Reformed preaching in Western and Central Europe Part One examines changes in sermon structure style and content in Christian sermons from the thematic sermon typical of the Middle Ages to the wide variety of later preaching styles Catholic preaching after Trent proves not to be monolithic and intolerant but a hybrid of forms past and present applied as needed to particular situations Lutheran homiletic theory is traced from Luther and through Melanchthon the intention of the sermon being to transform the worship service based on exegesis of Scripture In Reformed worship the expository sermon often given on a daily basis with a continuing exegesis was designed to communicate the tenets of the faith in terms that the laity could understand plain style Part Two deals with the social history of preaching in France where preachers often incited their hearers to attack human beings or holy objects or were themselves attacked in Italy where preaching became a collective and home grown product in early modern Germany where the authorities strove for uniformity of preaching practice and the preacher was seen as a moral guardian in Switzerland where leaders from Zwingli on sought to bring religious practice conduct and government in line with biblical teaching and propagated a pastoral vision of preaching in England where after the Reformation preachers became the indispensable agents of salvation but clergy and congregations were often ill prepared for the task in Scandinavia where post Reformation sermons have a clear didactic aim teaching obedience to the authorities and in the Low Countries characterized by its numerous denominations all with their own churches and particular practices in terms of preaching The volume ends with a consideration of the influence of late medieval preaching on the Reformation concluding that the diversity of emphasis on how the practice of penance was preached and received very likely affected the appeal or not of the Lutheran Reformed message in a given country

Eucharistic Doctors Owen F. Cummings, 2005 Spanning two millennia with particular attention to the post Reformation period and including key thinkers both Catholic and non Catholic *Eucharistic Doctors* argues that the Eucharist makes the Church The thirty Eucharistic doctors included in this volume are not doctors in the formal sense of the term but in the broad Christian tradition of eucharistic thought Ranging from the

patristic age to contemporary time and embracing both the Eastern and Western Churches they include Ignatius of Antioch Hippolytus Ambrose John Chrysostom Augustine Maximus the Confessor Thomas Aquinas Wyclif Luther Calvin Thomas Cranmer George Herbert Bellarmine Jeremy Taylor Schleiermacher Newman and many more Although they represent different geographical locations time periods languages and traditions they all have this in common a recognition of the Eucharist as central to the Christian faith Book jacket Erasmus's Life of Origen Desiderius Erasmus, 2016 Erasmus of Rotterdam 1466-1536 hailed Origen of Alexandria 185-254 as a holy priest a gifted homilist a heroic Christian and a celebrated exegete and theologian of the ancient Church In this book Thomas Scheck presents one of the fruits of Erasmus's endeavors in the field of patristic studies a particularly neglected field of scholarship within Erasmus studies by providing the first English translation annotated and thoroughly introduced of Erasmus's final work the Prefaces to his Edition of Origen's writings 1536 Originally published posthumously two months after Erasmus's death the work surveys Origen of Alexandria's life writings preaching and contribution to the Catholic Church The staggering depth and breadth of Erasmus's learning are exhibited here as well as the maturity of his theological reflections which in many ways anticipate the irenicism of the Second Vatican Council with respect to Origen Erasmus presents Origen as a marvelous doctor of the ancient Church who made a tremendous contribution to the Catholic exegetical tradition and who lived a saintly life
