The Third Hole A Gender Swap Story:

Gender Stories Sonja K. Foss, Mary E. Domenico, Karen A. Foss, 2012-06-06 Essential for anyone who seeks to understand the contemporary gender landscape *Gender Stories* defines gender as the socially constructed meanings that are assigned to bodies The book helps readers navigate issues of gender by introducing them to the ubiquitous gender binary the problems with much of the research on gender differences and the variety of gender stories in popular culture At the heart of the book is a description of the process of becoming a gendered person through crafting and performing gender stories Because each gender performance is unique a virtually unlimited number of genders exists not just two as the gender binary would have us believe The same multiplicity that characterizes the gender landscape characterizes the individual who typically changes gender multiple times a day and across the lifespan In *Gender Stories* personal gender performances are framed within a philosophy of choice Readers are encouraged to become more conscious of the choices they have in constructing their gender identities and to allow others the same choice by respecting their gender performances Readers will easily find a place for themselves in the book regardless of their views on gender because one perspective on gender is not presented as the right one *Gender Stories* affirms and legitimizes diverse perspectives as providing more comprehensive knowledge about gender for everyone

Framing Fan Fiction Kristina Busse, 2017-10-01 Gathering some of Kristina Busse's essential essays on fan fiction together with new work *Framing Fan Fiction* argues that understanding media fandom requires combining literary theory with cultural studies because fan artifacts are both artistic works and cultural documents Drawing examples from a multitude of fan communities and texts Busse frames fan fiction in three key ways as individual and collective erotic engagement as a shared interpretive practice in which tropes constitute shared creative markers and illustrate the complexity of fan creations and as a point of contention around which community conflicts over ethics play out Moving between close readings of individual texts and fannish tropes on the one hand and the highly intertextual embeddedness of these communal creations on the other the book demonstrates that fan fiction is simultaneously a literary and a social practice *Framing Fan Fiction* deploys personal history and the interpretations of specific stories to contextualize fan fiction culture and its particular forms of intertextuality and performativity In doing so it highlights the way fans use fan fiction's reimagining of the source material to explore issues of identities and performativities gender and sexualities within a community of like minded people In contrast to the celebration of originality in many other areas of artistic endeavor fan fiction celebrates repetition especially the collective creation and circulation of tropes An essential resource for scholars *Framing Fan Fiction* is also an ideal starting point for those new to the study of fan fiction and its communities of writers

Martyrdom Ihab Saloul, Jan Willem Henten, 2025-10-01 The phenomenon of martyrdom is more than 2000 years old but as contemporary events show still very much alive *Martyrdom Canonisation Contestation and Afterlives* examines the canonisation contestation and afterlives of martyrdom and connects

these with cross cultural acts and practices of remembrance Martyrdom appeals to the imagination of many because it is a highly ambiguous spectacle with thrilling deadly consequences Imagination is thus a vital catalyst for martyrdom for martyrs become martyrs only because others remember and honour them as such This memorialisation occurs through rituals and documents that incorporate and re interpret traditions deriving from canonical texts The canonisation of martyrdom generally occurs in one of two ways First through ritual commemoration by communities of inside readers listeners viewers and participants who create and recycle texts re interpreting them until the martyrs ultimately receive a canonical status or second through commemoration as a means of contestation by competing communities who perceive these same people as traitors or terrorists By adopting an interdisciplinary orientation and a cross cultural approach this book goes beyond both the insider admiration of martyrs and the partisan rejection of martyrdoms and concisely synthesises key interpretive questions and themes that broach the canonised unstable and contested representations of martyrdom as well as their analytical connections divergences and afterlives in the present

Courage in the Classroom: LGBT teachers share their stories Catherine Lee, 2020-04-17 We are all at our most effective when we can be ourselves at work but more than half of LGBT teachers hide their sexual identity within their school workplace For LGBT teachers vigilance concealment and assimilation take a great deal of energy on top of what is already a very demanding job This book is essential reading for any LGBT teacher aspiring to succeed as their authentic self It will also be of interest to Headteachers and other education leaders seeking to make their schools safe and inclusive workplaces for their LGBT staff and LGBT families Based around the inspirational work of the Courageous Leaders programme this book turns on its head the notion that it can be difficult to be a leader in school and be LGBT Through personal testimonies advice and a rousing call to arms this book shows how LGBT School Leaders are often amongst the most inclusive creative adaptable and intuitive colleagues when they are able to flourish and be their authentic selves

After Eunuchs Howard Chiang, 2018-08-07 For much of Chinese history the eunuch stood out as an exceptional figure at the margins of gender categories Amid the disintegration of the Qing Empire men and women in China began to understand their differences in the language of modern science In *After Eunuchs* Howard Chiang traces the genealogy of sexual knowledge from the demise of eunuchism to the emergence of transsexuality showing the centrality of new epistemic structures to the formation of Chinese modernity From anticastration discourses in the late Qing era to sex reassignment surgeries in Taiwan in the 1950s and queer movements in the 1980s and 1990s *After Eunuchs* explores the ways the introduction of Western biomedical sciences transformed normative meanings of gender sexuality and the body in China Chiang investigates how competing definitions of sex circulated in science medicine vernacular culture and the periodical press bringing to light a rich and vibrant discourse of sex change in the first half of the twentieth century He focuses on the stories of gender and sexual minorities as well as a large supporting cast of doctors scientists philosophers educators reformers journalists and tabloid writers as they debated the questions of political sovereignty national belonging cultural authenticity scientific modernity human difference and the power and authority of truths about sex Theoretically sophisticated and far reaching *After Eunuchs* is an innovative contribution to the history and philosophy of science and queer and Sinophone studies

Transgressing Boundaries in Jeanette Winterson's Fiction Sonia Front, 2009 The subsequent chapters of the book deal with selected questions from Jeanette Winterson's fiction such as gender issues love and eroticism language and time constituting areas within which Winterson's characters seek their identity As they contest and repudiate cliché's stereotypes and patterns their journey of self discovery is accomplished through transgression The book analyzes how the subversion of phallogocentric narrative and scenarios entails the reenvisioning of relations between the genders and reconceptualization of female desire The author attempts to determine the consequences of Winterson's manipulations with gender sexuality and time and her disruption of the binary system

Non-Binary Lives Jos Twist, Meg-John Barker, Kat Gupta, Ben Vincent, 2020-04-21 LAMBDA LITERARY AWARD FINALIST Essential reading THE INDEPENDENT Vital and insightful OWL FISHER What does it mean to be non binary in the 21st Century Our gender identity is impacted by our personal histories the cultures communities and countries we are born into and the places we go and the people we meet But the representation of contemporary non binary identities has been limited until now Pushing the narrative around non binary identities further than ever before this powerful collection of essays represents the breadth of non binary lives across the boundaries of race class age sexuality faith and more Leading non binary people share stories of their intersecting lives how it feels to be non binary and neurodiverse the challenges of being a non binary pregnant person what it means to be non binary within the Quaker community the joy of reaching gender euphoria This thought provoking anthology shows that there

is no right or wrong way to be non binary

The Oxford Handbook of the Age of Shakespeare R. Malcolm

Smuts, 2016-06-30 The Oxford Handbook of the Age of Shakespeare presents a broad sampling of current historical scholarship on the period of Shakespeare's career that will assist and stimulate scholars of his poems and plays. Rather than merely attempting to summarize the historical background to Shakespeare, individual chapters seek to exemplify a wide variety of perspectives and methodologies currently used in historical research on the early modern period that can inform close analysis of literature. Different sections examine political history at both the national and local levels, relationships between intellectual culture and the early modern political imagination, relevant aspects of religious and social history, and facets of the histories of architecture, the visual arts, and music. Topics treated include the emergence of an early modern public sphere and its relationship to drama during Shakespeare's lifetime, the role of historical narratives in shaping the period's views on the workings of politics, attitudes about the role of emotion in social life, cultures of honour and shame, and the rituals and literary forms through which they found expression, crime and murder, and visual expressions of ideas of moral disorder and natural monstrosity in printed images as well as garden architecture.
