

شفافیت شیطانی

ژان بودریار

ترجمه پیروز ایزدی

چاپ دوم

رساله‌ای در باره پدیده‌های افراطی

بخش دوم کتاب اختصاص به بحث «خود و دیگری» دارد. بودریار در این بخش قصد دارد به تبیین از میان رفتن «خود» و این واقعیت بپردازد که ما دیگر قادر به کسب تجربیات «دست اول» و درک بی‌واسطه از جهان نیستیم. از سوی دیگر، از دست رفتن خود مستقل به معنای سلب مسئولیت از خود و تبعیت از دیگری است؛ گویی قرار گرفتن تحت سرکوب، استثمار، تعقیب و کنترل دیگری بهتر از آن است که خود سرنوازشمان را در دستمان داشته باشیم.

Frank J. Macke

The Transparency Of Evil The Transparency Of Evil:

The Transparency of Evil Jean Baudrillard, 1993 This text contemplates Western culture after the orgy the revolutions of the 1960s The author argues that the sexual revolution has led not to sexual liberation but to a reign of transvestism to a confusion of the categories of man and woman and a transaesthetic realm of indifference **The Transparency of Evil**

Jean Baudrillard, 1995 **The Experience of Human Communication** Frank J. Macke, 2014-12-24 This book deals with matters of embodiment and meaning in other words the essential components of what Continental thought since Heidegger has come to consider as communication A critical theme of this book concerns the basic tenet that consciousness of one's Self and one's body is only possible through human relationship This is of course the phenomenological concept of intersubjectivity But rather than let this concept remain an abstraction by discussing it as merely a function of language and signs this work attempts to explicate it empirically That is it discusses the manner in which from infancy to childhood and adolescence and the dawning of our sexual identities through physical maturity and old age we come to experience the ecstasy of what Merleau Ponty has so poetically termed flesh It is rarely clear what someone means when she or he uses the word communication An important objective of this book is thus to advance understanding of what communication is In academic discourse communication has come to be understood in a number of contexts some conflicting and overlapping as a process a strategy an event an ethic a mode or instance of information or even a technology In virtually all of these discussions the concept of communication is discussed as though the term's meaning is well known to the reader When communication is described as a process the meaning of the term is held at an operational level that is in the exchange of information between one person and another what must unambiguously be inferred is that communication is taking place In this context information exchange and communication become functionally synonymous But as a matter of embodied human psychological experience there is a world of difference between them As such this book attempts to fully consider the question of how we experience the event of human communication The author offers a pioneering study that advances the *raison d'être* of the emergent field of communicology while at the same time offering scholars of the human sciences a new way of thinking about embodiment and relational experience **Baudrillard Dictionary** Richard G. Smith, 2010-07-05 This is the first dictionary dedicated to the work of Jean Baudrillard 1929-2007 It explains and contextualises more than a hundred key concepts terms influences and topics within his thought An essential reference for students and scholars of Baudrillard it also serves as an authoritative overview of how his ideas have shaped a broad range of disciplines from art architecture film and photography to sociology philosophy human geography media studies and cultural studies The entries are written by 35 leading Baudrillard specialists from around the world including Rex Butler Mike Gane Gary Genosko Victoria Grace Diane Rubenstein and Andrew Wernick **Jean Baudrillard** Rex Butler, 1999-02-24 This book goes beyond Baudrillard's writings on consumer objects the Gulf War and America to identify the fundamental logic that underpins his

writings It does this through a series of close readings of his main texts paying particular attention to the form and internal coherence of his arguments The book is written for all those who want a general introduction to Baudrillard s work and will also appeal to those readers who are interested in social theory but who have not yet taken Baudrillard seriously *Jean Baudrillard, Art and Artefact* Nicholas Zurbrugg, B.A, D.Phil,Nicholas Zurbrugg,1997-11-14 This bookoffers a major reappraisal of Jean Baudrillard s thoughts on the image radical illusion and media culture Here for the first time through a number of highly accessible interviews and recent essays Baudrillard introduces what he calls the stunning clarity of the photographic and fascinatingly outlines his present thoughts on urban reality aesthetics virtual reality and new media technologies in the light of his practice as a photographer The book is illustrated with eight colour plates of Baudrillard s photographs and includes a number of provocative and illuminating responses to his recent writings from noted Baudrillard scholars It also includes a definitive bibliography of critical responses to Baudrillard s writings on media culture art and photography
