The Twisted Sane Vs The Insane:

The Twisted Gary Turcotte, 2019-06-19 I dedicated my life as a teen to follow my dream of becoming a psychologist The idea of understanding the troubles of the human mind intrigued me To comfort those who needed to be consoled and to reach their darkest secrets and restore them I felt like a tin worker taking the dents from a crashed fender and with a little polish they could be normal acceptable and maybe as good as new But that was a falsity an arrogant ignorant naive fantasy of what the profession really was I was taken to the breaking point many times and soon my colleagues were counseling me Some days they needed a session too We listened to each other Unable to maintain a relationship I was childless and without a mate My entire being was devoted to the consuming draining ongoing wars inside my patience s minds The reality was that there was no escape for them and soon I felt I would join them Many events convinced me that my own sanity was questionable To listen to the stories of the twisted minds and not feel the contamination was against all self preservation

Inside these pages are some of those stories **Survivors: The A-bombed Trees of Hiroshima** David Petersen, Mandy Conti, 2008 Hiroshima Peace Memorial Park built at what was once the hypocenter of an atomic blast is the most visible sign of the city s renaissance as a force for peace in 21st century politics But it is not the only reminder of the spirit of Hiroshima Less well known are the scores of survivors dotting the metropolitan landscape These treasured trees shrubs and groves date from before the bombing on August 6th 1945 They were spared from annihilation and are now carefully tended by the schools homes temples and shrines entrusted by fate with their care Based on a three year stay in the city by the authors this pictorial journey into the heart of Hiroshima documents more than 50 sites and 75 trees There are maps bilingual place names and addresses snapshots of local culture and overviews of each species of plant Never before published translations of essays by the a bomb survivor Tamiki Hara are also included as meditations on the meaning of peace in difficult times

Jacobs, 2019-02-12 Daisy Weal was gifted with extraordinary powers Her early years were spent learning how to control them learning how to fit in and learning how to be Human But now Daisy is ten and as her knowledge of the universe expands she discovers a monstrous being from another reality that is a serious threat to Humanity Can her understanding of it be enough to prevent disaster Would she have enough time to deal with this threat before a second emerges that was trapped in another dimension How can she know that the gateway has been inadvertently opened by a curious scientist and that the fate of the entire universe now hangs in the balance Despite all of her efforts to maintain a front of normality against these impossible odds she was eventually noticed and recruited into a secret service specifically for her special talents Would those talents be enough to enable her to deal with one monstrous being one dimensional horror and at the same time stop a madman from destroying London
