Boswell, 1901 *Boswell's Life of Johnson* James Boswell, 1906 Compound Words in Spanish María Irene Moyna, 2011

This is the first book devoted entirely to the history of compound words in Spanish Based on data obtained from Spanish dictionaries and databases of the past thousand years it documents the evolution of the major compounding patterns of the language It analyzes the structural semantic and orthographic features of each compound type and also provides a description of its Latin antecedents early attestations and relative frequency and productivity over the centuries The combination of qualitative and quantitative data shows that although most compound types have survived they have

undergone changes in word order and relative frequency Moreover the book shows that the evolution of compounding in Spanish may be accounted for by processes of language acquisition in children This book which includes all the data in chronological and alphabetical order will be a valuable resource for morphologists Romance linguists and historical linguists more generally *The Nation* ,1916 **En Espanol!** Holt McDougal,2003 *De Acuerdo!* Thomas A.
