From the Plantation to the Prison Tara T. Green, 2008 According to George Jackson black men born in the US are conditioned to

accept the inevitability of being imprisoned Being born a slave in a captive society and never experiencing any objective basis for expectation had the effect of preparing me for the progressively traumatic misfortune that led so many black men to the prison gate I was prepared for prison It required only minor psychic adjustments As Jackson writes from his prison cell his statement may seem to be only a product of his current status However history proves his point Indeed some of the most well known and respected black men have served time in jail or prison Among them are Martin Luther King Jr Malcolm X Marcus Garvey and Frederick Douglass This book is an examination of the various forms that imprisonment as a social historical and political experience of African Americans has taken Confinement describes the status of individuals who are placed within boundaries either seen or unseen but always felt A word that suggests extensive implications confinement describes the status of persons who are imprisoned and who are unjustly relegated to a social status that is hostile rendering them powerless and subject to the rules of the authorities Arguably confinement appropriately describes the status of African Americans who have endured spaces of confinement which include but are not limited to plantations Jim Crow societies and prisons At specific times these spaces of confinement have been used to oppress African Americans socially politically and spiritually Contributors examine the related experiences of Malcolm X Bigger Thomas of Native Son and Angela Davis

from the first to bring the student into direct contact with the sources so far at least as that may be done through the medium of translations The primary aim of this book is to supply this need It is intended to serve either as a companion volume to any History of Philosophy that may be adopted as a text book or as a substitute for such a history where the instructor may prefer through his own lectures to give his own interpretation of this philosophical movement It is hoped that the book may also as a reference work prove of value to students of philosophy generally as well as to all who are interested in the development of ancient thought PsycINFO Database Record c 2008 APA all rights reserved *The Old Book Collector's Miscellany* Charles Hindley, 1873
