Theater of Lockdown Barbara Fuchs, 2021-09-09 Offering one of the first scholarly examinations of digital and distanced performance since the global shutdown of theaters in March 2020 Barbara Fuchs provides both a record of the changes and a framework for thinking through theater's transformation Though born of necessity recent productions offer a new world of practice from multi platform plays on Zoom WhatsApp and Instagram to enhancement via filters and augmented reality to urban distanced theater that enlivens streetscapes and building courtyards Based largely outside the commercial theater these productions transcend geographic and financial barriers to access new audiences while offering a lifeline to artists This study charts how virtual theater puts pressure on existing assumptions and

definitions transforming the conditions of both theater making and viewership How are participatory site specific or devised theater altered under physical distancing requirements How do digital productions blur the line between film and theater What does liveness mean in a time of pandemic In its seven chapters Theater of Lockdown focuses on digital and distanced productions from the Americas Europe and Australia offering scholarly analysis and interviews Productions examined include Theater in Quarantine s closet work in New York Forced Entertainment s Sheffield UK End Meeting for All I II and III the work of Madrid based company Grumelot and the virtuosic showmanship of EFE Tres in Mexico City Adapting Translation for the Stage Geraldine Brodie, Emma Cole, 2017-07-06 Adapting Translation for the Stage presents a sustained dialogue between scholars actors directors writers and those working across boundaries exploring common themes encountered when writing staging and researching translated works **Drama, Politics, and Evolution** Bruce McConachie, 2021-10-25 This book outlines the evolution of our political nature over two million years and explores many of the rituals plays films and other performances that gave voice and legitimacy to various political regimes in our species history Our genetic and cultural evolution during the Pleistocene Epoch bestowed a wide range of predispositions on our species that continue to shape the politics we support and the performances we enjoy The book s case studies range from an initiation ritual in the Mbendjela tribe in the Congo to a 1947 drama by Bertolt Brecht and include a popular puppet play in Tokugawa Japan A final section examines the gradual disintegration of social cohesion underlying the rise of polarized politics in the USA after 1965 as such films as The Godfather Independence Day The Dark Knight Rises and Joker accelerated the nation s slide toward authoritarian Trumpism Greek Drama V Hallie Marshall, C. W. Marshall, 2020-02-06 Drawing together new research from emerging and senior scholars this selection of papers from the decennial Greek Drama V conference Vancouver 2017 explores the works of the ancient Greek playwrights and showcases new methodologies with which to study them Sixteen chapters from a field of international contributors examine a range of topics from the politics of the ancient theatre to the role of the chorus to the earliest history of the reception of Aeschylus Oresteia Employing anthropological historical and psychological critical methods alongside performance analysis and textual criticism these studies bring fresh and original interpretations to the plays Several contributions analyse fragmentary tragedies while others incorporate ideas on the performance aspect of certain plays The final chapters deal separately with comedy naturally focusing on the plays of Aristophanes and Menander Greek Drama V offers a window into where the academic field of Greek drama is now and points towards the future scholarship it will produce Staging the Personal Clark Baim, 2020-09-05 This book examines the history ethics and intentions of staging personal stories and offers theatre makers detailed guidance and a practical model to support safe ethical practice Contemporary theatre has crossed boldly into therapeutic terrain and is now the site of radical self exposure Performances that would once have seemed shockingly personal and exposing have become commonplace as people reveal their personal stories to audiences with ever increasing candor This has prompted the need

for a robust and pragmatic framework for safe ethical practice in mainstream and applied theatre In order to promote a wider range of ethical risk taking where practitioners negotiate blurred boundaries in safe and artistically creative ways this book draws on relevant theory and practice from theatre and performance studies psychodrama and attachment narrative therapy and provides detailed guidance supporting best practice in the theatre of personal stories The guidance is structured within a four part framework focused on history ethics praxis and intentions This includes a newly developed model for safe practice called the Drama Spiral The book is for theatre makers in mainstream and applied theatre educators students researchers drama therapists psychodramatists autobiographical performers and the people who support them *Classical Reception* Anastasia Bakogianni, Luis Unceta Gómez, 2024-07-22 In a time of acute crisis when our societies face a complex series of challenges race gender inclusivity changing pedagogical needs and a global pandemic we urgently need to re access the nature of our engagement with the Classical World This edited collection argues that we need to discover new ways to draw on our discipline and the material it studies to engage in meaningful ways with these new academic and societal challenges The chapters included in the collection interrogate the very processes of reception and continue the work of destabilising the concept of a pure source text or point of origin Our aim is to break through the boundaries that still divide our ancient texts and material culture from their reception and interpretive communities Our contributors engage with these questions theoretically and or through the close examination of cultural artefacts They problematise the concept of a Western elitist canon and actively push the geographical boundaries of reception as both a local and a global phenomenon Individually and cumulatively they actively engage with the question of how to marshal the classical past in our efforts to respond to the challenges of our mutable contemporary world **Brill's Companion to the Reception of Sophocles**, 2017-04-03 Brill's Companion to the Reception of Sophocles offers a comprehensive account of the influence reception and appropriation of all extant Sophoclean plays as well as the fragmentary Satyr play *The Trackers* from Antiquity to Modernity across cultures and civilizations encompassing multiple perspectives and within a broad range of cultural trends and manifestations literature intellectual history visual arts music opera and dance stage and cinematography A concerted work by an international team of specialists in the field the volume is addressed to a wide and multidisciplinary readership of classical reception studies from experts to non experts Contributors engage in a vividly and lively interactive dialogue with the Ancient and the Modern which while illuminating aspects of ancient drama and highlighting their ever lasting relevance offers a thoughtful and layered guide of the human condition
