

The Theocons

Secular America
Under Siege

DAMON LINKER

With a New Afterword

"For anybody who wants to understand the growing public role of American religion, *The Theocons* is a book to reckon with."

—*The New York Times*
Book Review

The Theocons Secular America Under Siege

Stephen Bates

The Theocons Secular America Under Siege:

The Theocons Damon Linker, 2007-09-04 An essential history of the influential men who have spearheaded the movement to erode the wall separating church and state Beginning as far left radicals during the 1960s the theocons in Damon Linker's book including Richard John Neuhaus Michael Novak and George Weigel gradually transitioned to conservatism when they grew frustrated with the failures of the decade's revolutionary goals Linker shows how starting during the Reagan administration they worked to forge a Christian alliance between Evangelical Protestants and Conservative Catholics By injecting the language of faith into political life this movement appealed to a wide swath of voters and ultimately played a central role in the election of George W Bush The Theocons is an absorbing and revelatory look at an ideological crusade that every American needs to know about False Prophets Richard Bonney, 2008 After 9 11 the US response to Al Qaeda the Global War on Terror was heavily influenced by the clash of civilizations theory This book identifies the twenty first century proponents of the thesis such as Bernard Lewis and Daniel Pipes their links to the Bush government and their roles in exploiting hostility between the West and Islam Norman Podhoretz and Commentary Magazine Nathan Abrams, 2011-10-27 What does the term neoconservative mean Who are we talking about and where did they come from Abrams answers those very questions through a detailed and critical study of neoconservatism's leading thinker Norman Podhoretz and the magazine he edited for 35 years Commentary Podhoretz has been described as the conductor of the neocon orchestra and through Commentary Podhoretz powerfully shaped neoconservatism Rich in research the book is based upon a wide range of sources including archival and other material never before published in the context of Commentary magazine including Podhoretz's private papers It argues that much of what has been said about neoconservatism is the product of willful distortion and exaggeration both by the neoconservatives themselves and their many enemies From this unique perspective Abrams examines the origins rise and fall of neoconservatism In understanding Podhoretz a figure often overlooked this book sheds light on the origins ideas and intellectual pedigree of neoconservatism **The Rise of**

Common-Sense Conservatism Antti Lepistö, 2021-04-20 In the years following the election of Donald Trump a victory that hinged on the votes of white Midwesterners who were both geographically and culturally distant from the media's coastal concentrations there has been a flurry of investigation into the politics of the so called common man The notion that the salt of the earth purity implied by this appellation is best understood by conservative politicians is no recent development though As Antti Lepistö shows in his timely and erudite book the intellectual wellsprings of conservative common sense discourse are both older and more transnational than has been thought In considering the luminaries of American neoconservative thought among them Irving Kristol Gertrude Himmelfarb James Q Wilson and Francis Fukuyama Lepistö argues that the centrality of their conception of the common man accounts for the enduring power and influence of their thought Intriguingly Lepistö locates the roots of this conception in the eighteenth century Scottish Enlightenment revealing how leading neoconservatives

weaponized the ideas of Adam Smith Thomas Reid and David Hume to denounce postwar liberal elites educational authorities and social reformers Their reconfiguration of Scottish Enlightenment ideas ultimately gave rise to a defining force in modern conservative politics the common sense of the common man Whether twenty first century politicians who invoke the grievances of the people are conscious of this unusual lineage or not Lepist explains both the persistence of the trope and the complicity of some conservative thinkers with the Trump regime **God's Own Country** Stephen Bates,2011-11-24 Right wing evangelical Christianity has come to dominate American political and social life in recent years dividing the country and sparking cultural and moral battles High politics and low tactics frame a fierce debate which goes much further back in the country s history than the accession of George W Bush in 2001 It s a battle that sears America s soul and affects the world In this book Stephen Bates explains why what happens in the Bible Belt matters to us and how there are those who hope to export the battle to Britain American fundamentalist religion has the potential to impact on crucial and acutely dangerous areas of the world Its priorities are often arcane and sometimes weird But it is already affecting American government policy at home and abroad not least in Israel and the Middle East How is religion affecting the current presidential elections and where will America s battle for its soul take the world next *Conservative Christian Politics in Russia and the United States* John Anderson,2014-09-19 This book explores the politics of conservative Christian churches and social movements in Russia and the United States focusing on their similar concerns but very different modes of political engagement Whilst secularisation continues to chip away at religious adherence and practice in Europe religion is often quite rightly seen as an influential force in the politics of the United States and more questionably as a significant influence in contemporary Russia This book looks at the broad social movement making up the US Christian Right and the profoundly hierarchical leadership of the Russian Orthodox Church as socially conservative actors and some of the ways they have engaged in contemporary politics Both are seeking to halt the perceived drift towards a more secular political order both face significant challenges in handling the consequences of secularism pluralism and liberal individualism and both believe that their nations can only be great if they remain true to their religious heritage In exploring their experience the book focuses on shared and different elements in their diagnosis of what is wrong with their societies and how this affects their policy intervention over issues such as religious and ethnic belonging sexual orientation and education Drawing on political sociological and religious studies this work will be a useful reference for students and scholars of religion and politics Russian politics and American politics **God Is Back** John Micklethwait,Adrian Wooldridge,2009-04-02 A landmark examination of the resurgence of faith around the globe The Editor in Chief of The Economist and its Lexington columnist show how the global rise of religion will dramatically impact our century in God Is Back Contrary to the popular assumption that modernism would lead to the rejection of faith American style evangelism has sparked a global revival On the street and in the corridors of power the authors shine a bright light on a vast yet until now hidden world of religion Twenty first century

faith is being fueled by a very American emphasis on competition and a customer driven attitude toward salvation Revealing how the religion boom is destabilizing politics and the global economy God Is Back concludes by showing how the same American ideas that created our unique religious style can be applied to channel the rising tide of faith away from volatility and violence

No Christian Man Is an Island Dex Bahr, 2010-06 The sun is setting in America and darkness is falling Our nation needs knights Truth is under assault in America causing her to weaken from within In NO CHRISTIAN MAN IS AN ISLAND Dex Bahr argues that at no time in our history is it more crucial for Christian men to have the courage to be knights in defense of God country and family Bahr illuminates readers to the hostile spiritual and ideological forces that have hijacked faith education politics and media and why they must be defeated Praise for NO CHRISTIAN MAN IS AN ISLAND I highly recommend this book for the author s passion and heartfelt desire for the Christian man to not be passive but to be actively involved in his Christian life We are living in a world of decay and though we will not be able to stop it from its downward spiral we have the chance to slow down its course and we begin with a good comprehension and knowledge of our situation NO CHRISTIAN MAN IS AN ISLAND thoughtfully addresses these issues and clearly challenges us to a passionate pursuit of God The opportunity to be a hero of God is out there just go and do it The world has yet to see what God could do to a fully surrendered man By Henry Varley friend of D L Moody Jofri Frigillana M Div Th M Talbot Theological Seminary Good Shepherd Baptist Church Anaheim CA Dex Bahr is a freelance writer A former broadcast news reporter Mr Bahr has worked in major markets including KJEO TV in Fresno California and OCN in Santa Ana California Mr Bahr has been a Christian since 1980 and has served the Lord as a lay speaker and small group leader He is married with two children

Why We're Liberals Eric Alterman, 2008-03-13 The bestselling author and Newsweek columnist takes a characteristically irreverent look at the rampant mistreatment of liberals and liberalism The most honest and incisive media critic writing today National Catholic Reporter Eric Alterman is committed to restoring the liberal tradition to its honored place as the political philosophy of mainstream American citizens In this bracing and well documented counterattack on right wing spin and misinformation Alterman briskly disposes of the canards and false definitions that have been foisted upon liberals by the right and have been accepted unquestioningly by nearly everyone else The perfect post election book for all those who are ready to fight back against the conservative mudslinging machine and reclaim their voices in the political process Why We're Liberals brings clarity and perspective to the possibility of a new day in America

Neo-Confederacy Euan Hague, Heidi Beirich, Edward H. Sebesta, 2009-09-15 A century and a half after the conclusion of the Civil War the legacy of the Confederate States of America continues to influence national politics in profound ways Drawing on magazines such as Southern Partisan and publications from the secessionist organization League of the South as well as DixieNet and additional newsletters and websites Neo Confederacy probes the veneer of this movement to reveal goals far more extensive than a mere celebration of ancestry Incorporating groundbreaking essays on the Neo Confederacy movement this eye

opening work encompasses such topics as literature and music the ethnic and cultural claims of white Anglo Celtic southerners gender and sexuality the origins and development of the movement and its tenets and ultimately its nationalization into a far reaching factor in reactionary conservative politics The first book length study of this powerful sociological phenomenon Neo Confederacy raises crucial questions about the mainstreaming of an ideology that founded on notions of white supremacy has made curiously strong inroads throughout the realms of sexist homophobic anti immigrant and often orthodox Christian populations that would otherwise have no affiliation with the regionality or heritage traditionally associated with Confederate history

Reviewing **The Theocons Secular America Under Siege**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is truly astonishing.
