Nazi UFOs S.D. Tucker, 2022-10-24 *Nazi UFOs* tells the strange tale of how following the first alleged flying saucer sightings made in the USA in 1947 a series of fantasists and neo fascists came forward to create a media myth that the Nazis may have invented these incredible craft as a means for winning the Second World War a plan which was tantalisingly close to completion before the Allies conquered Berlin in 1945 Today the fantasy of Nazi UFOs has grown into an entire mythology in books on TV and online Did Germany back engineer anti gravity craft and even a full blown time machine by stripping technology from a crashed alien saucer Did the SS secretly invent Green technology for use in their star ship engines and was this planet saving discovery later suppressed at the behest of a sinister Big Oil conspiracy Did Himmler try to develop lightning weapons for use in aerial combat By contrasting the fake military industrial pseudo histories of Nazi UFO theorists with details of real life Nazi aerospace achievements the author demonstrates both how this modern day mythology came about and how it cannot possibly be more than fractionally true For the first time this fake alternative military history is laid out in full This book features an appealing cast of con men and spies complete madmen real life Nazis and completely made up ones operating right across the globe from South America to wartime Europe and Japan A good example may be the mad professor Viktor Schauberger who actually genuinely did manage to gain a personal audience with Adolf Hitler in order to try and convince him that he had discovered and then exploited some amazing new source of natural free energy which could

make objects such as saucers in the opinion of some float Hitler dismissed his plan but it does nonetheless show how close some bizarre schemes came to being implemented in Nazi Germany *Great British Eccentrics* S. Facing the Bear Trevor Royle,2019-10-08 The author of Culloden explores Scotland s history during the Cold War Between the end of the Second World War and the collapse of Communism confrontation with the Soviet Union was an everyday reality As part of NATO s response Scotland played a key role in the alliance s forward maritime defense strategy aimed at containing the Soviet threat from naval and air forces During this period 10 percent of the UK s naval and air forces were based in Scotland and there was a substantial U S presence as well as top secret satellite and command stations In Facing the Bear Trevor Royle paints a fascinating portrait of this extraordinary period examining not just the wider military and political contexts but also showing how the defense industry brought huge economic benefits how CND maintained a high profile presence and how anti nuclear sentiments underpinned much of the left s thinking in Scotland and contributed to the hegemony enjoyed by the Labour Party in Scotland during the Cold War Praise for Facing the Bear Engrossing Like a military commander at the top of his game Royle marshals his material to maximum effect to show how Scotland has been shaped by and also helped shape the Cold War He ranges far and wide and has that rare talent to marry the local with the

geopolitical But this is not simply a story of military hardware and confrontation Royle is very interesting on how the Cold War influenced our cultural life from the novel to poetry and the protest song Barclay McBain The Herald UK
