The Beat, the Scene, the Sound DJ Disciple, Henry Kronk, 2023-06-15 A thrilling and tumultuous behind the scenes account of house music in NYC *The Beat the Scene the Sound* follows DJ Disciple and his behind the scenes account of how DJs promoters fans and others transformed house music from a DIY project into an international sensation dive into the glitzy clubs underground parties and the diverse communities who made up the scene amidst the tumult of 1980s 90s era NYC between the fall of disco and the rise of EDM The book unearths many untold stories of the era When house first rose to prominence in the 1980s it brought people together Palladium Paradise Garage Tunnel Zanzibar Studio 54 and other clubs were going strong But as DJ Disciple

established himself in the scene he witnessed it shatter During the crack cocaine epidemic he literally dodged bullets bringing his records to and from clubs at night HIV AIDS and homophobia threw up fear based partitions Then mayors worked to close the clubs House music was pushed underground and then abroad to the UK and Europe Disciple and many other DJs sought to regain a footing in the United States but that only became possible with the rise of commercialized EDM With dozens of interviews and historic photographs The Beat the Scene the Sound shows what is possible when you bring people together and what can unravel when you split them apart Mediatization in Popular Music Recorded Artifacts Alessandro Bratus, 2019-10-10 In Mediatization in Popular Music Recorded Artifacts Performance on Record and on Screen the relationship between performance technological mediation and the sense of live presence is investigated through a series of case studies related to popular music products Alessandro Bratus explores technological mediation as a process of authentication that involves a chain of interconnected instances that have their roots in the cultural context in which the media products are designed to be marketed and that also shape its recording technique and post production The book analyzes posthumous records a peculiar case of the organization of recorded tracks made in absentia of their original performers that puts forward the possibility of an otherworldly collaboration between the living and the dead Bratus also argues that the crucial significance of live performance for the construction of a personal intimate relationship between performers and audiences reverberates in the audiovisual construction of the filmed concert in which the spectator is put in the position of a witness rather than an active participant
