The Cambridge Companion to the Victorian Novel Deirdre David, 2001 In *The Cambridge Companion to the Victorian Novel* first published in 2000 a series of specially commissioned essays examine the work of Charles Dickens the Brontës George Eliot and other canonical writers as well as that of such writers as Olive Schreiner Wilkie Collins and H Rider Haggard whose work has recently attracted new attention from scholars and students The collection combines the literary study of the novel as a form with analysis of the material aspects of its readership and production and a series of thematic and contextual perspectives that examine Victorian fiction in the light of social and cultural concerns relevant both to the period itself and to the direction of current literary and cultural studies Contributors engage with topics such as industrial culture religion and science and the broader issues of the politics of gender sexuality and race The Companion includes a chronology and a comprehensive guide to further reading

Tess of the d'Urbervilles - Second Edition Thomas Hardy, 2007-02-12 This classic novel tells the story of how the poor rural couple John and Joan Durbeyfield become convinced that they are descended from the ancient family of d'Urbervilles They encourage their innocent daughter Tess to cement a connection with the d'Urberville family including their unprincipled son Alec with tragic consequences A Pure Woman Faithfully Presented as Hardy subtitled the novel represented a direct challenge to conventional Victorian notions of sexuality and femininity This is a revised updated and expanded Broadview edition that highlights a feminist interpretation of the novel in an extensive introduction The range of historical appendices including contemporary articles letters maps news stories and reviews will greatly enhance a reader's understanding of the text

Scale, Crisis, and the Modern Novel Aaron Rosenberg, 2023-11 At the turn of the twentieth century novelists faced an unprecedented crisis of scale While exponential increases in industrial production resource extraction and technological complexity accelerated daily life growing concerns about deep time evolution globalization and extinction destabilised scale's value as a measure of reality Here Aaron Rosenberg examines how four novelists moved radically beyond novelistic realism repurposing the genres romance melodrama gothic and epic it had ostensibly superseded He demonstrates how H G Wells Thomas Hardy Joseph Conrad and Virginia Woolf engaged with climatic and ecological crises that persist today requiring us to navigate multiple temporal and spatial scales simultaneously The volume shows that problems of scale constrain our responses to crisis by shaping the linguistic aesthetic and narrative structures through which we imagine it This title is part of the Flip it Open Programme and may also be available Open Access Check our website Cambridge Core for details
