

FT-102

HF ALL MODE TRANSCEIVER

PREFACE

The purpose of this manual is to provide a technical supplement to the Instruction Manual supplied with the FT-102 from the factory. Detailed information regarding installation, operation and alignment, as well as the circuit description, has been provided in the Instruction Manual, and is not reprinted here. Therefore, this Technical Supplement is not intended to serve as an independent reference, but to be used in conjunction with the information provided in the Instruction Manual.

Every effort has been made to include all of the modifications and updates that have been developed during production of the FT-102. However, certain custom modifications that are not of general interest have not been included, and Yaesu reserves the right to carry out additional modifications without notifying owners.

So far, the FT-102 has proven to be extremely reliable in the field, with only a few common problems having required modifications. These have all been incorporated into the later production lots, but details of the modifications are included here for those who may need to update earlier models.

We trust that technically-minded owners and service technicians of the FT-102 will find this manual useful as a supplement to the FT-102 Instruction Manual. Although Yaesu can not assume liability for any damages that may occur because of possible errors in this Supplement or the Instruction Manual, we do invite readers to call our attention to errors or inconsistencies that we might have overlooked.
