

Year 11 Term 1 Food Technology Notes

Food Availability and Selection

Influences of Food Availability

Food Security

What is Food Security?

According to FAO (Food and Agricultural Organisation), food security is the human right for people at all times to have physical, social and economic access to sufficient, safe and nutritious food to meet their dietary needs and food preferences for an active and healthy lifestyle

Barriers to Food Security

- Remoteness
- Low income
- Low education

Food Safety Includes:

- Adequacy of food supply and availability
- Stability of supply without fluctuations or shortages
- Accessibility and affordability of food
- Quality and safety of food

Factors causing food insecurity (can affect food availability):

- The financialisation of food – used as a 'commodity' for money rather than the right to food
- Market dominance of multinational agribusinesses and exporters
- Lack of access to farming land needed to produce food and generate income
- Land 'grabbing' by large business who take over land that has been traditionally farmed by families
- Natural disasters
- Farmland is being diverted to grow plants for biofuels rather than for food supply (e.g. sugar cane)
- Conflict of war - results in shortages
- Unfair trading rules
- Food wastage

Dimensions of Food Security:

- Availability
- Stability
- Access
- Utilisation

Year 11 Food Technology Notes

William Shurtleff, Akiko Aoyagi

Year 11 Food Technology Notes:

Teaching Food Technology in Secondary School Marion Rutland,2014-04-08 The introduction of National Curriculum Technology moved away from teaching about food in the context of the home and domestic science towards commercial food technology This work offers an evaluation of this development and the required changes of emphasis for teaching

Recipes for Food Technology Middle Secondary Workbook Sally Lasslett,Chrissy Collins,2013-03-13

[History of Soybeans and Soyfoods in Southeast Asia \(13th Century To 2010\)](#) William Shurtleff, Akiko Aoyagi,2010-06 Covers Brunei Cambodia

Indonesia Laos Malaysia Myanmar formerly Burma Philippines Singapore Thailand Timor Leste Vietnam **Bibliography of Agriculture** ,1971-12 History of Soybeans and Soyfoods in Indiana (1856-2021) William Shurtleff; Akiko Aoyagi,2021-10-06 The world s most comprehensive well documented and well illustrated book on this subject With extensive subject and geographic index 268 photographs and illustrations mostly color Free of charge in digital PDF format **NOAA Technical Memorandum EDS ESIC**. Environmental Science Information Center,1972 *History of Soy Nutritional Research (1946-1989)* William Shurtleff; Akiko Aoyagi,2021-02-07 The world s most comprehensive well documented and well illustrated book on this subject With extensive subject and geographic index 20 photographs and illustrations many color Free of charge in digital PDF format **Military Occupational Classification and Structure** ,1994 *History of Soy Sprouts (100 CE To 2013)* William Shurtleff,Akiko Aoyagi,2013 *Food Technology* ,1963 **Vegetable Oils in Food Technology** Frank Gunstone,2011-03-01 Our dietary intake comprises three macronutrients protein carbohydrate and lipid and a large but unknown number of micronutrients vitamins minerals antioxidants etc Good health rests in part on an adequate and balanced supply of these components This book is concerned with the major sources of lipids and the micronutrients that they contain Now in an extensively updated second edition the volume provides a source of concentrated and accessible information on the composition properties and food applications of the vegetable oils commonly used in the food industry Chapters are devoted to each type of oil and an introductory chapter by the Editor provides an overview of the current production and trade picture globally The book includes coverage of the modifications of these oils that are commercially available by means of partial hydrogenation fractionation and seed breeding The major food applications are linked wherever possible to the composition and properties of the oils This new edition widens the range of oils covered addresses issues related to trans fats reduction and new composition data is included throughout The book is an essential resource for food scientists and technologists who use vegetable oils in food processing chemists and technologists working in oils and fats processing and analytical chemists and quality assurance personnel Praise for the first edition This excellent book consists of 337 pages in 11 chapters written by 13 experts from six countries the important vegetable oils are dealt with in great detail With obesity on all out lips this book also rightly defends itself and its content namely that all vegetable oils when used correctly and of course in moderation are indeed necessary to all of us Food Beverage Reporter Overall the book covers all of the major oils which the potential reader is likely to approach it for covers a wide range of topics from production through composition to nutritional aspects The volume is well indexed particularly for the individual subject oils and it is easy to find specific topics within its chapters Food Science and Technology This latest book edited by Professor Gunstone belongs to the kind of books where the reader rapidly knows it will bring him a wealth of updated information concentrated in one book The goal to serve as a rich source of data on the thirteen major oils and their important minor components has been attained There is a need for books of such quality European Journal of Lipid Science and Technology

Debates in Design and Technology Education Gwyneth Owen-Jackson, 2013-08-21 Design and Technology has long held a controversial place on the school curriculum with some arguing that it shouldn't be there at all. This book presents and questions considered arguments and judgements and explores the major issues that all D T teachers encounter in their daily professional lives. In exploring some of the key debates it encourages critical reflection and aims to stimulate both novice and experienced teachers to think more deeply about their practice and link research and evidence to what they have observed in schools. Written by expert design and technology education professionals, chapters tackle established and contemporary issues enabling you to reach informed judgements and argue your point of view with deeper theoretical knowledge and understanding. Debates covered include: What is the purpose of design and technology? Is it a vocational or academic subject? What is the place of design and technology within the STEM agenda? What knowledge and skills do teachers really need? What does the design and technology gender divide mean for schools and pupils? Is it a creative subject? What is the future for design and technology? With its combination of expert opinion and fresh insight, *Debates in Design and Technology Education* is the ideal companion for any student or practising teacher engaged in initial training, continuing professional development or Masters level study.

Food and Nutrition Information and Educational Materials Center Catalog Food and Nutrition Information and Educational Materials Center (U.S.), 1973 *Food and Nutrition Information and Educational Materials Center catalog* Food and Nutrition Information Center (U.S.), 1976 **Sea Grant Publications Index, 1968-71**, 1972
