Leading with Character and Competence Timothy R. Clark, 2016-10-17 Leading with Character and Competence Moving beyond Title Position and Authority Leadership is an applied discipline not a foamy concept to muse about says three time CEO Oxford trained scholar and consultant Timothy R Clark In fact it's the most important applied discipline in the world The success of any organization can be traced directly to leadership And leadership can be learned But too many books and development programs focus exclusively on skills In reality performance and ultimate credibility are based on a combination of character and competence As Clark puts it character is the core and competence the crust He shows how greatness emerges from a powerful combination of the two although in the end character is more important A leader with character but no competence will be ineffective while a leader with competence but no character is dangerous Clark spotlights the four most important components of character and competence and offers a series of eloquent inspiring and actionable reflections on what's needed to build each one Fundamentally he sees leadership as influence leaders influence people to climb stretch and become You need character to influence positively and competence to influence effectively This is a book for anyone no matter where he or she is on the organization chart Because today employees at all levels are being asked to step up not only can everyone be a leader everyone has to be Clark's insights are profound and his passion is infectious Leadership he writes is the most engaging inspiring and deeply satisfying activity known to humankind Through leadership we have the opportunity to progress overcome adversity change lives and bless the race
