Oxtoby, 1996

Problematizing Religious Freedom Arvind Sharma, 2011-08-08 The concept of religious freedom is the favoured modern human rights concept with which the modern world hopes to tackle the phenomenon of religious pluralism as our modern existence in an electronically shrinking globe comes to be increasingly characterised by this phenomenon To begin with the concept of religious freedom as embodied in Article 18 of the Universal Declaration of Human Rights seems self evident in nature It is the claim of this book however that although emblematic on the one hand the concept is also problematic on the other and the implications of the concept of religious freedom are far from self evident despite the ready acceptance the term receives as embodying a worthwhile goal This book therefore problematizes the concept along legal constitutional ethical and theological lines and especially from the perspective of religious studies so that religious freedom in the world could be enlarged in a way which promotes human flourishing *The World of the Axial Sages* John C. Stephens, 2020-11-25 This book presents an engaging analysis of the global spiritual changes of the first millennium BCE Between the sixth and fourth centuries BCE several new revolutionary religious and philosophic movements were born throughout the world Rather than using the well known label Axial Age to refer to this time of religious change the book argues that a better choice would be the Age of Awakening since it places more emphasis upon the personal internal dimension of religious experience lying at the core of these developments Earthshattering spiritual encounters with the sacred led the prophets and sages of the Age of Awakening to redirect people's attention away from the stagnant traditions of the past towards new forms of dynamic spirituality The era saw the emergence of a variety of innovative spiritual pathways in both the eastern and western worlds In classical Greece Pythagoras and Plato proposed new spiritual and intellectual alternatives to the outdated religious myths and rituals of the polis The Middle East also played a significant role in the spiritual revolution of the first millennium BCE As early as the sixth century BCE the Persian prophet Zoroaster's revelatory visions about the Truth and the Lie led to the birth of a new religious movement known as Zoroastrianism At the time of the Babylonian Exile ancient Judaism underwent a process of radical spiritual renewal largely due to the inspired teachings of the Hebrew prophets In India the writers of the Upanishads provided a spiritual reinterpretation of many of the old Vedic myths and rituals Sages including the Buddha and Mahavira rejected the old sacrificial system of the brahmins and asserted that liberation from the cycle of birth and death

could only be found through the practice of asceticism and a general withdrawal from the illusory material world As such this book highlights the importance of the de stabilizing influences of religious experience for understanding the revolutionary spiritual developments of the first millennium BCE

Fabricating Religion Russell T. McCutcheon, 2018-09-24 The revised essays collected here four of which are published for the first time continue a longstanding argument made by McCutcheon and others that the study of religion would benefit from self conscious scrutiny of its tools the interests that may drive them and the effects that might follow their use The chapters examine a variety of contemporary sites in the modern field where this thesis can be argued whether involving the anachronistic use of of the category religion when studying the ancient world to current interest in so called critical religion or critical realist approaches Moreover contrary to some past characterizations of such critiques a constructive way forward for the field is once again recommended and at several sites exemplified in detail redescribing not only religion as something ordinary but also our tendency to create the impression of exceptional and thus set apart things places and people Aimed at scholars and students alike the book is an invitation to examine our own scholarly practices and thereby take a more active role in shaping the field in which we carry out our work as scholars of this thing we call religion

Encyclopedia of Religion Lindsay Jones, 2005 This second edition which is intended to reflect both changes in academia and in the world since 1987 includes almost all of the 2 750 original entries many heavily updated as well as approximately 600 entirely new articles It emphasizes religion s role within everyday life and as a unique experience from culture to culture

Paradise and Paradigm Christopher Buck, 1999-05-13 Comparing paradise imagery in two Persian religions early Syriac Christianity and the Baha i Faith this work contributes to religious studies methodology by introducing symbolic paradigm analysis

A Concise Introduction to World Religions Willard Gurdon Oxtoby, Alan F. Segal, 2007 In addition to abridging the contents of the two best selling World Religions volumes Eastern Traditions and Western Traditions contributors to this concise volume text have reworked the original material to focus on six specific areas of analysis the major origins of the movement the crystallization of its teachings the major divisions within the tradition how adherents practice their faith cultural expressions and how the tradition has responded to the various changes intellectual social technological of modern times This more structural approach will make it easier for students to compare and contrast traditions resulting in a solid well rounded introduction to the study of world religions

Critics Not Caretakers Russell T. McCutcheon, 2023-11-30 The essays collected together in Critics Not Caretakers argue that the study of religion must be rethought as an ordinary aspect of social historical existence a stance that makes the scholar of religion a critic of cultural and historical practices rather than a caretaker of religious tradition or a font of timeless wisdom and deep meaning The book begins with several essays that outline the basis of an alternative sociorhetorical approach to studying religion before moving on to a series of discrete dispatches from the ongoing theory wars each of which uses the work of such writers as Karen Armstrong Walter Burkert Benson Saler and Jacob Neusner as a

point of entry into wider theoretical issues of importance to the field's future. The author then examines the socio-political role of this brand of critical scholarship, a role that differs dramatically from the type of sympathetic caretaking generally associated with scholars of religion who feel compelled to go public. Concluding the work is a consideration of how scholars as teachers can address issues of theory, method, and critical thinking in a variety of undergraduate classrooms, the location where they have always been publicly accountable intellectuals. The new edition of this still read and for some controversial book preserves the original essays but includes a new opening chapter and new introductory commentaries across all of the chapters to demonstrate how little the field has changed since the volume was first published in 2001. Accordingly, the book continues to provide a viable alternative for those wanting to take a more critical approach to the study of religion.

Encyclopedia of Love in World Religions [2 Volumes] Yudit Kornberg Greenberg, 2008. This is the first comprehensive resource on the subject of love in the teachings of the world's major religions, cultures, and philosophies. *Encyclopedia of Love in World Religions* is the first reference work to offer a comprehensive portrait of love in the context of the classic and contemporary literature of Judaism, Christianity, Islam, Buddhism, and Hinduism, as well as other cultures and philosophies. Like no volume published to date, it reveals the full richness of religious teachings on love in all its many forms, exploring an extensive range of topics that offer philosophical, psychological, and religious perspectives to guide the quest for the meaning of love. *Encyclopedia of Love in World Religions* features approximately 300 subject entries, as well as insightful biographic sketches of preeminent thinkers, all written by a multidisciplinary team of some of the foremost scholars on the subject. Entries examine both general and culture-specific interpretations of love, not just the dichotomy of spiritual and physical love, but the full emotional spectrum of love in relationships and practices. Collectively, they encompass love's integral and sometimes conflicting role in shaping beliefs and behavior in a vastly diverse world. 300 entries covering notions of love that include emotions, actions, and relationships as expressed in world religions, philosophies, and cultures. Contributions from nearly 200 distinguished international scholars representing diverse religious traditions and cultures. A vivid and informative illustration program of classic art drawings and photographs representing love in the full spectrum of the world's spiritual cultures. Bibliographies of key sources for each entry, with citations from a variety of disciplines: religion, philosophy, history, anthropology, and more. Indexes organized by concepts, titles of classic texts, and religions. *World Faiths Encounter*, 2000.
