America Rolf Lundén, 2022-06-08 This book discusses the American short story composite or short story cycle a neglected form of writing consisting of autonomous stories interlocking into a whole The critical work done on this genre has so far focused on the closural strategies of the composites on how unity is accomplished in these texts This study takes into consideration to a greater degree than earlier criticism the short story composite as an open work emphasizing the tension between the independent stories and the unified work between the discontinuity and fragmentation on the one hand and the totalizing strategies on the other The discussion of the genre is illustrated with references to numerous American short story composites
