The Rise of Historical Economics and Social Reform in Germany, 1864-1894 Erik Grimmer-Solem,2003 An investigation of the thought activity and influence of the economist and social reformer Schmoller in the era of Bismarck This study explores Schmoller s immense and lasting impact on the development of the social sciences and welfare state in Germany *The Ecclesiastical Review*

,1912 **Empowerment of the Catholic Laity in the Nigerian Political Situation** Peter Chidi Okuma,2009 In light of this research work the Vatican II Council remains a landmark and its document Apostolicam Actuositatem what we decided to call a Text of witness of actions for the Catholic Laity the Decree on the Apostolate of the Laity inter alia Lumen gentium and Gaudium et spes that border on the mission of the Catholic Laity in the human society is a great achievement After the Vatican II Council the Church saw the need to enhance and harness the witnessing message of the Council for the Catholic Laity mission in the Church and in the world In the light of the foregoing this work is part of these efforts We developed a hermeneutical model via the political theology of Johann Baptist Metz in the light of the Vatican II Council message that becomes a challenge for concrete action of the Nigerian Catholic Laity in the existential socio political situation of Nigeria

Ecclesiastical Review ... Herman Joseph Heuser,1912 *Christianity and Global Law* Rafael Domingo,John Witte, Jr.,2020-03-31 This book explores both historical and contemporary Christian sources and dimensions of global law and includes critical perspectives from various religious and philosophical traditions Two dozen leading scholars discuss the constituent principles of this new global legal order historically comparatively and currently The first part uses a historical

biographical approach to study a few of the major Christian architects of global law and transnational legal theory from St Paul to Jacques Maritain The second part distills the deep Christian sources and dimensions of the main principles of global law historically and today separating out the distinct Catholic Protestant and Orthodox Christian contributions as appropriate Finally the authors address a number of pressing global issues and challenges where a Christian informed legal perspective can and should have deep purchase and influence The work makes no claim that Christianity is the only historical shaper of global law nor that it should monopolize the theory and practice of global law today But the book does insist that Christianity as one of the world s great religions has deep norms and practices ideas and institutions prophets and procedures that can be of benefit as the world struggles to find global legal resources to confront humanity s greatest challenges The volume will be an essential resource for academics and researchers working in the areas of law and religion transnational law legal philosophy and legal history **Каталог књига личне библиотеке Георгија Зубковића** Мара Тодоровић,1994
