He drops by the editorial offices of *US Weekly* and spends time at a laboratory where monkeys give up food to stare at pictures of dominant members of their group. Whether he is interviewing Rod Stewart or the nation's leading experts on addiction Halpern deftly uncovers the strange working of our fame-obsessed psyches. By interweaving stories from his travels with new research including original findings from his own fame survey Halpern explains how psychology, technology, evolution and profit conspire to make the world of red carpets and velvet ropes so enthralling. *Fame Junkies* is a provocative and insightful portrait of an America that wants nothing more than to see and be seen.
