Winckelmann And The Vatican's First Profane Museum:

Winckelmann and the Vatican's First Profane Museum L. Ruprecht, 2011-11-08 Offers the first ever historical descriptions of the foundation of the Museo Profano inside the Vatican in 1761 Using the palace records from the Vatican's Secret Archives Ruprecht demonstrates that the Vatican museum was the brainchild of J J Winckelmann the so called father of Art History

Quatremère de Quincy's Moral Considerations on the Place and Purpose of Works of Art, 2021-07-19 Antoine Chrysostome Quatremère de Quincy 1755 1849 was the most important Neoclassical art historian in the generation after Johann Joachim Winckelmann 1717 1768 It is difficult now to appreciate his importance due in part to the lack of translations of his 21 published books three were rendered into English in the 19th century and one in the 21st The Moral Considerations has long been considered the most shattering polemic against public museums ever written But I will show that Quatremère's polemic was aimed not against museums per se but rather against the imperialist and secularist curatorial purposes of Parisian museums in the age of Revolution His Neoclassical commitments maintained the centrality of religion and of incarnation to any proper understanding of the place and purpose of the fine arts

Modern Biblical Criticism as a Tool of Statecraft (1700-1900) Scott Hahn, Jeffrey L. Morrow, 2020-04-27 Modern biblical scholarship is often presented as analogous to the hard and natural sciences its histories present the developmental stages as quasi scientific discoveries That image of Bible scholars as neutral scientists in pursuit of truth has persisted for too long Modern Biblical Criticism as a Tool of Statecraft 1700 1900 by Scott W Hahn and Jeffrey L Morrow examines the lesser known history of the development of modern biblical scholarship in the eighteenth and nineteenth centuries This volume seeks partially to fulfill Pope Benedict XVI's request for a thorough critique of modern biblical criticism by exploring the eighteenth and nineteenth century roots of modern biblical scholarship situating those scholarly developments in their historical philosophical theological and political contexts Picking up where Scott W Hahn and Benjamin Wiker's *Politicizing the Bible The Roots of Historical Criticism and the Secularization of Scripture* 1300 1700 left off Hahn and Morrow show how biblical scholarship continued along a secularizing trajectory as it found a home in the newly developing Enlightenment universities where it received government funding Modern Biblical Criticism as a Tool of Statecraft 1700 1900 makes clear why the discipline of modern biblical studies is often so hostile to religious and faith commitments today

The Allure of Sports in Western Culture John Zilcosky, Marlo A. Burks, 2019-09-10 Whether it is our love of chance and vicarious thrill our need to release anxiety and aggression or our appreciation of the arc traced by a ball at a crucial moment sports draw us in The Allure of Sports in Western Culture contributes to contemporary debates about the attraction of sports in the West by providing a historical grounding as well as theoretical perspectives and contextualization Bringing together the work of literary theorists historians and athletes the volume's dual emphasis allows us to better understand the historical and ideological reasons for the changing nature of sports allure from Ancient Greece and Rome to the modern Olympics The findings show that allure is

shaped by larger forces such as poverty wealth and status changing moral standards and political and cultural indoctrination On the other hand personal and psychological factors play an equally important if less tangible role our love for scandal the seduction of deception and violence and the physiological intoxication of watching and participating in sports keep us hooked At the heart of the volume lies the tension between our love of sport and our knowledge of its only barely hidden cruelty exploitation and manipulation Religious Convergence in the Ancient Mediterranean Sandra Blakely,Billie Jean

Collins,2019-12-15 This volume brings together scholars in religion archaeology philology and history to explore case studies and theoretical models of converging religions The twenty four essays offered in this volume which derive from Hittite Cilician Lydian Phoenician Greek and Roman cultural settings focus on encounters at the boundaries of cultures landscapes chronologies social class and status the imaginary and the materially operative Broad patterns ultimately emerge that reach across these boundaries and suggest the state of the question on the study of convergence and the potential fruitfulness for comparative and interdisciplinary studies as models continue to evolve **Report on the Aeginetan Sculptures** Johann

Martin Wagner,2017-04-24 Tells the story of Bavaria s acquisition of ancient Greek sculptures that rivaled those acquired by England from the Parthenon The controversial removal of the Parthenon sculptures from Greece to England in the first decade of the nineteenth century by Thomas Bruce seventh Earl of Elgin sparked an international competition for classical antiquities This volume tells a lesser known chapter of that story concerning sculptures from the Temple of Aphaia on the Greek island of Aegina Discovered in 1811 as the Parthenon project was nearing its completion these ancient sculptures were acquired at auction by Johann Martin Wagner 1777 1858 on behalf of Crown Prince Ludwig of Bavaria The sculptures turned out to be significant in a number of ways offering important evidence for a transitional period of Greek art between the archaic and classical eras for the existence of an independent Aeginetan school that was the equal of Athenian art at the time and for Greek sculptures having been elaborately painted and adorned Originally published in 1817 and presented here for the first time in English this book reproduces the report commissioned by the crown prince that was written by Wagner and edited by F W J Schelling and contained richly detailed descriptions of the sculptures In addition Louis A Ruprecht Jr provides a comprehensive historical introduction featuring a constellation of intellectual figures an afterword notes appendices and more than forty images to tell the fascinating story of the sculptures and their legacy from excavation to the present day **Religion and Realism** Davor Džalto,2016-05-11 This volume revisits the concepts of reality and realism

with regard to their relation to religion and the religious real Religion remains one of the most significant social forces and cultural constituencies and it can even be said that religion and religious truths are becoming increasingly important in these so called post secular times when the sphere of the secular social political and the sphere of the religious have to be reconsidered The relevancy of religious truths and the way they structure our understanding of reality overcomes the sphere of theology and particular religious practices Religion truth and reality and the way these concepts are approached and

understood continue to be vital for a broader cultural discourse as well from philosophy and science to politics mass media and show business The book presents ten essays that offer methodologically diverse and intellectually challenging analyses of various aspects of the topics of Religion and Realism The essays are based on papers presented at the international conference on Religion and Realism which took place at the American University of Rome in 2014 Studies in the Literary Imagination ,2015 Guida ai musei e alla Città del Vaticano.
