Turner** Michael Gosney, 2008 Turner s unique path combined the rigorous discipline of the West Point Military Academy an intensive artistic education under New York master painters and an architectural apprenticeship with John Lloyd Wright His work has been characterized by a deep ecological sensibility and regionalist outlook a commitment to community social activism and a love of people Turner designed and built over 50 residential and commercial real estate projects making a definitive mark on the character of Del Mar California From publisher **Communities of Frank Lloyd Wright** Myron A. Marty, 2009 Despite the numerous studies of Frank Lloyd Wright s life and architecture little has been published about his life in relation to the communities that dominated his life Wright a fervent believer in individualism and an ardent advocate of democracy worked in communities throughout his career of more than six decades These communities which he led with unquestioned authority made possible his extraordinary productivity They also helped sustain his genius provided him with crucial social outlets and made it possible for him to remain a creative force outside the mainstream of American architecture until his death at age 91 Almost immediately after arriving in Chicago in 1887 Wright began working in the company of architects and draftsmen most notably Joseph Lyman Silsbee Dankmar Adler and Louis Sullivan In 1893 he opened his own practice in downtown Chicago and formed relationships with communities of young architects and draftsmen there Five years later Wright moved his venture to his home and studio in Oak Park Although his community of coworkers there was highly productive in 1909 he abandoned them his practice and his family turned his projects over to others and left for Europe with his mistress In the next twenty years he formed incidental communities wherever his work took him including Europe Japan California and Arizona while maintaining his base at Taliesin his home near Spring Green Wisconsin In 1932 after years of hardship Wright

and his third wife Olgivanna founded the Taliesin Fellowship a community of apprentices and assistants Five years later the Fellowship began to spend winters at Taliesin West a camp he designed in Scottsdale Arizona When Wright died in 1959 his widow became the Fellowship's unchallenged leader and she remained so until her death 26 years later Marty's groundbreaking work is neither a biography of Wright nor a study of his architecture rather it is the story of his life in communities particularly the Taliesin Fellowship This study will be of interest to Wright scholars and enthusiasts architects architectural historians and architecture students Frank Lloyd Wright in Word and Form David Michael Hertz, 1995 This study of Frank Lloyd Wright analyzes Wright's architectural vision in light of his extensive writings Frank Lloyd Wright and the Meaning of Materials Terry L. Patterson, 1994 In his richly illustrated Frank Lloyd Wright and the Meaning of Materials Patterson takes an unprecedented look at more than 240 of Wright's buildings and projects the justly celebrated triumphs as well as lesser known but no less telling structures In the book's core chapters each devoted to a specific material he objectively analyzes Wright's handling of wood stone brick concrete block metals concrete and glass Methodically he examines whether the form workability strength and durability of each material its essence has been emphasized subdued or misrepresented in these tangible architectural expressions Throughout Patterson uniquely juxtaposes the reality of Wright's overall material sensitivity with nearly 200 of Wright's own pronouncements on the subject For the first time architects designers and art historians see in the truest sense whether Wright's final achievements are consonant with his ambitious aims Importantly readers are encouraged to reach their own conclusions which may differ from Patterson's own deeply felt judgments **Frank Lloyd Wright and the Prairie School in Wisconsin** Kristin Visser, 1992 Frank Lloyd Wright had his summer studio in Spring Green Wisconsin and his influence together with that of the prairie school pervaded the state as businesses and individuals sought this popular style **Frank Lloyd Wright Quarterly**, 2003 **Frank Lloyd Wright's Fallingwater** Donald Hoffmann, 1993-01-01 Traces the complicated development of Frank Lloyd Wright's Fallingwater including planning site selection and construction Frank Lloyd Wright Christopher Wilk, 1993 This work examines in detail the background of the only complete Frank Lloyd Wright interior in Europe the Kaufmann Office It includes chapters on the architect his client Edgar Kaufmann the project and the latter history of the office *Fallingwater* Lynda S.
